Sacred Paw The Bear In Nature Myth And Literature:

The Sacred Paw Paul Shepard, Barry Sanders, 1985

Dictionary of Nature Myths Tamra Andrews, 2000

Comprehensive and cross referenced this informative volume is a rich introduction to the world of nature as experienced by ancient peoples around the globe 51 halftones **Literature and Nature** Tawhida Akhter, Tariq Ahmad Bhat, 2022-01-27

During the last few decades there has been remarkable progress in research on various aspects of literature and nature. Different fields have been explored in this regard though there remain many fields yet to be explored. This book explores how nature plays an important role in the development of personality looking at both its positive and negative effects. It also considers how literature has rightly portrayed the reality of a culture through its fictitious characters. The book will fulfil the needs of students, teachers, researchers and all stakeholders who are engaged in eco-feministic studies. The Bear Book Les Wright, 2013-12-02. The Bear Book brings together an impressive range of bear usually big hairy men who favor full face beards and prefer to wear jeans and flannel shirts viewpoints to explore this unique social and cultural phenomenon that stretches from America to western Europe to Australia. On the personal level you learn what beardom means to different people in their daily lives and on a broader level its cultural implications for not only the gay community but also society as a whole. As this book moves across the wide spectrum of bear identities you learn about the defining forces of identity, the significance of differences among masculinities and the shapings of the bear movement from different viewpoints. The Bear Book is the first compilation of sociological and cultural analytical investigations of the contemporary gay bear phenomenon. To this end Editor Les Wright brings together both objective and subjective viewpoints to create a forum where bears can speak for themselves. Through their voices you will learn about bears and sexual identity, gay male iconography, socializing on the Internet, sexual politics, gender, class, looks, and body image, gay mass media, the single most powerful force in the current construction of bears, bears power and glamor, bear as image vs bear as attitude. Gays, lesbians, lesbian scholars, bears and social scientists are sure to find The Bear Book thought provoking and insightful as it broaches questions such as: Are bears caught up in a utopian romantic impulse to reinvent themselves? What was radical lesbianism's impact on the bear movement? To what extent are bears only another group of exploited consumers in a fragmented market system? And is it possible to establish social liberation through enslavement to your sexual passions? For both your pleasure and your education, The Bear Book examines nearly every corner of beardom including bear history, identity, social spaces, iconography and its constituency abroad. **Bear Information 1987**, 1987. Radical Ecopsychology, Second Edition Andy Fisher, 2013-01-01. Expanded new edition of a classic examination of the psychological roots of our ecological crisis. **War and Peace with the Beasts** Brian Griffith, 2020-09-01. The animals that one culture likes are often hated in the next and it seems that the animals themselves know it well. Basically one culture's animal partner is often another culture's nightmare from hell. Naturally I wonder how relations between people and animals got to be so different around the world. How did it happen that

some cultures treat bats snakes wolves or ravens as embodiments of evil while other people treat the same animals with affection or even reverence Our wars with the animals go way back Beyond the light cast by our prehistoric campfires the eyes glowing in the night seemed to represent a great hostile force As we began to cultivate crops and husband a few favoured animals we generally regarded other creatures as threats to our chosen few Using the logic of war we sought to maximize the populations of certain creatures and the destruction of others In the past that war effort was our great crusade for the advancement of civilization as we knew it The war had a frontier a front line and an ongoing battle on the home front Expanding outward from our various cradles of civilization we progressively tamed the forests and grasslands converting them to monocrop plantations or pastures Then we had to defend our monocrops from encroaching weeds insects and wild animals In this immediately engaging story and fact filled page turner of a book Brian Griffith looks at the range of ways we relate to animals and the stories we tell about them He asks how we choose whether buddyhood fearful respect businesslike predation or genocidal war is the most appropriate response to each species we meet He watches how our treatment of inferior beings affects our treatment of inferior people and traces some of the chain reactions we unleash when we try to weed out species we don't like Without much hope of making animals fit my personal preferences he writes I wonder how good our relations can get

Minding the Earth, Mending the World Susan Murphy, 2014-04-21 Shunryu Suzuki Roshi founded the San Francisco Zen Center in 1962 and after fifty years we have seen a fine group of Zen masters trained in the west take up the mantle and extend the practice of Zen in ways that might have been hard to imagine in those first early years Susan Murphy one of Robert Aitken's students and dharma heirs is one of the finest in this group of young Zen teachers She is also a fine writer and following on the teaching of her Roshi she has engaged her spiritual work in the ordinary world dealing with the practice of daily life and with the struggles of all beings We know that our earth is in crisis but is the situation beyond repair Are we on a path of planetary disaster where the only proper response is to prepare for our melancholic dystopian future Is there a way out of our suspicious cynicism In the tradition of Thomas Berry using this spiritual opportunity to change the very nature of our crisis Susan Murphy offers a profound message subtly presented with clarity and assurance showing that engaged Buddhism provides a possible path to the necessary repair and healing

Biological Exuberance Bruce Bagemihl, 2025-09-23 A Publishers Weekly Best Book One of the New York Public Library's 25 Books to Remember for 1999 Lavishly illustrated and meticulously researched filled with fascinating facts and astonishing descriptions of animal behavior Bruce Bagemihl's Biological Exuberance is a landmark book that will change forever how we look at nature Homosexuality in its myriad forms has been scientifically documented in more than 450 species of mammals birds reptiles insects and other animals worldwide Biological Exuberance is the first comprehensive account of the subject bringing together accurate accessible and nonsensationalized information Drawing upon a rich body of zoological research spanning more than two centuries Bagemihl shows that animals engage in all types of nonreproductive sexual behavior

Sexual and gender expression in the animal world displays exuberant variety including same sex courtship pair bonding sex and co parenting even instances of lifelong homosexual bonding in species that do not have lifelong heterosexual bonding

Part 1 A Polysexual Polygendered World begins with a survey of homosexuality transgender and nonreproductive heterosexuality in animals and then delves into the broader implications of these findings including a valuable perspective on human diversity Bagemihl also examines the hidden assumptions behind the way biologists look at natural systems and suggests a fresh perspective based on the synthesis of contemporary scientific insights with traditional knowledge from indigenous cultures

Part 2 A Wondrous Bestiary profiles more than 190 species in which scientific observers have noted homosexual or transgender behavior Each profile is a verbal and visual snapshot of one or more closely related bird or mammal species containing all the documentation required to support the author's often controversial conclusions

Symbols in Arts, Religion and Culture Farrin Chwalkowski, 2016-12-14 We are a product of nature Every single cell of our body is made of and depends on nature Our inner soul is heavily influenced by nature We feel sad if the sun is not shining for a few days and feel pleasure when drawn to the wonder of flowers and uplifted by the song of birds We came from nature we are part of nature In short we are nature Nature has been an intimate part of the human experience from the earliest times Different religions and cultures from all corners of the world have honoured and worshipped nature in art ritual and literature in their own unique ways This book shows how we learn about our own human nature our own sense of identity and how we fit into the larger scheme of life and spirit when we come to better understand how our human ancestors through art symbol and myth expressed their relationship with the natural world
