Sacred Yew:

The Sacred Yew Anand Chetan, Diana Brueton, 1994 Myth blends with science in this inspiring story of one man's crusade to preserve the ancient and revered yet recently threatened yew tree [The Cult of the Yew](#) Janis Fry, 2023-03-31 The ancients revered this sacred tree that has existed on Earth for 200 million years some trees still alive today even survived the last ice age This immortal tree was therefore venerated as the triple goddess of life death and rebirth and was believed to be the guardian of our planet With climate change threatening our existence many are now turning to the Tree of Life identified with the ancient yew for answers to our predicament Through groundbreaking research Janis Fry answers our modern yearning to make sense of life through a goddess of Nature that guides our lives and connects us to people and events to which we are answerable as custodians of life on Earth **The Cult of the Yew Tree of Life** Mystery and Magic explores the spiritual history of this iconic tree and aims to change how those who read it think and understand life in these times

The Ancient Yew Robert Bevan-Jones, 2016-10-31 The gnarled immutable yew tree is one of the most evocative sights in the British and Irish language an evergreen impression of immortality the tree that provides a living botanical link between our own landscapes and those of the distant past This book tells the extraordinary story of the yew's role in the landscape through the millennia and makes a convincing case for the origins of many of the oldest trees as markers of the holy places founded by Celtic saints in the early medieval Dark Ages With wonderful photographic portraits of ancient yews and a gazetteer with locations of the oldest yew trees in Britain the book brings together for the first time all the evidence about the dating history archaeology and cultural connections of the yew Robert Bevan Jones discusses its history biology the origins of its name the yew berry and its toxicity its distribution across Britain means of dating examples and their association with folklore with churchyards abbeys springs pre Reformation wells and as landscape markers This third edition has an updated introduction with new photographs and corrections to the main text

Nordic Runes Paul Rhys Mountfort, 2003-05-05 Reveals the ancient oracle based on the runic Elder Futhark alphabet of the Norse

[Yew](#) Fred Hageneder, 2013-10-15 A comprehensive and richly illustrated history Yew will appeal to botanists and other readers interested in the history and symbolism of the natural world now in paperback The yew is the oldest and most common tree in the world but it is a plant of puzzling contradictions it is a conifer with juicy scarlet berries but no cones deer can feast on its poisonous foliage but it is lethal to farm animals and it thrives where other plants cannot because of its extraordinarily low rate of photosynthesis Exploring this paradoxical plant in Yew Fred Hageneder surveys its position in religious and cultural history its role in the creation of the British Empire and its place in modern medicine Hageneder explains the way the yew is able to renew itself from the inside by producing interior roots and how early humans fascinated with its regenerative powers began to associate the tree with concepts of life and death the afterlife and eternity As such it can be found at the sacred sites of Native Americans Buddhists and Shinto shrines in Japan and it has become a living symbol of the resurrection for the

Christian faith He describes how churchyards saved many Jews during the Middle Ages when the trees were used for the mass production of the longbow which laid the foundation for the British Empire Finally he discusses the latest scientific discoveries about the yew including its use in cancer treatments

Our Future in Nature: Edmund Barrow, 2019-05-21

Who has not felt a sense of awe silence stillness and presence in an ancient woodland or forest or in front of a sacred tree Humankind has held trees and woodlands in awe and reverence since the dawn of time We depend on nature for the air we breathe the water we drink and the services nature provides This book is about the importance of sacred trees and groves in our stress filled and increasingly urban world Note that over 50 percent of the world is urban Sacred trees and sacred groves transcend race color and creed They are found all over our fragile planet Where there is a tree there is a sacred tree This book will appeal to religious and spiritual traditions as well as to conservation and environmental movements It will offer its reader means to take better care of our only home planet Earth Often undervalued unrecognized or disrespected sacred trees and groves are conserved against mind boggling pressures For example there is a sacred fig tree between two shops in one of the main streets in Hanoi Vietnam There is also a one hectare sacred grove in the center of Kumasi a city of 2.5 million people in Ghana the over 150 000 sacred groves in India and the sacred hill forests of every village in Yunnan South China Sacred trees and groves often conserve unique biodiversity which can help create or recreate connectivity in the landscape As such sacred trees and groves may be relic survivors of bygone ages and are an important resource for restoring degraded natural landscapes This book offers ways for those involved with religion and spirituality and for those working with conservation and land use to jointly engage in repairing the damage we have done to Earth

I learned I laughed I sighed I swooned What an absolutely delightful romp through the forest Kate Harris author of *Lands of Lost Borders* Intimate open hearted A personal introduction to one of the most profoundly alive places on earth John Vaillant author of *The Golden Spruce* A funny deeply relatable book about one woman's quest to track some of the world's biggest trees Amanda Lewis was an overachieving burned out book editor most familiar with trees as dead blocks of paper A dedicated indoorswoman she could barely tell a birch from a beech But that didn't stop her from pledging to visit all of the biggest trees in British Columbia a Canadian province known for its rugged terrain and gigantic trees The Champion trees on Lewis's ambitious list ranged from mighty Western red cedars to towering arbutus They lived on remote islands and at the center of dense forests The only problem Well there were many Climate change and a pandemic aside Lewis's lack of wilderness experience the upsetting reality of old growth logging the ever changing nature of trees and the pressures of her one year timeframe complicated her quest Burned out again and realizing that her checklist approach to life might be the problem she reframed her search for trees to something humbler and more meaningful getting to know forests in an interconnected way Weaving in insights from writers and artists Lewis uncovers what we're really after when we pursue the big things revealing that sometimes it's the smaller joys the mindsets we have and the companions we're with that make us
