The Twenty-first Century Confronts Its Gods David J. Hawkin,2012-02-01 This book penetrates the assumptions of Western technological society and exposes the powers that govern it The contributors argue that it is a mistake to think that religion and belief have been relegated to the private sphere and are no longer important in the public and political domains They assert that the twenty first century has a set of new gods the powers of globalization technology the market and military might that reign alongside those of traditional religions These are the forces to which the modern era has granted ultimacy This book looks at how major religions such as Christianity Islam Judaism Hinduism and Buddhism play an important role in politics and society on both the global and local levels The new gods of technology globalization and war are shown to exacerbate the existing cultural divisions and religious strife that mark our time By understanding the importance of that which is held sacred whether traditional belief or modern practice not acknowledged as belief the contributors help us to comprehend our present situation and challenges The Guru Granth Sahib Pashaura Singh,2003-09-26 This book examines three closely related questions in the process of canon formation in the Sikh tradition how the text of the Adi Granth came

into being the meaning of gurbani and how the Adi Granth became the Guru Granth Sahib The censure of scholarly research on the Adi Granth was closely related to the complex political situation of Punjab and brought the whole issue of academic freedom into sharper focus This book addresses some of these issues from an academic perspective The Adi Granth the sacred scripture of the Sikhs means first religious book from the word adi which means first and granth which means religious book Sikhs normally refer to the Adi Granth as the Guru Granth Sahib to indicate a confession of faith in the scripture as Guru The contents of the Adi Granth are commonly known as bani utterance or gurbani the utterance of the Guru The transcendental origin or ontological status of the hymns of the Adi Granth is termed dhur ki bani utterance from the beginning This particular understanding of revelation is based upon the doctrine of the sabad or divine word defined by Guru Nanak and the succeeding Gurus This book also explores the revelation of the bani and its verbal expression devotional music in the Sikh tradition the role of the scripture in Sikh ceremonies and the hymns of Guru Nanak and Guru Arjan

Will and Grace Hune Margulies, 2017-11-13 This book is a poetic reading of the dialogical philosophy of martin buber my reading of martin buber takes me to this principal insight god is not in heaven nor on earth god is not above nor below not within and not without not in the soul or in the flesh god is not an entity anywhere god is the between of an i and a thou these pages are not an academic study in the strict sense my meditations in this book are not a literal description of buber s philosophy for buber would never have approved of taking his words in any way other than in dialogue buber wrote in dialogue with the reader and i read buber in the poetic philosophy of his words in other words we can say that the essential thinking in martin buber s philosophy is that the presence of god in us is always enacted as the presence of god between us god like love like poetry is a deed we do the god deed is actualized not in rituals or temples but in the practices of the sacraments of the neighbor for there is nothing we can predicate of god but we can still meet god in the embrace of the neighbor we meet god as we meet with one another in genuine relationship god is not in the relationship god is the relationship god is no thing but there is nothing that isn t god in the between of an i and a thou **Experiencing Scripture**
