Russian Orthodoxy on the Eve of Revolution Vera Shevzov, 2003-12-04 Since the collapse of the Soviet Union Orthodox Christianity in Russia has enjoyed a remarkable resurgence Many Russians are now looking to the history of their faith as they try to rebuild a lost way of life Vera Shevzov has spent ten years researching Orthodoxy as it was lived in the years before the 1917 Revolution In *Russian Orthodoxy on the Eve of Revolution* she draws on a rich variety of previously untapped archival sources and published works unavailable in the West to reconstruct the religious world of lay people Shevzov traces the means by which men and women shaped their religious lives in an ecclesiastical system that was often dominated by bureaucrats and monastic bishops She finds vivid displays of resistance to the official system and equally vivid affirmations of faith Focusing on various centers of religious life the church temple chapels feasts icons and the Virgin Mary she traces the rituals beliefs and communal dynamics that lent these centers meaning Shevzov also presents the conflicting voices of ecclesiastical officials She questions the notion that the only challenge to Orthodoxy at the end of the ancien regime came from outsiders such as Marxist revolutionaries atheistic intellectuals and urban factor workers Instead she shows that a different but equally great challenge emerged within the faith community itself Indeed the late nineteenth and early twentieth century is revealed as one of the most dynamic periods in the history of Russian Orthodoxy characterized by debates analogous to the Reformation or the era of Vatican II *Russian Orthodoxy on the Eve of Revolution* breaks new ground by giving voice to the previously ignored common people during this period immediately preceding one of the most important events of the twentieth century

Language and Metaphors of the Russian Revolution Lonny Harrison, 2020-12-16 *Language and Metaphors of the Russian Revolution* Sow the Wind Reap the Storm is a panoramic history of the Russian intelligentsia and an analysis of the language and ideals of the Russian Revolution from its inception over the long nineteenth century through fruition in early Soviet society This volume examines metaphors for revolution in the storm flood and harvest imagery ubiquitous in Russian literary works At the same time it considers the struggle to own the narrative of modernity including Bolshevik weaponization of language and cultural policy that supported the use of terror and social purging This uniquely cross disciplinary study conducts a close reading of texts that use storm flood and agricultural metaphors in diverse ways to represent revolution whether in anticipation and celebration of its ideals or in resistance to the same A spotlight is given to the lives and works of authors who responded to Soviet authoritarianism by reclaiming the narrative of revolution in the name of personal freedom and restoration of humanist values Hinging on the clashes of culture wars and class wars and residing at the intersection of ideas at the very core of the fight for modernity this book provides a critical reading of authoritarian discourse and investigates rare examples of the counter narratives that

thrived in spite of their suppression *Redefining the Sacred* Daniel Schönplüg, Martin Schulze Wessel, 2012 The revolutions of 1789 and 1917 were defining moments for religious history in France Russia and even in Europe as a whole Drawing on self portrayals of some of the most radical actors historians have presented revolutionaries as enemies of the church and men of the church either as counter revolutionaries or as victims of revolution Revolution and religion have appeared as antagonistic forces representing struggle of modernity against tradition Only recently have these conventional patterns of interpretation been questioned Historians explore the religious origins of revolutions look at clergymen and churches as revolutionary actors and analyze how revolutionary movements appropriate religious patterns of thought and behavior In the French and in the Russian context revolutions are seen as moments in which the sacred was redefined Publisher s website *The Russian Revolution (1917-1926)* Lancelot Lawton, 1927 Bog om den russiske revolution under zaren Nikolaj den 2 og om hvordan samfundet blev formet efter denne Bogen er dog fra omkring 1930 *The Russian Revolution* Nikolaj Aleksandrovič Berdjajev, 1935 *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state
