Cumulated Magazine Subject Index, 1907-1949: Jewf-Z Frederick Winthrop Faxon,1964 **Classified Index to Volumes I-XX, 1909 [i.e. 1910] to 1930 of The Jewish Quarterly Review, New Series** ,1932 **The Cambridge Companion to Medieval Jewish Philosophy** Daniel H. Frank,Oliver Leaman,2003-09-11 From the ninth to the fifteenth centuries Jewish thinkers living in Islamic and Christian lands philosophized about Judaism Influenced first by Islamic theological speculation and the great philosophers of classical antiquity and then in the late medieval period by Christian Scholasticism Jewish philosophers and scientists reflected on the nature of language about God the scope and limits of human understanding the eternity or createdness of the world prophecy and divine providence the possibility of human freedom and the relationship between divine and human law Though many viewed philosophy as a dangerous threat others incorporated it into their understanding of what it is to be a Jew This Companion presents all the major Jewish thinkers of the period the philosophical and non philosophical contexts of their thought and the interactions between Jewish and non Jewish philosophers It is a comprehensive introduction to a vital period of Jewish intellectual history **The United States Catalog** Eleanor E. Hawkins,1921 **The United States Catalog Supplement, January 1918-June 1921** Eleanor E. Hawkins,1921 *The United States Catalog* Mary Burnham,Carol Hurd,1928 **The Bible and Jews in Medieval Spain** Norman Roth,2021-03-29 The Bible and Jews in Medieval Spain examines the grammatical exegetical philosophical and mystical interpretations of the Bible that took place in Spain during the medieval period The Bible was the foundation of Jewish culture in medieval Spain Following the scientific analysis of Hebrew grammar which emerged in al Andalus in the ninth and tenth centuries biblical exegesis broke free of homiletic interpretation and explored the text on grammatical and

contextual terms While some of the earliest commentary was in Arabic scholars began using Hebrew more regularly during this period The first complete biblical commentaries in Hebrew were written by Abraham Ibn Ezra and this set the standard for the generations that followed This book analyses the approach and unique contributions of these commentaries moving on to those of later Christian Spain including the Qimhi family Nahmanides and his followers and the esoteric mystical tradition Major topics in the commentaries are compared and contrasted Thus a unified picture of the whole fabric of Hebrew commentary in medieval Spain emerges In addition the book describes the many Spanish Jewish biblical manuscripts that have remained and details the history of printed editions and Spanish translations for Jews and Christians by medieval Spanish Jews This book will appeal to scholars and students of medieval Spain as well as those interested in the history of religion and cultural history Dictionary Catalogue of the Library of the Pontifical Institute of Mediaeval Studies, Toronto, Canada: Manu-Rob Pontifical Institute of Mediaeval Studies. Colish,1997-01-01 This magisterial book is an analysis of the course of Western intellectual history between A D 400 and 1400 The book is arranged in two parts the first

surveys the comparative modes of thought and varying success of Byzantine Latin Christian and Muslim cultures and the second takes the reader from the eleventh century revival of learning to the high Middle Ages and beyond the period in which the vibrancy of Western intellectual culture enabled it to stamp its imprint well beyond the frontiers of Christendom. Marcia Colish argues that the foundations of the Western intellectual tradition were laid in the Middle Ages and not as is commonly held in the Judeo-Christian or classical periods. She contends that Western medieval thinkers produced a set of tolerances, tastes, concerns, and sensibilities that made the Middle Ages unlike other chapters of the Western intellectual experience. She provides astute descriptions of the vernacular and oral culture of each country of Europe, explores the nature of medieval culture and its transmission, profiles seminal thinkers Augustine, Anselm, Gregory the Great, Aquinas, Ockham, studies heresy from Manichaeism to Huss and Wycliffe, and investigates the influence of Arab and Jewish writing on scholasticism and the resurrection of Greek studies. Colish concludes with an assessment of the modes of medieval thought that ended with the period and those that remained as bases for later ages of European intellectual history.
