war and they may also at various times engage in support or turn a blind eye to crimes against humanity or genocide. However liberal democracies such as Australia the US and the UK among others routinely present themselves as arbiters of liberal values defenders of human rights and guardians of virtue. This book explores the obvious contradiction between the ideals of liberalism and how liberal democracies ignore and at times even justify their failure to uphold the principles they espouse. East Timor, Australia and Regional Order James Cotton, 2004-05-20. This book explains the exceptional nature of the East Timor intervention of 1999 and deals with the background to the trusteeship role of the UN in building the new polity. All of these developments had an important impact on regional order not least testing the ASEAN norm of non interference. Australian complicity in the Indonesian occupation. **Struggling for Self Reliance** Bob Breen, 2008-10-01. Military force projection is the self reliant capacity to strike from mainland ports bases and airfields to protect Australia's sovereignty as well as more distant national interests. Force projection is not just a flex of military muscle in times of emergency or the act of dispatching forces. It is a cycle of force preparation command deployment protection employment sustainment rotation redeployment and reconstitution. If the Australian Defence Force consistently gets this cycle wrong then there is something wrong with Australia's defence. This monograph is a force projection audit of four Australian regional force projections in the late 1980s and the 1990s valid measures of competence. It concludes that Australia is running out of luck and time. The Rudd Government has commissioned a new Defence White paper. This monograph is Exhibit A for change.
