Tabletops - Horizontal Interactive Displays Christian Müller-Tomfelde,2010-06-16 The objects displayed on a table can take multiple forms In meetings it is still very often printed paper although its content was originally created on a computer The content can also be a table but now in the mathematical sense showing e g the budget of a project Then we have a table on the table Most often the computer generated contents are subject of frequent changes or dynamic in nature It is a logical consequence to avoid the detour and the inherent media break by transforming the surface of the table into a display able to show media that are active and can be computer generated and computer controlled At the same time it is desirable to maintain the inherent features and affordances of working with the objects and the contents while sitting or standing around a table Electronic Meeting Rooms On the basis of these and other elaborate considerations we started to design in 1992 1993 an electronic meeting room in Darmstadt at GMD IPSI later Fraunhofer IPSI The setup of our custom built DOLPHIN System consisted of a traditional large rectangular wooden table with four physically integrated workstation like computers with at screens This set up was complemented by linking a large vertical pen operated interactive display at that time the first LiveBoard outside of Xerox PARC two of which I was able to get to Darmstadt after my stay at Xerox PARC in 1990

**Scenarios, Stories, Use Cases** Ian F. Alexander,Neil Maiden,2005-04-08 Extending the scenario method beyond interface design this important book shows developers how to design more effective systems by soliciting analyzing and elaborating stories from end users Contributions from leading industry consultants and opinion makers present a range of scenario techniques from the light sketchy and agile to the careful and systematic Includes real world case studies from Philips DaimlerChrysler and Nokia and covers systems ranging from custom software to embedded hardware software systems
