Arctic and Northern Waters Andrew Wilkes, 2020-01-05 Do you only have a week to spare For those of us who are time poor but who want to seize the moment either on our own boat or on a charter it's reassuring to know that there are plenty of cruising hubs from where we can enjoy some of the best of the region in only a few days Imray Pocket Pilots are a new series of affordable PDF books companions to the Yachting Monthly series A Week Afloat They visit some ideal destinations and suggest a one week itinerary and include expanded sailing directions for cruising each area based on printed Imray pilot books Familiar Imray chartlets cover marina detail and approaches and photos add both information and colour to the downloads This Imray Pocket Pilot covers The Ionian Greece

Charting Northern Waters William Glover, 2004-04-01 Charting Northern Waters also offers a detailed review of Russian hydrography on their northern coast from 1900 to 1940 and an in depth discussion of American oceanographic work in the north in 1951 Other topics include the Labrador survey of HMS Challenger in 1932 34 German hydrographic and oceanographic support of the U boat campaign in Canadian waters during World War II and Canadian technical developments over the past fifty years

Water without Borders? Emma S. Norman, Alice Cohen, Karen Bakker, 2013-10-30 Since 1909 the waters along the Canada US border have been governed in accordance with the Boundary Water Treaty but much has changed in the last 100 years This engaging volume brings together experts from both sides of the border to examine the changing relationship between Canada and the US with respect to shared waters as well as the implications of these changes for geopolitics and the environment Water without Borders is a timely publication given the increased attention to shared water issues and particularly because 2013 is the United Nations International Year of Water Cooperation Water without Borders is designed to help readers develop a balanced understanding of the most pressing shared water issues between Canada and the United States The contributors explore possible frictions between governance institutions and contemporary management issues illustrated through analyses of five specific transboundary water flashpoints The volume offers both a historical survey of transboundary governance mechanisms and a forward looking assessment of new models of governance that will allow us to manage water wisely in the future

North by 2020 Amy Lauren Lovcraft, Hajo Eicken, 2011-11-15 Originating from a series of workshops held at the Alaska Forum of the Fourth International Polar Year this interdisciplinary volume addresses a host of current concerns regarding the ecology and rapid transformation of the arctic Concentrating on the most important linked social ecological systems including fresh water marine resources and oil and gas development this volume explores opportunities for sustainable development from a variety of perspectives among them social sciences natural and applied sciences and the arts Individual chapters highlight expressions of climate change in dance music and film as well as from an indigenous knowledge based perspective

Water for the Americas Alberto Garrido, Mordechai Shechter, 2014-08-07 The

chapters in this volume are peer reviewed editions of the papers presented at the 7th meeting of the Rosenberg International Forum on Water Policy which was held in Buenos Aires Argentina on November 15 17 2010 The theme for Forum VII was Water for the Americas Challenges and Opportunities This Forum was unique in examining the water problems of the Americas and identifying water management experience gleaned in other parts of the world that might be useful in addressing the problems of the Americas The sessions illustrated how the water problems of the Americas are common problems differing only in degree from basin to basin There was unanimity among the participants about the need for all inhabitants of the Americas to work together to ensure that everyone has access to adequate quantities of healthy water supplies and to appropriate sanitation services This volume s approach is to identify different responses and policies that address common issues and learn from contrasts and experiences The value and potential that this approach affords is that it provides critical judgments about what has worked well and what needs to be done to gain a better future for the Americas water resources and society Some issues covered in the volume are so pressing and urgent chief among them is serving the unserved that any delays putting out new facilities in many a rural areas of Central America may cost lives and reduce the outlook for children Additionally the volume makes clear that the outlook for the poorest and the future of hundreds of growing cities are threatened by climate change This book looks into the future by analyzing present and relevant data and gains insight from the different developmental stages of the hemisphere

The New Battle for the Atlantic Magnus F Nordenman,2019-06-15 In this book Magnus Nordenman explores the emerging competition between the United States and its NATO allies and the resurgent Russian navy in the North Atlantic This maritime region played a key role in the two world wars and the Cold War serving as the strategic link between the United States and Europe that enabled the flow of reinforcements and supplies to the European Allies Nordenman shows that while a conflict in Europe has never been won in the North Atlantic it surely could have been lost there With Vladimir Putin s Russia threatening the peace in Europe following the annexation of Crimea in 2014 the North Atlantic and other maritime domains around Europe are once again vitally important But this battle will in many ways be different Nordenman demonstrates due to an overstretched U S Navy the rise of disruptive technologies a beleaguered NATO that woke up to the Russian challenge unprepared for high end warfighting in the maritime domain and a Russia commanding a smaller but more sophisticated navy equipped with long range cruise missiles Nordenman also provides a set of recommendations for what the United States and NATO must do now in order to secure the North Atlantic in this new age of great power competition
