Arctic Bibliography Arctic Institute of North America, 1953 **Abstracts of North American Geology** ,1969 *The Price of Gold* John Sandlos, Arn Keeling, 2025-10-16 Fifty years of gold mining at Yellowknife in the Northwest Territories spurred northern settlement and produced millions of dollars in profits But mineral processing also had catastrophic environmental effects and left a troubled legacy When two mining companies in Yellowknife began processing gold ore in the 1940s they did so with little or no pollution controls Giant Mine spewed thousands of kilograms of arsenic trioxide from its roaster stack into the environment causing illness and death among people and animals especially in the adjacent Yellowknives Dene community Even after the companies installed controls arsenic trioxide continued to enter the atmosphere and waterways Eventually Giant Mine the biggest polluter would deposit the arsenic dust beneath the mine leaving 237 000 tonnes of highly toxic material buried underground For decades the mining companies and the federal government hid the worst effects of the pollution doubted their own studies and resisted calls for action Yet the Yellowknives Dene fought back with the support of labour unions and environmental groups questioning the safety of the air and water in their community and the massive toxic deposit underground The Price of Gold traces the troubling history of one of Canada's most contaminated sites but also the inspiring story of Indigenous labour and environmental activists who resisted the ongoing poisoning of their communities **House of Commons Debates, Official Report** Canada. Parliament. House of Commons, 1911 Bibliography of North American Geology ,1964 1919 28 cumulation includes material previously issued in the 1919 20 1935 36 issues and also material not published separately for 1927 28 1929 39 cumulation includes material previously issued in the 1929 30 1935 36 issues and also material for 1937 39 not published separately Geological Survey of Canada, Current Research (Online) no. 2007-A7 , **Earthquake Data Report** ,1994 **Tusaayaksat - Summer 2016** Tusaayaksat Magazine, 2021-04-27 Arctic Winter Games Nuuk 2016 **Science Education in Canada** Christine D. Tippet, Todd M. Milford, 2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada's successes The book highlights commonalities consistencies and

distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education

Taking the Bite out of Rabies David Gregory, Rowland Tinline, 2020-07-02 Taking the Bite out of Rabies records the evolution of rabies management and control in Canada [Atlas of Chrysophycean Cysts](#) A.N. Wilkinson, Barbara A. Zeeb, John P. Smol, 2013-06-29 This Atlas attempts to dispel some of the mystery surrounding stomatocysts to facilitate the accurate identification of individual cyst morphotypes and to encourage other workers to begin using these important indicators of environmental change The terminology is outlined in detail This is followed by detailed descriptions of cyst morphotypes which continues from work completed in the first Atlas Any available biogeographical and ecological information is also provided We believe this Atlas will be useful to paleoecologists who wish to include stomatocysts in their studies We also expect this book will be used by researchers working with living chrysophytes and those interested in the morphology and ultrastructure of cyst morphotypes Hopefully these descriptions will further accelerate the continued effort to link cyst morphotypes to the algae that produce them
