Saddams Bombmaker The Daring Escape Of The Man Who Built Iraqs Secret Weapon:

Saddam's Bombmaker Khidhir Hamza, Jeff Stein, 2001-10-09 The author who spent twenty years developing Iraq's atomic weapon recounts his life in Saddam Hussein's inner circle and his daring flight to the West. The book delves into the darkest corners of a regime ruled by a volatile brutal leader. Dr. Hamza, the only defector who has lived to write a firsthand portrait of Iraq, also presents an unprecedented portrait of Saddam: his drunken rages, his women, his cold-blooded murder of underlings, and his unrivaled power. If pushed to the wall, Saddam will use the bomb that Dr. Hamza helped create. This is an account of what he endured in Iraq, to his harrowing flight across three continents, and his first encounter with skeptical CIA agents who turned him away.

Saddam's Bombmaker Jeff Stein, Khidhir Hamza, 2001-06-24 The Iraqi scientist who designed Baghdad's nuclear bomb tells how he did it in secret with the cynical help of U.S., French, German, and British suppliers and experts, and kept it hidden from U.N. inspectors after the Gulf War. Today he says Saddam Hussein is only months away from making a workable bomb and has every intention of using it. Don't tell me about the law. The law is anything I write on a scrap of paper. Saddam Hussein. In 1994, after twenty years developing Iraq's atomic weapon, Dr. Khidhir Hamza made a daring escape to warn the CIA of Saddam's nuclear ambitions, only to be ridiculed and turned away. After a harrowing journey across three continents with Iraqi agents on his trail, Hamza finally came in from the cold at the U.S. embassy in Hungary. Now he tells a frightening story that U.S. officials have finally come to believe: that Saddam is still feverishly at work on the bomb, and if pushed to the wall, will use it. Dr. Hamza also presents a startling, unprecedented portrait of Saddam himself: his drunken rages, his women, his fear of germs, and his cold-blooded murder of underlings. A former resident of the presidential palace, Hamza is the only defector who has lived to write a firsthand, intimate portrait of the Iraqi inner circle: its spies and hit men, and their brutal chief. *Saddam's Bombmaker* is also a saga of one man's journey through the circles of hell. Educated at MIT and Florida State University, dedicated to a life of peaceful teaching in America, Dr. Hamza relates how the regime ordered him home, seduced him into a pampered life as an atomic energy official, and forced him to design a bomb. The price of refusal was torture. As the father of the Iraqi bomb, Dr. Hamza designed a device from scratch with the help of World War Two era blueprints from America's Los Alamos labs, all the while planning an escape. Privately, he and his colleagues believed they could procrastinate long enough to outlive Saddam. But the dictator outmaneuvered them, whipping the scientists into a crash program to build a crude bomb that could be dropped on Israel. Had U.S. and Allied forces not quickly mobilized for Desert Storm, Dr. Hamza relates, Saddam may well have succeeded, except for sufficient uranium: the device was ready. It still is. Dr. Hamza's tale of his escape, his first bungled contact with CIA agents, and his flight abroad, will keep readers turning pages toward a climax worthy of a well-crafted spy thriller. Along the way, he reveals The West's don't ask, just sell attitude toward Iraq's nuclear, chemical, and biological programs, as long as it was fighting Iran. How Iraq tested biological and chemical weapons on human subjects. How the Palestinian Liberation

Organization PLO tried to recruit Dr Hamza to make a bomb Baghdad s secret program to break into U S and other foreign computer systems Saddam s Bombmaker is not only a shocking political and scientific expos it is a riveting adventure tale
