Russian Foreign Policy Since 199:

Russian Foreign Policy in the Post-Soviet Era B. Lo, 2002-08-12 In the first comprehensive treatment of its kind Bobo Lo examines the course of Russian foreign policy in the decade following the Soviet collapse Adopting a conceptual approach he identifies the principal ideological and institutional factors that have influenced the thinking of decisionmaking behind the policies Bobo Lo challenges many of the conventional assumptions that have dominated much of the preceding literature on Russian foreign policy *Explaining Change in Russian Foreign Policy* C. Thorun, 2008-11-27 An assessment of the explanatory utility of different approaches to account for post Soviet Russia s foreign policy towards the West arguing that only by focusing both on external constraints and changes in the Russian leadership s foreign policy thinking can we explain major facets of Russia s conduct from 1992 2007 **The Sources Of Russian Foreign Policy After The Cold War** Celeste A Wallander, Anne Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991 Realignments in Russian Foreign Policy Rick Fawn, 2004-11-23 This collection provides international perspectives on the evolution of Russia s foreign relations and analyses official Russian responses to major regional and international developments including NATO and EU enlargement and the post September 11 international war on terrorism The Spiral of "Anti-Other Rhetoric" Elisabeth Le, 2006-08-22 How do media inform our representations of the Other and how does this influence intercultural international relations While officially dialogues between different national societies are conducted by diplomats in bilateral and multilateral settings in practice journalists also participate every day in such dialogues through the phenomenon of the international media echo in which they report on each others societies Until now media have only been investigated for their potential role in the foreign policy of specific states In a case study involving media in three national cultures and languages French American and Russian this book presents an interdisciplinary framework that combines quantitative and qualitative analyses for the study of the international media echo in an intercultural international relations perspective In particular the fundamental functioning of spirals of anti Other rhetoric i e media wars is examined in a Critical Discourse Analysis approach completed with Social Identity Theory and International Relations theories **Russian Foreign Policy and International Relations Theory** Christer Pursiainen, 2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book

Russian Foreign Policy Debates and the Conflicts in Georgia (1991-2008) Cécile Druey, 2024-04-15 Russian Foreign Policy Debates and the Conflicts in Georgia 1991 2008 Between Multilateralism and Unilateralism discusses the conflicts and crises in the former Soviet space from a historical perspective and reconstructs the often contradictory approaches of public actors in Russia on how to deal with them Notably it inquires whether the actions suggested follow a multilateral approach one based on pluralist decisions and international law or on the opposite a unilateral one concentrating exclusively on Russia's own national interests to the detriment of commonly agreed on international rules The case of Georgia from the disintegration of the Soviet Union in 1991 to the Five Day War in August 2008 serves as an example illustrating Russian approaches to conflict management Richly illustrated with empirical data the three parts of this book show how foreign and security policy debates in Moscow and their outcomes on the ground evolved from a chaotic policy of ad hoc interventions in the 1990s to a coherent geopolitically informed strategy of coercion and persuasion in the 2000s About a decade and a half before the large scale invasion of Ukraine Moscow had already shown its willingness to go quite far in defending its interests in the former Soviet space
