Maple Leaf Against The Axis Canadas Second World War:

Maple Leaf Against the Axis David Bercuson, 1998-09-01 *Maple Leaf Against the Axis* David J. Bercuson, 2004 Maple Leaf Against the Axis is a compelling recounting of the Second World War and the Canadians who fought it Here in all its passion and drama is the story of how the Canadian army navy and air force fought in battles ranging from Hong Kong to the Rhine River crossing David Bercuson one of Canada s preeminent military historians covers the war on the ground the naval war in the North Atlantic and elsewhere and the air war both the bomber offensive and the story of those Canadians who flew everything from Canso reconnaissance aircraft in the Indian Ocean to Typhoon fighter bombers with the Second Tactical Air Force in Europe And he does it through recounting the stories of the men and women who were there and played a significant role in the Allied victory Maple Leaf Against the Axis David Jay Bercuson, 1995 Here in all its passion and drama is the story of how the Canadian Army Navy and Air Force fought during the Second World War from the battle of Hong Kong to the Rhine River crossing and the significant part Canadians played in the Allied victory **Restraint In Urban Warfare: The Canadian Attack On Groningen, Netherlands, 13-16 April 1945** Major Jeffrey D. Noll U.S. Army, 2014-08-15 Urban terrain presents significant tactical challenges to attacking armies limiting weapons effects and mobility while disrupting formations and command and control The human terrain in cities creates a tactical dilemma placing large civilian populations in close proximity to the fighting The issue of restraint in urban warfare has been described as a modern phenomenon with urban warfare in World War II characterized as unlimited In April 1945 however the Canadian Army limited its firepower while attacking the city of Groningen Netherlands to limit damage and civilian casualties This thesis examines the reasons for these restraints and the methods used to balance those restraints with accomplishment of the mission The Canadians limited their use of force for political reasons based on intent from the British They accomplished their mission due to intelligence gained from the friendly population local fire superiority gained by tanks and flamethrowers and the ineffectiveness of the poorly organized and equipped German defense This thesis provides a historical case study of the reasons for restraint in urban warfare and the tactical challenges associated with such limitations The Ghosts of Medak Pocket Carol Off, 2010-07-30 In 1993 Canadian peacekeepers in Croatia were plunged into the most significant fighting Canada had seen since the Korean War Their extraordinary heroism was covered up and forgotten The ghosts of that battlefield have haunted them ever since Canadian peacekeepers in Medak Pocket Croatia found no peace to keep in September 1993 They engaged the forces of ethnic cleansing in a deadly firefight and drove them from the area under United Nations protection The soldiers should have returned home as heroes Instead they arrived under a cloud of suspicion and silence In Medak Pocket members of the Princess Patricia s Canadian Light Infantry did exactly the job they were trained and ordered to do When attacked by the Croat army they returned fire and fought back valiantly to protect Serbian civilians and to save the UN mandate in Croatia Then they confronted the horrors of the offensive s aftermath the annihilation by the

Croat army of Serbian villages The Canadians searched for survivors There were none The soldiers came home haunted by these atrocities but in the wake of the Somalia affair Canada had no time for soldiers stories of the horrific compromises of battle the peacekeepers were silenced In time the dark secrets of Medak s horrors drove many of these soldiers to despair to homelessness and even suicide Award winning journalist Carol Off brings to life this decisive battle of the Canadian Forces The Ghosts of Medak Pocket is the complete and untold story *World War II* Spencer C. the Allies to placate Stalin's impatience for a second front in the west Historian David O Keefe uses hitherto classified intelligence archives to prove that this catastrophic and apparently futile raid was in fact a mission set up by Ian Fleming of British Naval Intelligence as part of a pinch policy designed to capture material relating to the four rotor Enigma Machine that would permit codebreakers like Alan Turing at Bletchley Park to turn the tide of the Second World War A fast paced and convincing book that clears up decades of misinformation about the ignoble raid Toronto Star *The Lancaster* Gordon A. A. Wilson, 2015-11-15 A stunning illustrated history of the most famous Second World War RAF bomber Betrayed Richard O. Delaney,2007-10-01 Self doubt so plagued him that he suffered a nervous breakdown even before fighting his first combat action But by the end of the Second World War Bert Hoffmeister had exorcised his anxieties risen from Captain to Major General and won more awards than any Canadian officer in the war Fighting from the invasion of Sicily in July 1943 to the final victory in Europe in May 1945 this native Vancouverite earned a reputation as a fearless commander on the battlefield one who led from the front one well loved by those he led How did he do it The Soldiers General explains in eloquent and accessible prose how Hoffmeister conducted his business as a military commander With an astute analytical eye Delaney carefully dissects Hoffmeister s numerous battles to reveal how he managed and how he led how he directed and how he inspired An exemplary leader Hoffmeister stood out among his contemporaries not so much for his technical ability to move

the chess pieces well there were plenty who could do that Rather Bert Hoffmeister was exceptional for his ability to get the chess pieces to move themselves

The Science of War Donald Avery, 1998-01-01 The Second World War with its emphasis on innovative weapons and defence technology brought about massive changes in the role of scientists in Canada the United States and Great Britain Canadian scientists working through the auspices of the National Research Council and the Department of National Defence made important contributions to the development of alliance warfare Before 1939 Canada had only a minute military establishment and a limited industrial and academic capacity for research and development With the outbreak of war all this changed dramatically This book explains how and why Canada was able to play in the big leagues of military technology including the development of radar RDX explosives proximity fuses chemical and biological warfare and the atomic bomb It also investigates the evolution of the Canadian national security state which attempted to protect defence secrets both from the Axis powers and from Canada's wartime ally the Soviet Union The Science of War provides both a cross disciplinary overview of the scientific and military activity of this period in several countries and a fascinating analysis of what the author calls Big Science in Canada
