Phenomenologie De La Mort Sur Les Traces De Levinas:

Phénoménologie de la mort Etienne Feron, 1999 *Phénoménologie de la mort* Etienne Feron, 1999 Inspired by Levinas but in constant dialogue with Heidegger Feron considers death to be a phenomenon that lies within the reach of phenomenology The act of the other's death is essentially a decease a break affecting the identity It forces man to consider the fundamental intersubjectivity inscribed in his temporality Viewed in this way death does not look merely like the term of life coming to an end Nor is it a passage to somewhere beyond Rather it lies at the core of the act of relationship In its search in the space between sense and non sense this phenomenology of death reveals the fundamentally relational dimension of the humane and sketches the main features of this paradoxical intersubjectivity the position of third party that is taken by man the calling of son that he has been selected for and midway between passivity Levinas and possibility Heidegger the condition of liability to which he is dedicated and of which he is also worthy The Inhuman Condition Rudi Visker, 2006-01-27 At the origin of this volume a simple question what to make of that surprisingly monotonous series of statements produced by our societies and our philosophers that all converge in one theme the importance of difference To clarify the meaning of the difference at stake here we have tried to rephrase it in terms of the two major and mutually competing paradigms provided by the history of phenomenology only to find both of them equally unable to accommodate this difference without violence Neither the ethical nor the ontological approach can account for a subject that insists on playing a part of its own rather than following the script provided for it by either Being or the Good What appears to be from a Heideggerian or Levinasian perspective an unwillingness to open up to what offers to deliver us from the condition of subjectivity is analysed in these pages as a structure in its own right Far from being the wilful indifferent and irresponsible being its critics have portrayed it to be the so called postmodern subject is essentially finite not even able to assume the transcendence to which it owes its singularity This inability is not a lack it points instead to a certain unthought shared by both Heidegger and Levinas which sets the terms for a discussion no longer our own Instead of blaming Heidegger for underdeveloping being with we should rather stress that his account of mineness may be in the light of contemporary philosophy what stands most in need of revision And instead of hailing Levinas as the critic whose stress on the alterity of the Other corrects Heidegger's existential solipsism the problems into which Levinas runs in defining that alterity call for a different diagnosis and a corresponding change in the course that phenomenology has taken since Instead of preoccupying itself with the invisible we should focus on the structures of visibility that protect us from its terror The result An account of difference that is neither ontological nor ethical but in ontological and that can help us understand some of the problems our societies have come to face racism sexism multiculturalism pluralism And in the wake of this an unexpected defence of what is at stake in postmodernism and in the question it has refused to take lightly who are we Finally an homage to Arendt and Lyotard who if read through each other's lenses give an exact articulation to the question with which our age struggles how

to think the human condition once one realizes that there is an inhuman side to it which instead of being its mere negation turns out to be that without which it would come to lose its humanity **Rediscovering Phenomenology** Luciano Boi, Pierre Kerszberg, Frédéric Patras, 2007-07-18 This book proposes a new phenomenological analysis of the questions of perception and cognition which are of paramount importance for a better understanding of those processes which underlies the formation of knowledge and consciousness It presents many clear arguments showing how a phenomenological perspective helps to deeply interpret most fundamental findings of current research in neurosciences and also in mathematical and physical sciences **Les deux morts de Maurice Blanchot** Etienne Pinat, 2014

Intentionalitätstheorie beim frühen Brentano A. Chrudzimski, 2013-06-29 The book is an analytic exposition of Brentano's early theory of intentionality In spite of the immense influence of this theory it is the first separate monograph on this topic The book is based in great part on the unpublished manuscripts where one can find substantially better articulated formulations than those expressed in the already published standard works Our analysis concentrates mainly on the ontological and epistemological problems of Brentano's immanent object We highlight an interesting ambiguity of this concept and try to outline the inner logic of its evolution It turns out that Brentano's early philosophy of intentionality should be conceived not as a single well defined theory but rather as a bundle of kindred but not always fully consistent and sometimes even competing ideas Primary audience for the work are philosophers interested in Brentano's philosophy theory of intentionality and its epistemology and ontology phenomenologists and cognitive scientists Das Buch bietet eine analytische Darstellung von Brentanos früherer Theorie der Intentionalität Trotz der großen historischen Bedeutung dieser Theorie bildet es die erste Monographie zu diesem Thema Das Buch basiert zum größten Teil auf den unveröffentlichten Manuskripten in denen man die Formulierungen findet die viel besser artikuliert sind als jene die in den publizierten Standard Werken Brentanos zu finden sind Unsere Analyse konzentriert sich in erster Linie auf die ontologischen und epistemischen Probleme des Brentanoschen immanenten Objekts Wir besprechen eine interessante Mehrdeutigkeit dieses Begriffs und skizzieren die innere Logik seiner Entwicklung Es stellt sich heraus daß die frühe Philosophie der Intentionalität Brentanos nicht als eine einheitliche eindeutig bestimmte Theorie sondern eher als ein Bündel von verwandten jedoch nicht immer völlig kohärenten und manchmal sogar konkurrierenden Ideen interpretiert werden soll Das Buch wendet sich in erster Linie an die Philosophen die sich für die Philosophie Brentanos für die österreichische Philosophie für die Theorie der Intentionalität und ihre Epistemologie und Ontologie interessieren Es wird ferner auch für die Phänomenologen und die Forscher im Bereich der cognitive science interessant sein **One Hundred Years of Phenomenology** D. Zahavi, Frederik Stjernfelt, 2013-04-17 This volume commemorates the centenary of Logical Investigations by subjecting the work to a comprehensive critical analysis It contains new contributions by leading scholars addressing some of the most central analyses to be found in the book **Phänomenologie der schwachen Phantasie** Dieter Lohmar, 2007-11-29 This book is

an effort to bring genetic phenomenological analyses in contact with empirical psychology neurology cognitive science and research in primate cognition The conclusion reached is that most higher order achievements of our mind might in fact be accomplished without language in the low level system of phantasmatic imagination This leads to an inclusive theory of the subject which allows us to understand how higher organized animals like primates can think

Heidegger et le problème de la mort Cristian Ciocan, 2013-11-12 Cet ouvrage est la première monographie systématique d'expression française de et exclusivement au problème heideggerien de la mort Il se donne pour tâche de clarifier tout l'enjeu de cette question capitale de la pensée de Martin Heidegger La nouveauté de cette étude réside dans une approche systématique et précise de Sein und Zeit partant d'une clarification rigoureuse de la notion d'Existenzial en interprétant le problème de la mort dans l'articulation des structures fondamentales de l'être du Dasein Cette approche permet non seulement d'explicitier les différentes couches ontologiques où intervient le phénomène de la mort dans l'analytique existentielle mais aussi de mettre en lumière la rigueur de l'analyse heideggerienne et la systématité de sa démarche En outre cette investigation explore l'intégralité de la pensée de Heidegger des écrits de jeunesse jusqu'aux textes les plus tardifs l'ouvrage retrace non seulement la genèse complexe de cette question mais aussi son évolution arborescente

Phénoménologie de la religion et herméneutique théologique dans la pensée du jeune Heidegger Sylvain Camilleri, 2007-12-20 Cette étude tente de reconstruire la première phénoménologie de la religion du jeune Heidegger par l'examen du recueil de notes parsemées entre 1916 et 1919 et intitulé retrospectivement Les fondements philosophiques de la mystique médiévale Entre sa thèse de habilitation et ses premiers cours d'après-guerre Heidegger se consacre à l'écriture d'une Phénoménologie de la conscience religieuse qui pour des raisons quelque peu mystérieuses restera finalement inachevée Si certains de ses éléments seront repris et assimilés dans les cours sur Paul et Augustin des années 1920 et 1921 de nombreux autres concernant des auteurs tels que Maître Eckhart Bernard de Clairvaux Luther Schleiermacher ou Adolf Reinach ou des notions phénoménologiques théologiques et religieuses telles que la prière la foi la prière ou l'a priori religieux trouvent dans ce texte une thématisation tout fait spécifique dictée par une situation biographique et philosophique singulière C'est pour reprendre cette dimension hapaxique que ce livre tente un commentaire exhaustif des notes heideggeriennes Et c'est l'occasion de cette lecture suivie que sont apparues les grandes lignes de ce que l'on peut appeler une herméneutique théologique censée guider la phénoménologie sur le terrain religieux nouvellement investi et la familiariser avec des phénomènes qui résistent en certains endroits son esprit méthodique Malgré leur caractère introductif les premières recherches de Heidegger témoignent d'une richesse d'une profondeur et d'un respect de la vie religieuse inégalés ce jour et il n'est pas exagéré de dire qu'elles devraient servir de prolongement toute phénoménologie future de la religion Ainsi parallèlement au travail d'explication le travail ici présenté esquisse en ce domaine quelques chemins possibles en prolongeant certaines descriptions heideggeriennes et en posant les bases d'un nouveau dialogue entre phénoménologie théologie et sciences religieuses

The Ontology of Time A. Chernyakov, 2013-03-09 To understand the role

of time within the scope of 20th century ontology after the fundamental works of E Husserl M Heidegger P Ricoeur and E Levinas means to develop simultaneously the ontology of time My aim is to demonstrate that in a definite sense the postmodern ontology is chronology The argument proceeds and this constitutes its essential novelty within the multidimensional space involving not only the synchronic stratum of current conceptuality in its internal logical relationships but also the diachronic axis of conceptual genesis I apply different strategies of analysis in order to emphasize that the concept of the human Self the concept of being and the concept of time are inseparably linked with one another To this triad I add one more link of a theological nature viz the relationship between God and the human mind as it has been developed in Orthodox apophatic theology and during the Scholastic controversies concerning the problem of visio Dei

Langage et subjectivité A. Cools, Maurice Blanchot, Emmanuel Lévinas, 2007 Pourquoi parler du differend Pourquoi employer ce terme comme modalité d'approche des deux œuvres de Maurice Blanchot et d'Emmanuel Levinas Il ne s'agit pas ici de nier leur rapport d'amitié mais il faut inverser l'argument c'est grâce à leur amitié qu'il devient possible d'articuler les termes dans lesquels s'exprime la condition du differend Qu'en est-il de cette condition L'argumentation se développe à partir de la thèse suivante pour pouvoir expliquer la persistance du differend il n'est pas possible de faire évacuer la question de la subjectivité dans l'événement du langage D'où l'enjeu d'une confrontation des rapports hétérogènes de Blanchot et Levinas à cette impossibilité Les deux auteurs nous permettent d'explicitier le differend à partir d'un contexte phénoménologique Mais leurs approches divergentes de l'événement du langage mènent vers un non-lieu décisif où le pouvoir du langage est en cause et qui rompt aussi avec la seule description phénoménologique C'est ainsi en suivant ce double mouvement qui va au-delà du descriptif que le lecteur est aux prises avec un écart entre les deux amis qui persiste dans leurs écrits La poursuite se passe aussi l'essentiel l'avènement avant même qu'il soit question de l'être d'une modification du rapport à soi En retracant l'histoire de cet écart qui se dissimule dans le rapport entre Blanchot et Levinas cette étude veut à la fois sonder son origine interroger son insistance et en dégager les termes qui exposent le differend comme une condition qui nous concerne

Crisis and Reflection J. Dodd, 2006-01-12 In his last work *Crisis of the European Sciences and Transcendental Phenomenology* Edmund Husserl formulated a radical new approach to phenomenological philosophy Unlike his previous works in the *Crisis* Husserl embedded this formulation in an ambitious reflection on the essence and value of the idea of rational thought and culture a reflection that he considered to be an urgent necessity in light of the political social and intellectual crisis of the interwar period In this book James Dodd pursues an interpretation of Husserl's text that emphasizes the importance of the problem of the origin of philosophy as well as advances the thesis that for Husserl the crisis of reason is not a contingent historical event but a permanent feature of a life in reason generally

Husserl and Heidegger on Being in the World Søren Overgaard, 2004-04-30 It is a study of the phenomenological philosophies of Husserl and Heidegger Through a critical discussion including practically all previously published English and German literature on the subject the

aim is to present a thorough and evenhanded account of the relation between the two The book provides a detailed presentation of their respective projects and methods and examines several of their key phenomenological analyses centering on the phenomenon of being in the world It offers new perspectives on Husserlian and Heideggerian phenomenology e g concerning the importance of Husserl s phenomenology of the body the relationship between the Husserlian concept of constitution and Heidegger s notion of transcendence as well as in its argument that being designates the central phenomenon for both phenomenologists Though the study sacrifices nothing in terms of argumentative rigor or interpretative detail it is written in such a way as to be accessible and rewarding to non specialists and specialists alike **De L'éthique à la Justice** Ernst Wolff,2007-10-06 Emmanuel L vinas est le philosophe de la non indifférence il n est en aucune sorte un philosophe indifférent Son inquiétude personnelle et engagement politique ont trouvé une expression philosophique dans une quete de deux versants Dans le versant ontologique il cherche montrer que même si l homme est l vnement de compréhension de l tre tout l homme et toute signification ne se réduisent pas la compréhension de l tre seul Dans le versant politique il s interroge sur la possibilité de soumettre la tendance totalitaire de toute politique une recherche de justice qui ne dépend pas finalement de la politique même Mais ces deux versants n en font qu un La découverte d une signification qui excède la compréhension de l tre l thique fournit en même temps la source de renouvellement de la justice Ainsi par cette double question L vinas nous présente les fils conducteurs de notre enquete une signification au del de la compréhension de l tre et sa portée éthique que nous appelons langage et que nous explorons dans la perspective de son importance politique Les études analytiques dans lesquelles les notions de politique et de langage fonctionnent comme clef d interprétation mutuelle débouchent sur une critique centrée sur deux problèmes l impossibilité d interpréter la signification de l autre et le danger inhérent la conception d une justice dépassant l Etat Meaning and Language: Phenomenological Perspectives Filip

combler cette lacune en étudiant les relations entre l'idéalité et l'altérité entre 1900 et 1913. Au cours de cette période la pensée de Husserl a effectué une révolution au cours de laquelle les rapports de fondation intentionnelle entre l'idéalité et l'altérité se sont inversés. Les motifs qui ont présidé à cette révolution tels qu'ils sont décrits ici ont puissamment contribué à orienter le développement de la phénoménologie par la suite. La question se pose dès lors de savoir si l'itinéraire qui prend son origine en 1900 a bien été parcouru jusqu'à son terme par Husserl et si il n'est pas nécessaire d'envisager la possibilité d'une phénoménologie première.

L'archéologie du monde Dominique Pradelle, 2018-09-13

Ce livre étudie la refonte husserlienne de l'esthétique transcendantale kantienne pour mettre en évidence sa fonction fondatrice dans l'idéalisme phénoménologique et interroger sa légitimité. On part donc des points essentiels de la critique husserlienne de Kant : refus du renversement copernicien du caractère originaire des intuitions pures et de toute idéalisation des structures perceptives pour dégager partir d'eux les axes de la méthode husserlienne de dégager les intuitions pures depuis leur connexion essentielle avec les qualités sensibles retracer leur engendrement synthétique par les actes de la conscience et partager l'espace perceptif des espaces catégoriaux pour reconduire ces derniers leur mode propre de production. Husserl parvient-il dans cette esthétique transcendantale progressant de bas en haut de la hiérarchie sensible aux objets complexes à éviter toute présupposition et rester fidèle à son exigence d'intuitivité ? Il semble au contraire que la méthode husserlienne repose sur nombre d'actes abstraits et idéalisants. Par là c'est la possibilité d'une philosophie purement descriptive qui est mise en question.
