Rythmes Pittoresques:

Genius Envy Adrianna M. Paliyenko, 2017-01-03 In *Genius Envy* Adrianna M Paliyenko uncovers a forgotten history the multiplicity and diversity of nineteenth century French women's poetic voices Conservative critics of the time attributed the phenomenon of genius to masculinity and dismissed the work of female authors as feminine literature Despite the efforts of leading thinkers critics and literary historians to erase women from the pages of literary history Paliyenko shows how these female poets invigorated the debate about the origins of genius and garnered considerable recognition in their time for their creativity and bold aesthetic ideas This fresh account of French women poets contributions to literature probes the history of their critical reception The result is an encounter with the texts of celebrated writers such as Marceline Desbordes Valmore Anaïs Ségalas Malvina Blanchecotte Louisa Siefert and Louise Ackermann Glimpses at the different stages of each poet's career show that these women explicitly challenged the notion of genius as gender specific thus advocating for their rightful place in the canon A prodigious contribution to studies of nineteenth century French poetry Paliyenko's book reexamines the reception of poetry by women within and beyond its original context This balanced and comprehensive treatment of their work uncovers the multiple ways in which women poets sought to define their place in history **Women's Writing in**

Nineteenth-Century France Alison Finch, 2000-08-10 This is the most complete critical survey to date of women's literature in nineteenth century France Alison Finch's wide ranging analysis of some 60 writers reflects the rich diversity of a century that begins with Mme de Staël's cosmopolitanism and ends with Rachilde's perverse eroticism Finch's study brings out the contribution not only of major figures like George Sand but also of many other talented and important writers who have been unjustly rejected including Flora Tristan Claire de Duras and Delphine de Girardin Her account opens new perspectives on the interchange between male and female authors and on women's literary traditions during the period She discusses popular and serious writing fiction verse drama memoirs journalism feminist polemic historiography travelogues children's tales religious and political thought often brave innovative texts linked to women's social and legal status in an oppressive society Extensive reference features include bibliographical guides to texts and writers **A History of Women's Writing**

in France Sonya Stephens, 2000-05-22 This volume was the first historical introduction to women's writing in France from the sixth century to the present day Specially commissioned essays by leading scholars provide an introduction in English to the wealth and diversity of French women writers offering fascinating readings and perspectives The volume as a whole offers a cohesive history of women's writing which has sometimes been obscured by the canonisation of a small feminine elite Each chapter focuses on a given period and a range of writers taking account of prevailing sexual ideologies and women's activities in or their relation to the social political economic and cultural surroundings Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by

women **Reading Baudelaire's *Le Spleen de Paris* and the Nineteenth-Century Prose Poem** Seth

Whidden, 2022-06-02 Through its readings of Charles Baudelaire's collection *Le Spleen de Paris* and other prose poems from the nineteenth century this book considers the practice of reading prose poetry and how it might be different from reading poetry in verse. Among the numerous factors that helped shape the nascent modernity in Baudelaire's poetic prose are the poems' themes, forms, linguistic qualities, and modes. The contradictions identifiable at the level of prose poetry's discourse are similarly perceptible in other aspects of Baudelaire's poetic language beyond the discursive in the poems' formal considerations which retain recognisable traces of verse despite their prose presentation and with respect to both poetic form and thematics in the sights and sounds that contribute to their poeticity. With a focus on what makes prose texts poetic, this study sheds light on Baudelaire the practitioner of the prose poem as he navigated and complicated the boundaries between verse, prose, and poetry. Rather than rejecting those categories, Baudelaire forges a poetic space in which the notions of poetry and prose are recast, juxtaposed in a delicate balance in a textual space they manage to share. This coexistence of poetry and prose, previously thought of as incompatible, is the underlying tension and framework that contributes importantly to the modernity of his prose poetry. In turn, this new mode of poetry calls for new modes of reading poetry and new ways of engaging with a text. *The Gendered Lyric* Gretchen Schultz, 1999

The Gendered Lyric portrays gender as being central to the full appreciation of nineteenth-century French poetry. Schultz contends that both male and female poets of the major movements relied on sexual difference to define their poetic. **Models of Collaboration in Nineteenth-Century French Literature** Seth Whidden, 2016-04-15 Contributing to the current lively discussion of collaboration in French letters, this collection raises fundamental questions about the limits and definition of authorship in the context of the nineteenth century's explosion of collaborative ventures. While the model of the stable single author that prevailed during the Romantic period dominates the beginning of the century, the authority of the speaking subject is increasingly in crisis through the century's political and social upheavals. Chapters consider the breakdown of authorial presence across different constructions of authorship, including the numerous cenacles of the Romantic period, collaborative ventures in poetry through the practice of the *Tombeaux*, and as seen in the *Album Zutique*, the interplay of text and image through illustrations for literary works, the collective ventures of literary journals, and multi-author prose works by authors such as the Goncourt brothers and Erckmann-Chatrian. Interdisciplinary in scope, these essays form a cohesive investigation of collaboration that extends beyond literature to include journalism and the relationships and tensions between literature and the arts. The volume will interest scholars of nineteenth-century French literature and more generally any scholar interested in what's at stake in redefining the role of the French author. *Black, Blanc, Beur* Alain-Philippe Durand, 2002-10-16

Missing Measures Timothy Steele, Clara Gyorgyey, 1990-01-01 Examines the departure from meter and rhyme in modern poetry and the increased use of free verse French Symbolist Poetry and the Idea of Music Joseph Acquisto, 2017-03-02 What role did music play in the creation of a new aesthetics of poetry in French from the 1860s to the 1930s How did music serve as an unassimilable other against which the French symbolist poets crafted a new poetics And why did music gradually disappear from early twentieth century poetic discourse These are among the questions Joseph Acquisto poses in his lively study of the ways in which Baudelaire Mallarmé Ghil and Roy re question the nature and function of the lyric through an ever shifting set of intertextual and cultural contexts Rather than focusing on musicality in verse the author addresses the consequences of choosing music as a site of dialogue with poetry Acquisto argues that memory plays an under acknowledged yet vital role in these poets rewriting of symbolist poetics His reading of their interactions and his focus on both major and neglected poets exposes the myth of a small handful of great authors shaping symbolism while a host of disciples propagated the tradition Rather Acquisto proposes the multiplicity of authors writing and rewriting symbolism invites a dialogic approach to the poetics of the period Moreover music as theorized rather than performed or heard serves as a privileged mobile space of poetic creation and dialogue for these poet critics it is through engagement with music supposedly the purest or most abstract of the arts that one can retrace the textual and cultural transformations accomplished by the symbolist tradition By extension these poets rethinking of poetics is an occasion for present day critics to re examine assumptions not only about the intersections of music and poetry and our understanding of symbolist poetics but also about the role that the aesthetic implicitly plays in the creation preservation or reshaping of cultural memory **Leaving Parnassus** Seth Whidden, 2007-01-01 Leaving Parnassus The Lyric Subject in Verlaine and Rimbaud considers how the crisis

of the lyric subject in the middle of the nineteenth century in France is a direct response to the aesthetic principles of Parnassian poetry which dominated the second half of the century much more than critics often think. The poets considered here rebel against the strict confines of traditional and contemporary poetry and attempt to create radically new discursive practices. Specifically, the close readings of poems apply recent studies of subjectivity in poetry and focus on the works of Paul Verlaine and Arthur Rimbaud to see how each subverts the dominant tradition of French poetry in a unique way. Whereas previous studies considered isolated aspects of each poet's lyric subject, *Leaving Parnassus* shows that the situation of the lyric is a source of subversion throughout the poets' entire work and as such it is crucial to our full understanding of their respective innovations.
