Roberts,2020-05-28 Material Culture in Russia and the USSR comprises some of the most cutting edge scholarship across anthropology history and material and cultural studies relating to Russia and the Soviet Union from Peter the Great to Putin Material culture in Russia and the USSR holds a particularly important role as the distinction between private and public spheres has at times developed in radically different ways than in many places in the more commonly studied West With case studies covering alcohol fashion cinema advertising and photography among other topics this wide ranging collection offers an unparalleled survey of material culture in Russia and the USSR and addresses core questions such as what makes Russian and Soviet material culture distinctive who produces it what values it portrays and how it relates to high culture and consumer culture *Soviet Life* ,1974 **Sacrificing Childhood** Julie K. deGraffenried,2014-11-18 During the Soviet Union s Great Patriotic War from 1941 to 1945 as many as 24 million of its citizens died 14 million were children ages fourteen or younger And for those who survived the suffering was far from over The prewar Stalinist vision of a happy childhood nurtured by a paternal loving state had given way out of necessity What replaced it the dictate that children be prepared to sacrifice everything including childhood itself created a generation all too familiar with deprivation violence and death The experience of these children and the role of the state in shaping their narrative are the subject of this book which fills in a critical but neglected chapter in the Soviet story and in the history of World War II In *Sacrificing Childhood* Julie deGraffenried chronicles the lives of the Soviet wartime children and the uses to which they were put not just as combatants or workers in factories and collective farms but also as fodder for propaganda their plight a proof of the enemy s depredations Not all Soviet children lived through the war in the same way but in the circumstances of a child in occupied Belarus or in the Leningrad blockade a young deportee in Siberia or evacuee in Uzbekistan deGraffenried finds common threads that distinguish the child s experience of war from the adult s The state s expectations however were the same for all children as we see here in children s mass media and literature and the communications of party organizations and institutions most notably the Young Pioneers whose relentless wartime activities made them ideal for the purposes of propaganda The first in depth study of where Soviet children fit into the history of the

war *Sacrificing Childhood* also offers an unprecedented view of the state's changing expectations for its children and how this figured in the nature and direction of post war Soviet society **Teacher Education in Russia** Ian Menter, 2021-08-04 This book examines the history recent developments and direction of travel of Russian teacher education It draws on scholarly expertise and professional experience in Russia and locates the policies and practices that are discussed within the context of the continuing global reform of teacher education Providing a rich description of the trajectory of teacher education in Russia the book analyses the processes of change between the history current practice and future directions for Russian teacher education The chapters consider the relationship between research policy and practice and examine the respective influences of the former USSR of processes of wider reform in the Russian Federation since glasnost and perestroika and of globalisation within education What emerges from the book is that the Russian case is a prime example of vernacular globalisation in teacher education Many important insights into processes of education reform and some of the major themes in teacher education are discussed thus providing new perspectives that are likely to be of interest to scholars and researchers of comparative education and teacher education as well as policymakers **Creating Chinese Modernity** Peter Gue Zarrow, 2006 Over the first half of the twentieth century the lives of millions of urban Chinese were transformed by new ideas new objects new jobs new leisure pursuits new forms of transportation new architecture in a word new life styles and habits of mind What did these changes mean to ordinary people The essays in this book examine how prevailing discourses on nationalism feminism democracy individualism socialism and the like emerged and were absorbed into the lived experiences and material culture of ordinary Chinese Only from intimate personal experiences with forces ranging from war revolution and state building to advertising blitzes and boycotts was Chinese modernity forged forged out of forces larger than individuals but simultaneously observed interpreted adapted and absorbed by those individuals
