Sacred Fury Charles Selengut, 2017 From ISIS attacks to the conflict between Israel and Palestine *Sacred Fury* explores the connections between faith and violence in world religions Author Charles Selengut looks at religion as both a force for peace and for violence and he asks key questions such as how religious is this violence and what drives the faithful to attack in the names of their beliefs Revised throughout the third edition features new material on violence in Buddhism and Hinduism the rise of ISIS lone wolf terrorists and more This up to date edition draws on a variety of disciplines to comprehend forms of religious violence both historically and in the present day The third edition of *Sacred Fury* is an essential resource for understanding the connections between faith and violence *Towards African Missiology* Francis Anekwe Oborji, 2020-11-22 This volume reflects on a credible and a new language of Christian mission in Africa The author's thoughts and approaches not only provide a missiological insight which contribute to the repertoire of expanding fresh ideas in the missiological studies but also serves the purpose of highlighting the active participation of Africans in the missionary mandate of Jesus Christ In other words the scope of missiology needs a contextualized interpretation Thus he proposes a proactive language for missiology in Africa thereby underlining Africans as normal and full members of the human family In the light of the Vatican II mission theology the new language should be based on the fact that Africans will grow and do better in admiration and not in sympathy Interestingly the arguments in this volume opens the space for the on going discussions in the mission of the church in the era of secularization and post modernity Consequently a new language for missiology in Africa will come from the retrieval and modernization of our African cultural matrix pursued from the point of view of the daily struggles of the Africans themselves for survival which also addresses Africans in the spirit of cooperation

The ^AOxford Handbook of Religion, Conflict, and Peacebuilding Atalia Omer, R. Scott Appleby, David Little, 2015-03-02 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **The Crucifixion of the Warrior God** Gregory A. Boyd, 2017-04-17 The Crucifixion of the Warrior

God in an epic constructive investigation takes up the set of dramatic tensions between depictions of divinely sanctioned violence in Scripture and the message and life of peace of Jesus centering the New Testament Over two volumes author Gregory A Boyd argues that we must take seriously the full range of Scripture as inspired and the centrality of the crucified and risen Christ as the supreme revelation of God *Constructing Religious Martyrdom* John Soboslai,2024-06-27

Martyrdom is a phenomenon common to many of the world's religious traditions But why In this study John Soboslai offers insights into the practices of self sacrifice within specific sociopolitical contexts Providing a new understanding of martyrdom through the lens of political theology he analyzes discourses and performances in four religious traditions during social and political crises beginning with second century Christianity in Asia Minor where the term martyr first took its meaning He also analyzes Shi'a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia global Sikhism during World War I where martyrs stood for and against the British Raj and twenty first century Tibetan Buddhism where self immolators used their bodies in opposition to the programs of the People's Republic of China Presenting a new theory of martyrdom linked to constructions of sovereign authority Soboslai reveals common features of self sacrifice and demonstrates how bodily performances buttress conceptions of authority [Educating for Cosmopolitanism: Lessons from Cognitive Science and Literature](#) M. Bracher,2013-10-31

Drawing on developments in cognitive science Bracher formulates pedagogical strategies for teaching literature in ways that develop students cognitive capabilities for cosmopolitanism the pursuit of global equality and justice Several staple classroom texts such as *Things Fall Apart* provide detailed examples for teaching practices [Holy War in Judaism](#) Reuven Firestone,2012-07-12 Holy war sanctioned or even commanded by God is a common and recurring theme in the Hebrew Bible Rabbinic Judaism however largely avoided discussion of holy war in the Talmud and related literatures for the simple reason that it became dangerous and self destructive Reuven Firestone's *Holy War in Judaism* is the first book to consider how the concept of holy war disappeared from Jewish thought for almost 2000 years only to reemerge with renewed vigor in modern times The revival of the holy war idea occurred with the rise of Zionism As the necessity of organized Jewish engagement in military actions developed Orthodox Jews faced a dilemma There was great need for all to engage in combat for the survival of the infant state of Israel but the Talmudic rabbis had virtually eliminated divine authorization for Jews to fight in Jewish armies Once the notion of divinely sanctioned warring was revived it became available to Jews who considered that the historical context justified more aggressive forms of warring Among some Jews divinely authorized war became associated not only with defense but also with a renewed kibbush or conquest a term that became central to the discourse regarding war and peace and the lands conquered by the state of Israel in 1967 By the early 1980s the rhetoric of holy war had entered the general political discourse of modern Israel In *Holy War in Judaism* Firestone identifies analyzes and explains the historical conceptual and intellectual processes that revived holy war ideas in modern Judaism **In Search of Solutions** Clinton Bennett,2014-12-05 Religion has played a role in conflict throughout

history with religious scriptures often being used to justify violence In Search of Solutions evaluates the role of religion in Northern Ireland Bosnia and Israel Palestine The book argues that religion has a tendency towards conflict and that peace is best guaranteed when human individuals commune directly with the divine without the mediation of organized religions Different approaches to the reading of scriptures are introduced drawing on post modern theory In Search of Solutions will be invaluable for the student seeking a clear overview of both the theory and the practice of religion in conflict resolution
