The Grammar of 'God' in Judaism, Christianity and Islam Farid Suleiman,Mira Sievers,2024-08-05 Engendering an intimate and deep relationship with God is at the heart of Judaism Christianity and Islam This relationship manifests among other things in worshipping Him with sincerity talking to and about Him and being conscious of Him in every moment of life For believers God himself plays also an active role in pursuing this relationship by for example answering prayers and making the believer know and feel His uninterrupted presence Many would consider this as common knowledge about the religions mentioned above However only few are aware that the meaning of the above differs significantly based on how one thinks that religious language works Rather it is taken for granted that the word God refers to a metaphysical being with personal traits and plays a similar role in structure as words in empirical language This has several implications such as the following God can be talked about in an abstract and theoretical manner His existence can be subject to inquiry like that of any other being such as planets or unicorns and calling God good while creation is obviously full of evil is a proposition that needs rational justification The famous 20th century thinker Ludwig Wittgenstein has famously stated that his goal in philosophy essentially amounts to showing that things which look the same are really different By his insistence to pay close attention to the grammar of a word that is its use in language he has opened up new perspectives on not only religious language that challenges the prevalent view outlined above The goal of this volume is to pick up on Wittgenstein s insights about language and religion and to bring them in fruitful relation to the three mentioned religious traditions respectively in an attempt to reassess the grammar of the word God

the life long complexity that attends fertility sexuality and reproduction But it does not do so in order to ratify abortion as a woman s issue or a private matter or as feminist work Rather its aim is to excavate the ethical richness of the situation of unwanted pregnancy showing that it connects to everyone affects everyone and thus gives everyone something unique and new to think
