American Watercolor in the Age of Homer and Sargent Kathleen A. Foster, Philadelphia Museum of Art, 2017-01-01. The fascinating story of the transformation of American watercolor practice between 1866 and 1925. The formation of the American Watercolor Society in 1866 by a small dedicated group of painters transformed the perception of what had long been considered a marginal medium. Artists of all ages, styles, and backgrounds took up watercolor in the 1870s, inspiring younger generations of impressionists and modernists. By the 1920s, many would claim it as the American medium. This engaging and comprehensive book tells the definitive story of the metamorphosis of American watercolor practice between 1866 and 1925, identifying the artist constituencies and social forces that drove the new popularity of the medium. The major artists of the movement: Winslow Homer, John Singer Sargent, William Trost Richards, Thomas Moran, Thomas Eakins, Charles Prendergast, Childe Hassam, Edward Hopper, Charles Demuth, and many others are represented with lavish color illustrations. The result is a fresh and beautiful look at watercolor's central place in American art and culture.

Crossing disciplinary and chronological boundaries, this volume integrates text and image, essays and object pages to explore the processes inherent in gender representation rather than resituating women in particular categories or spheres as other scholarly publications and exhibitions have done. Taking its lead from the Picturing Women project on which it reflects and builds, the volume makes a substantial methodological contribution to the analysis of gender discourse and visibility. It offers new and stimulating scholarship that confronts historical patterns of representation that have defined what women were and are seen to be and presents new contexts for unveiling what art historian Linda Nochlin has called the mixed messages of representations of women.

Eugenics and Physical Culture Performance in the Progressive Era Shannon L. Walsh, 2020-11-16 This book strives to unmask the racial inequity at the root of the emergence of modern physical culture systems in the US Progressive Era 1890s 1920s This book focuses on physical culture systematic non competitive exercise performed under the direction of an expert because tracing how people practiced physical culture in the Progressive Era especially middle and upper class white women reveals how modes of popular performance institutional regulation and ideologies of individualism and motherhood combined to sublimate whiteness beneath the veneer of liberal progressivism and reform The sites in this book give the fullest picture of the different strata of physical culture for white women during that time and demonstrate the unracialization of whiteness through physical culture practices By illuminating the ways in which whiteness in the US became a default identity category absorbed into the universal ideals of culture arts and sciences the author shows how physical culture circulated as a popular performance form with its own conventions audience and promised profitability Finally the chapters reveal troubling connections between the daily habits physical culturists promoted and the eugenics movement's drive towards more reproductively efficient white bodies By examining these written visual and embodied texts the author insists on a closer scrutiny of the implicit whiteness of physical culture and forwards it as a crucial site of analysis for performance scholars interested in how corporeality is marshaled by and able to contest local and global systems of power

The Ditches of Nevada City Dom Lindars, 2023-04-07 This book tells the history of Nevada City California through the eyes of the men that built it For its first 100 years everything in Nevada City revolved around gold But this is not another book about finding gold To get gold you needed water to pan for it to wash it in a sluice to blast away a hillside with an immense water cannon or to turn the water wheel of a quartz ore stamp mill This book instead asks How did they get the water It reveals the engineering marvels that brought water to Nevada City's dry hills from tens of miles away But what if all the water in every ravine creek and valley around Nevada City was controlled by just three men Well for three decades every

miner farmer or business could only buy water from the powerful South Yuba Canal Company What would happen if you got into an argument with them Or couldn t afford to pay their water bill Or even dared to compete with them The book traces the ingenuity and hard work of the town s miners and ditch builders highlighting in detail the history and origins of various local neighborhoods including Nevada City itself Hirschman s Pond Sugar Loaf Mountain Deer Creek Scotts Flat Manzanita Diggings Gold Flat and various mining camps along Washington Ridge This vivid portrayal follows the area s evolution from the chaos of thousands of miners scratching out a living in clusters of muddy tents to a genteel town with hotels stores banks theaters and libraries What began as a search to uncover a sprawling network of old ditches turned into a collection of never before told stories of the gold miners the ruthless and greedy ditch company and the rivals that it crushed The domineering ditch company later enabled the next generation of monopoly to provide electrical power The story of PG E also started in Nevada City This in turn led to the now more forward looking stewardship of the Nevada Irrigation District The unique format of this book blends beautiful archival images with more than 35 in depth biographies of key figures in Nevada City This 884 page hardcover book includes over 600 photos and illustrations including 200 historic photographs and 75 hand crafted maps based on modern lidar technology that reveal the locations of the old mining ditches flumes mines and tunnels
