Radical Loving Care Erie Chapman, 2003 What is radical about providing loving care The radical concept is that each and every caregiver in today's hospitals should be providing loving care to their patients and to each other In the same vein each and every leader in our hospitals should be taking care of those who care for others This work addresses healthcare leaders through illustrative examples and compelling outcomes that demonstrate the success of the Healing Hospital model in today's hospital Training tools are also provided to help leaders and employee partners construct and advance a culture of loving care in today's technocratic hospital setting

Sacred Encounters with Jesus Gregory Scott Sparrow, 2003 Sacred Encounters with Jesus is a discerning account of how Jesus heals and transforms people today just as He ministered to His disciples Readers will enter into the miraculous experiences of a terminally ill girl who was healed by Jesus touch and of a woman who touched Jesus as He knelt beside her and prayed These experiences raise the possibility that only some people will readily accept that Jesus can be experienced as directly and as personally today as when He walked the earth 2 000 years ago

American Pilgrimage Christopher Shannon, 2022-08-09 Histories of the Catholic Church in the United States abound Most suffer from an excess of either scholarly detachment or popular triumphalism American Pilgrimage seeks instead to draw on the best of current scholarship to tell the story of the Church as it understands itself the Body of Christ divinely ordained yet marred by sin charged with the mission of spreading the Gospel and building up the community of the faithful In scope American Pilgrimage narrates the story of the Church from the dramatic efforts at evangelization in the colonial period to the Catholic urban villages of the immigrant Church to the struggles to reimagine tradition in the late 20th century In shape it follows this story through the Augustinian contours of the ongoing struggle between the City of God and the City of Man a struggle that takes place between the Church and the world within the Church itself and within the soul of every Christian

With God on Our Side Adam D. Reich, 2012-04-15 When unions undertake labor organizing campaigns they often do so from strong moral positions contrasting workers rights to decent pay or better working conditions with the more venal financial motives of management But how does labor confront management when management itself has moral legitimacy In *With God on Our Side* Adam D Reich tells the story of a five year campaign to

unionize Santa Rosa Memorial Hospital a Catholic hospital in California Based on his own work as a volunteer organizer with the Service Employees International Union SEIU Reich explores how both union leaders and hospital leaders sought to show they were upholding the Catholic mission of the hospital against a market represented by the other Ultimately workers and union leaders were able to reinterpret Catholic values in ways that supported their efforts to organize More generally Reich argues that unions must weave together economic and cultural power in order to ensure their continued relevancy in the postindustrial world In addition to advocating for workers economic interests unions must engage with workers emotional investments in their work must contend with the kind of moral authority that Santa Rosa Hospital leaders exerted to dissuade workers from organizing and must connect labor s project to broader conceptions of the public good **God First** David R.
