Russian Civil And Military Aircraft 1884 1969:

Russian Civil and Military Aircraft, 1884-1969, 1971 **Foundations of Russian Military Flight, 1885-1925** James K Libbey, 2019-05-15 *Foundations of Russian Military Flight* focuses on the early use of balloons and aircraft by the Russian military The best early Russian aircraft included flying boats designed by Dimitrii Grigorovich and large reconnaissance bombers created by Igor Sikorsky As World War I began the Imperial Russian Navy made use of aircraft more quickly than the army Indeed the navy established a precursor to the aircraft carrier The Imperial Russian Army came to respect over time the work of aircraft that evolved from reconnaissance and bomber to fighter planes Over 250 army pilots during the war received awards of high distinction for their wartime flights After the 1917 revolution both the new Bolshevik government and the reactionary White forces created air arms to combat each other In the 1920s the Soviet Union and Germany negotiated agreements that allowed Germany to violate the Treaty of Versailles by building military aircraft and training German military pilots in the USSR This provided the Soviet Union access to the latest aviation technology and prevented them from falling too far behind the West in this crucial sphere **Russian Civil and Military Aircraft, 1884-1969**

Godfrey Richard Duval, 1976 *Russian Aviation and Air Power in the Twentieth Century* John Greenwood, Von Hardesty, Robin Higham, 2014-06-11 In the light of new archival material the editors take a fresh look at Russian aviation in the twentieth century Presenting a comprehensive view of Russian aviation from its genesis in the late czarist period to the present era the approach is essentially chronological with a major emphasis on the evolution of military aviation The contributions are diverse with appropriate attention to civilian and institutional themes *Soviet Air Power* Kenneth Whiting, 2020-01-29 This comprehensive examination of Soviet air power analyzes the three branches of the USSR Military Air Forces Frontal Aviation Long Range Aviation and Military Air Transport and Naval Aviation and the National Air Defense emphasizing World War II and postwar developments **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989

Proceeding's of the Military History Symposium, USAF Academy United States. Air Force, 1979 **The American Military on the Frontier** James P. Tate, 1978 *History of Strategic Air and Ballistic Missile Defense: 1945-1955*, 2009 From the book's Foreword In the early 1970s the U S Army Center of Military History contracted with BDM Corporation for a history of U S efforts to counter Soviet air and missile threats during the Cold War The resulting two volume *History of Strategic Air and Ballistic Missile Defense* covers the years 1945-1972 when the strategic arms competition between the United States and the Soviet Union was at its height The study was first published for limited distribution in 1975 and recently declassified with minimal redaction These volumes address the passive and active defense strategies technologies and techniques adopted by both U S and Soviet defense planners Much of their actions centered around three common questions How might we be attacked How shall we defend our country What can technology do to solve the basic problems of defending against this new intercontinental threat **History of Strategic and Ballistic Missile Defense: Volume I**

Barry Leonard, 2010-11 As part of a larger study of the strategic arms competition which developed after World War II between the U S and the U S S R this study of the two countries strategies for air and ballistic missile defense addresses two broad subjects 1 How did each country approach the problem of defense against the threat from the air 2 Why did each country accent particular elements of an air defense strategy at various periods between 1945 and 1972 The first question concerns the means that leaders chose for defense against an increasingly sophisticated offensive threat Includes several appendices of chronologies tables charts maps and notes
