Sade A Biographical Essay:

Sade Laurence L. Bongie, 2000-03-15 The writings of the Marquis de Sade have attained in recent years a widely acclaimed position in the canon of world literature Sade himself at one time discussed in horrified whispers is now often celebrated as a heroic apostle of individual rights a giant of philosophical thought and a martyr to freedom of conscience In Sade A Biographical Essay Laurence Bongie puts these claims to a severe test and finds them unfounded and undeserved

Sade's Sensibilities Kate Parker, Norbert Sclippa, 2014-11-20 Sade's Sensibilities tells a new story of one of the most enduring and controversial figures in European literature Blending ideas about subjectivity identity and natural philosophy with politics and pornography D A F de Sade has fascinated writers and readers for two hundred years and his materialist account of the human condition has been widely influential in post structuralism nihilism and feminism This new collection of essays considers Sade's Enlightenment legacy both within and beyond the narratives of radicalism and aberration that have historically marked the study of his oeuvre From different points of view these essays argue that Sade engaged with and influenced traditional Enlightenment paradigms particularly those related to sensibility subjectivity and philosophy as much as he resisted them They thus recover a Sade more relevant even foundational to our twenty first century understanding of modernity selfhood and community In Sade's Sensibilities Sade is no longer a solitary peripheral radical but an

Enlightenment philosopher in his own right **The Cambridge Companion to Simone de Beauvoir** Claudia Card, 2003-03-10 Simone de Beauvoir was a philosopher and writer of notable range and influence whose work is central to feminist theory French existentialism and contemporary moral and social philosophy The essays in this 2003 volume examine all the major aspects of her thought including her views on issues such as the role of biology sexuality and sexual difference and evil the influence on her work of Heidegger Sartre Merleau Ponty Husserl and others and the philosophical significance of her memoirs and fiction New readers and nonspecialists will find this the most convenient and accessible guide to Beauvoir currently available Advanced students and specialists will find a conspectus of recent developments in the interpretation of Beauvoir **The Other Rise of the Novel in Eighteenth-Century French Fiction** Olivier

Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Furetiere's Roman bourgeois and Lafayette's Princesse de Clèves

and four novels from the eighteenth century: Prévost's *Manon Lescaut*, Graffigny's *Lettres d'une Péruvienne*, Rousseau's *La Nouvelle Héloïse*, and Sade's *Les infortunes de la vertu*. It argues that eighteenth-century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes. The novel produces its own reality by transforming characters and their stories into alternative social models, different articulations of how individuals should define their economic relations to others. The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity. Realism then is not only about verisimilar storytelling and psychological depth; it is an epistemological questioning about the type of access to reality that a particular genre can give its readers.

Gay and Lesbian Literary Heritage Claude J. Summers, 2014-02-25 The revised edition of *The Gay and Lesbian Literary Heritage* is a reader's companion to this impressive body of work. It provides overviews of gay and lesbian presence in a variety of literatures and historical periods in depth, critical essays on major gay and lesbian authors in world literature, and briefer treatments of other topics and figures important in appreciating the rich and varied gay and lesbian literary traditions. Included are nearly 400 alphabetically arranged articles by more than 175 scholars from around the world. New articles in this volume feature authors such as Michael Cunningham, Tony Kushner, Anne Lister, Kate Millet, Jan Morris, Terrence McNally, and Sarah Waters; essays on topics such as *Comedy of Manners* and *Autobiography*; and overviews of Danish, Norwegian, Philippine, and Swedish literatures, as well as updated and revised articles and bibliographies.

Fictions of Pleasure Alistaire Tallent, 2023-12-15 This book identifies the prostitute memoir as a subgenre of the eighteenth-century French libertine novel and explores how the fictional utopia, the narrators of these salacious pseudo-memoirs, undermine the patriarchal hierarchies of the Ancien Régime and propose a social model in which women form networks of mutual support to achieve wealth and personal satisfaction.

Seducing the Eighteenth-Century French Reader Paul J. Young, 2016-12-05 As he demonstrates that narratives of seduction function as a master plot for French literature in the eighteenth century, Paul Young argues that the prevalence of this trope was a reaction to a dominant cultural discourse that coded the novel and the new practice of solitary reading as dangerous, seductive practices. Situating his study in the context of paintings, educational manuals, and criticism that caution against the act of reading, Young considers both canonical and lesser-known works by authors that include Rousseau, Sade, Bastide, Laclos, Crillon, and the writers of two widely read libertine novels. How these authors responded to a cultural climate that viewed literature and especially the novel as seductive sheds light on the perils and pleasures of authorship, the ways in which texts interact with the larger cultural discourse, and what eighteenth-century texts tell us about the dangers of reading or writing. Ultimately, Young argues, the seduction not in the text but by the text raises questions about the nature of pleasure in eighteenth-century French literature and culture.
