Marching Orders Vol 92 The Role Of The Military In South Korea's Economic Miracle 1961-1971:

Park Chung Hee and Modern Korea Carter J. Eckert, 2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader. For South Koreans the twenty years from the early 1960s to late 1970s were the best and worst of times: a period of unprecedented economic growth and of political oppression that deepened as prosperity spread. In this masterly account Carter J. Eckert finds the roots of South Korea's dramatic socioeconomic transformation in the country's long history of militarization, a history personified in South Korea's paramount leader Park Chung Hee. In Park Chung Hee and Modern Korea Eckert reveals how the foundations of Park's leadership were established during the period of Japanese occupation. As a cadet in the Manchurian Military Academy, Park and his fellow officers absorbed the Imperial Japanese Army's ethos of victory at all costs and absolute obedience to authority. When Park seized power in 1961, he applied this ethos to the project of Korean modernization. Korean society under Park exuded a distinctively martial character. Eckert shows its hallmarks included the belief that the army should intervene in politics in times of crisis, that a central authority should manage the country's economic system, and that the state should maintain a strong disciplinary presence in society, reserving the right to use violence to maintain order. A milestone in the literature of modern East Asia. Bruce Cumings, author of Korea's Place in the Sun **Marching Orders** Jon Huer, 1989-07-07 This modern day rags to riches story tells how one of the poorest nations in the world evolved into one of the most technologically advanced. How did South Korea do it? The miracle that occurred in South Korea was produced in essence by military men, many of whom had undergone extensive managerial training in the United States in the preceding decade who gave marching orders to a responsive populace. Marching Orders, a historically factual yet fast-paced and dramatic page-turner, chronicles in five parts the history and events that led to General Park Chung Hee's 1961 coup d'état and the transformations in Korean society that followed it during the next decade. Part One surveys Korea prior to 1961: a deprived colony during the Japanese occupation, then a war-devastated, barely industrialized nation whose existence depended heavily on U.S. economic aid. Part Two analyzes the military establishment, a crucial factor in Korea's economic prosperity even today. The military takeover of 1961 and the subsequent establishment of the Supreme Council for National Reconstruction (SCNR) were the turning points for this politically and economically bankrupt nation. These events led to the massive changes which are detailed in Parts Three and Four, along with the rationalization of the political sphere and the various aspects of economic rationalization, including the now famous New Village Movement, a model of agricultural development for other emerging nations. In Part Five, the role and potential of the military in national development are explained, and South Korea is presented as a success story. Indeed, Marching Orders could well serve as a How-To book for emerging countries. Highly readable, Marching Orders has been written for the generalist without sacrificing scholarship. It will also prove useful to specialists in sociology, political science, economics, and Southeast Asia, to entrepreneurs engaged in trade with South Korea, and to those
