The Zend Avesta , 1965-01-01 The Zend Avesta is the sacred book of the Parsis that is to say of the few remaining followers of that religion which feigned over Persia at the time when the second successor of Mohammed overthrew the Sassanian dynasty and which has been called Dualism or Mazdeism or Magism or Zoroastrianism or Fire worship according as its main tenet or its supreme God or its priests or its supposed founder or its apparent object of worship has been most kept in view In less than a century after their defeat nearly all the conquered people were brought over to the faith of their new rulers either by force or policy or the attractive power of a simpler form of creed But many of those who clung to the faith of their fathers went and sought abroad for a new home where they might freely worship their old gods say their old prayers and perform their old rites That home they found at last among the tolerant Hindus on the western coast of India and in the peninsula of Guzerat There they thrived and there they live still while the ranks of their co religionists in Persia are daily thinning and dwindling away As the Parsis are the ruins of a people so are their sacred books the ruins of a religion There has been no other great belief in the world that ever left such poor and meagre monuments of its past splendour Yet great is the value which that small book the Avesta and the belief of that scanty people the Parsis have in the eyes of the historian and theologian as they present to us the last reflex of the ideas which prevailed in Iran during the five centuries which preceded and the seven which followed the birth of Christ a period which gave to the world the Gospels the Talmud and the Qur n Persia it is known had much influence on each of the movements which produced or proceeded from those three books she lent much to the first heresiarchs much to the Rabbis much to Mohammed By help of the Parsi religion and the Avesta we are enabled to go back to the very heart of that most momentous period in the history of religious thought which saw the blending of the Aryan mind with the Semitic and thus opened the second stage of Aryan thought
