H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies *Islamic Life and Thought* Seyyed Hossein Nasr, 2013-10-18 This collection of essays by one of the best known contemporary Muslim scholars writing in English covers many facets of Islamic life and thought The author has brought together studies dealing with the practical as well as intellectual aspects of Islam in both their historical and contemporary reality The contemporary significance of themes such as religion and secularism the meaning of freedom and the tradition of Islamic science and philosophy is given particular attention **Courier**, 1970

Secret Languages of Afghanistan and Their Speakers Jadwiga Pstrusińska, 2014-07-18 This is a study of an almost inaccessible area of the intricate linguistic fabric of Afghanistan namely its secret codes of communication The text draws on a profound knowledge of Afghanistan and neighbouring regions as well as the cultural and sociolinguistic processes at work across Eurasia The author situates these sociolinguistic matters within the appropriate diachronic and comparative

background and traces the numerous threads which connect them to areas both close to and distant from Afghanistan The book will be of great interest to scholars from a wide range of disciplines including but extending beyond the realms of linguistics cultural history and sociology It will also be of practical value in many areas notably with regards to military and political issues as well as humanitarian aid *Shi'ism* Seyyed Hossein Nasr, Hamid Dabashi, Seyyed Vali Reza Nasr, 1988-08-29 This is an anthology of the most significant writing on the doctrinal intellectual and spiritual dimensions of Shicism The works included here foster an interpretive understanding of Shicism in its dogmatic and cognitive aspects The intent of this book is to balance the attention that has been focused on the political aspect of Shicism Shicism is often seen not only as an essentially political phenomenon but as a creed of violence Understanding Shicism in its total reality will encourage a more balanced approach to issues which are viewed mostly politically While not denying the importance of political manifestations this book offers an understanding of the often neglected religious beliefs and spiritual practices of this world community
