Selected Legal Issues Of Ecommerce Law And Electronic Commerce:

Selected Legal Issues of E-Commerce Toshiyuki Kono, Christoph Paulus, Harry Rajak, 2002-08-28 So rapid have been the developments of e commerce that it is now frequently said that this is the future of any commerce and that it carries the potential for enormous growth at least for the business to business B2B sector This text covers some important legal issues arising in e commerce

European Legal Aspects of E-commerce Martien Schaub, 2004 The year 2000 was when the European Union issued its E commerce Directive This directive regulates and facilitates e commerce in the internal market by laying down a clear and general legal framework favorable for business organizations as well as protecting the interests of consumers This book analyzes the consequences of the legal framework for business organizations involved with e commerce in Europe

Research on Selected China's Legal Issues of E-Business Yimeei Guo, 2014-09-12 This book focuses on various problems arising as a result of China's e business development These include e commerce aspects of the internet industry and e governance aspects of the presiding agencies E privacy and online IPR protection will be of particular interest to readers as these are important international problems that China has been trying its best to deal with for many years Each paper in this book presents valuable guidelines and suggestions to allow readers to form a sound understanding of China's e business development

Legal Aspects of an E-commerce Transaction Andrea Schulz (Ph.D.), 2006 The contributions contained in these conference proceedings illustrate how the existing and future regulatory framework operates for online business transactions Legal Aspects of an E Commerce Transaction examines various national and international laws and treaties as well as European Community law The book looks at self regulatory codes of conduct elaborated by business organizations relating to advertising spam competition and the use of intellectual property rights to the conclusion of online contracts and their performance Additionally post contractual issues dispute resolution and taxation are discussed and their interaction is examined Rules on electronic payment electronic invoicing and the taxation of electronic business transactions are equally addressed

Contract Law in Electronic Commerce Ralf Holthöfer, 2001-01-31 Inhaltsangabe Abstract This paper was written during my studies at Georgia State University Atlanta in Fall 2000 in the context of an exchange program between Georgia State University and Technische Universität Darmstadt Its subject is the new contract law in electronic commerce The paper starts with an illustration of the situation of legal uncertainty prior to the establishment of a specific contract law in electronic commerce Many laws governing contract formation were drafted before the existence of electronic messaging and did not adequately address the challenges of electronic transactions Furthermore electronic transactions were often hindered by the diversity of state laws This situation was considered to place some severe legal obstacles to the development of electronic commerce In 1997 President Clinton and Vice President Gore unveiled their Framework for Global Electronic Commerce This issue defined the main goals for the future development of both domestic and global electronic commerce The general objective was to establish a Uniform Commercial Code for this ascending sector of commerce in order

to facilitate and enforce electronic transactions The legislative efforts to achieve those goals recently resulted in two uniform acts the Uniform Computer Information Transactions Act UCITA and the Uniform Electronic Transactions Act UETA and the federal Electronic Signatures in Global and National Commerce Act E sign Act The paper deals with these new legislative approaches Aside from the presentation of the scopes of the different acts the paper focuses on their fundamental principles and major provisions Furthermore it discusses the new enactments in the context of a selection of fundamental legal issues raised by electronic commerce This discussion finally shows that although there have been a number of serious endeavors to achieve the above mentioned goals by drafting several electronic commerce statutes the recent enactments relating to contract law in electronic commerce are not able to achieve the goals set out in the Framework for Global Electronic Commerce There still remain significant legal obstacles that prohibit electronic commerce from reaching its full potential Zusammenfassung Diese Arbeit wurde während meines Studienaufenthaltes an der Georgia State University Atlanta im Herbstsemester 2000 im Rahmen eines Austauschprogramms zwischen der Georgia State University und der Technischen

Richert,2021-12-13 **Challenges of Copyright in the Digital Age** Arpi Abovyan,2014-06-26 The adaption of copyright law to the digital age is currently one of the EU s main concerns regarding intellectual property This thesis analyses whether European legislation in this field can be successfully implemented in the same way in countries with different levels of development Taking the examples of Germany and Armenia will help to evaluate the problems of developed and transition

countries concerning the challenges of copyright in the digital age The comparison between these two countries shows that a one size fits all approach is not appropriate in the digital environment The socio economic situation and the legal environment of transition countries call for a different solution In this respect the example of Armenia may be instructive for other transition countries as well especially CIS countries A recommendation for adopting a certain system for drafting European legislation in the future which will meet the needs of all countries considering their social economic and legal situation has been developed in this thesis

Legal Certainty in a Contemporary Context Mark Fenwick, Stefan Wrzka, 2016-04-02 This book addresses issues concerning the shifting contemporary meaning of legal certainty The book focuses on exploring the emerging tensions that exist between the demand for legal certainty and the challenges of regulating complex late modern societies The book is divided into two parts the first part focusing on debates around legal certainty at the national level with a primary emphasis on criminal law and the second part focusing on debates at the transnational level with a primary emphasis on the regulation of transnational commercial transactions In the context of legal modernity the principle of legal certainty the idea that the law must be sufficiently clear to provide those subject to legal norms with the means to regulate their own conduct and to protect against the arbitrary use of public power has operated as a foundational rule of law value Even though it has not always been fully realized legal certainty has functioned as a core value and aspiration that has structured normative debates throughout political modernity both at a national and international level In recent decades however legal certainty has come under increasing pressure from a number of competing demands that are made of contemporary law in particular the demand that the law be more flexible and responsive to a social environment characterized by rapid social and technological change The expectation that the law operates in new transnational contexts and regulates every widening sphere of social life has created a new degree of uncertainty and this change raises difficult questions regarding both the possibility and desirability of legal certainty This book compiles in one edited volume research from a range of substantive areas of civil and criminal law that shares a common interest in understanding the multi layered challenges of defining legal certainty in a late modern society The book will be of interest both to lawyers interested in understanding the transformation of core rule of law values in the context of contemporary social change and to political scientists and social theorists
