Great's keen interest in landscape design. It reconstructs Grigorii Potemkin's attempts to transform the Crimea physically and symbolically into the garden of the empire. And it reveals the centrality of the garden for noblemen such as Andrei Bolotov and Alexander Kurakin who expressed their political philosophy and their anxieties about unstable social relations through landscaping. The book follows the destiny of western aesthetic categories notably of the picturesque as they are first adopted then transformed and ultimately rejected. It analyzes the historical role and mythological representations of the country estate along with Leo Tolstoy's fraught commitment to Yasnaya Polyana and his critique of estate mythology in *War and Peace*. Finally this study exposes how the current fashion for gardening in Russia in particular among New Russians alludes to imperial landscaping culture in order to justify a retreat from the public sphere. The book results from research carried out by the authors since 1999 on urban gardening collectives in Russia then from the extension of this research towards collective urban gardening in France with some investigations in other European Union Member States and Brazil. This research was carried out within the framework of Kazan University currently the Institute of Administration and Territorial Development of the Federal University of Kazan and the French National Institute for Agricultural Research INRA. It enabled the creation of an international research network entitled Sustainable Development of Cities the Relationship between City Dwellers and Nature. This research was developed with help from a three year research contract October 2009 September 2012 with the GESSOL programme of the French Ministry of Ecology on the theme of the use of urban and peri urban soils for the sustainable development of cities. The final report of this research contract provides the basis for the book. Gardens of Grandeur Pasquale De Marco, 2025-07-17

From the imperial gardens of St Petersburg to the public parks of Moscow from the gardens of the aristocracy to the gardens of the Russian people Russian gardens are a reflection of the history culture and traditions of the Russian people. In *Gardens of Grandeur* we take a journey through the rich history of Russian gardens from the earliest Byzantine influenced gardens of the 10th century to the grand palaces and public parks of today. We explore the influence of Peter the Great who introduced ideas plants and designers from Holland France and Germany to create St Petersburg's Summer Garden and the great formal garden at Peterhof by the Gulf of Finland. We also explore the introduction of the English style of landscaping which owed much to Catherine the Great and the recruitment of British gardeners to lay out parks for the Empress and rich nobles. *Gardens of Grandeur* is a celebration of the beauty and diversity of Russian gardens. It is a journey through time and space from the imperial gardens of the past to the modern gardens of today. It is a journey through the history and culture of the Russian people as seen through the lens of their gardens. This book is a must read for anyone interested in Russian history culture or gardens. It is also a beautiful and inspiring book that will appeal to anyone who loves gardens and gardening. Gardens are a reflection of the people who create them.
