**Selected Papers on Epistemology and Physics** B. Juhos, 2012-12-06 It was as a result of having known Juhos personally over many years that I became familiar with his thought I met him and Viktor Kraft in Vienna soon after the War and through their acquaintance I first came into contact with the tradition of the Vienna Circle To their conversation too lowe much as regards the clarification of my own views even if in the end these took quite a different turn in many essentials At this point my gratitude goes first of all to Mrs Lia J uhos for the gen erous help she has given me and the editors of the Vienna Circle collection in selecting the contents of this volume Next we owe a special debt to Dr Paul Foulkes for his splendid translation of the text Finally I wish to thank Dr Veit Pittioni for his constant assistance As Juhos last student he was thoro lghly familiar with his supervisor s mode of thought and has significantly furthered the assembly and execution of this book

Feigl, 1980-11-30 The title is his own Herbert Feigl the provocateur and the soul if we may put it so of modesty wrote to me some years ago I m more of a catalyst than producer of new and original ideas all my life but then he com pleted the self appraisal with just a few exceptions perhaps We need not argue for the creative nature of catalysis but will simply remark that there are new and original ideas in the twenty four papers selected for this volume in the extraordinary aperrus of the 25 year old Feigl in his Vienna dissertation of 1927 on Zufall und Gesetz in the creative critique and articulation in his classical monograph of 1958 on The Mental and the Physical and the reader will want to turn to some of the seventy other titles in our Feigl bibliography appended Professor Feigl has been a model philosophical worker above all else honest self aware open minded and open hearted keenly devotedly and even arduously the student of the sciences he has been a logician and an empiricist Early on he brought the Vienna Circle to America and much later he helped to bring it back to Central

Europe The story of the logical empiricist movement and of Herbert Feigl's part in it has often been told importantly by Feigl himself in four papers we have included here      *International Books in Print* ,1979      *Subject Guide to Books in Print* ,1993
