**Selected Poems of Claude McKay** Claude McKay, 1953      Selected Poems Claude McKay, 2023-05-30 In his 1918 autobiographical essay *A Negro Poet Writes* Claude McKay 1889 1948 reveals much about the wellspring of his poetry I am a black man born in Jamaica B W I and have been living in America for the last years It was the first time I had ever come face to face with such manifest implacable hate of my race and my feelings were indescribable Looking about me with bigger and clearer eyes I saw that this cruelty in different ways was going on all over the world Whites were exploiting and oppressing whites even as they exploited and oppressed the yellows and blacks And the oppressed groaning under the leash evinced the same despicable hate and harshness toward their weaker fellows I ceased to think of people and things in the mass O ne must seek for the noblest and best in the individual life only each soul must save itself So wrote the first major poet of the Harlem Renaissance whose collection of poetry *Harlem Shadows* 1922 is widely regarded as having launched the movement But McKay s literary significance goes far beyond his fierce condemnations of racial bigotry and oppression as is amply demonstrated by the universal appeal of his sonnet *If We Must Die* recited by Winston Churchill in a speech against the Nazis in World War II While in Jamaica McKay produced two works of dialect verse *Songs of Jamaica* and *Constab Ballads* that were widely read on the island In richly authentic dialect the poet evoked the folksongs and peasant life of his native country The present volume meticulously edited and with an introduction by scholar Joan R Sherman includes a representative selection of this dialect verse as well as uncollected poems and a generous number in standard English from *Harlem Shadows*      Selected Poems Claude McKay, 2023 A collection of poems by Claude McKay one of the first poets of the Harlem Renaissance      The Later Works, 1925-1953 John Dewey, 1981 John Dewey s *Experience and Nature* has been considered the fullest expression of his mature philosophy since its eagerly awaited publication in 1925 Irwin Edman wrote at that time that with monumental care detail and completeness Professor Dewey has in this volume revealed the metaphysical heart that beats its unvarying alert tempo through all his writings whatever their explicit themes In his introduction to this volume Sidney Hook points out that Dewey s *Experience and Nature* is both the most suggestive and most difficult of his writings The meticulously edited text published here as the first volume in the series *The Later Works of John Dewey 1925 1953* spans that entire period in Dewey s thought by including two important and previously unpublished documents from the book s history Dewey s unfinished new introduction written between 1947 and 1949 edited by the late Joseph Ratner and Dewey s unedited final draft of that introduction written the year before his death In the intervening years Dewey realized the impossibility of making his use of the word *experience* understood He wrote in his 1951 draft for a new introduction *Were I to write or rewrite Experience and Nature today I would entitle the book Culture and Nature and the treatment of specific subject matters would be correspondingly modified I would abandon the term experience because of my growing realization that the historical obstacles which prevented understanding of my use of experience are for all practical purposes*

insurmountable I would substitute the term culture because with its meanings as now firmly established it can fully and freely carry my philosophy of experience      *Selected Poems of Claude McKay* Claude McKay,1953      *Selected Poems of Claude McKay* Claude McKay,1969      **Complete Poems** Claude McKay,2004-01-29 Containing more than three hundred poems including nearly a hundred previously unpublished works this unique collection showcases the intellectual range of Claude McKay 1889 1948 the Jamaican born poet and novelist whose life and work were marked by restless travel and steadfast social protest McKay s first poems were composed in rural Jamaican creole and launched his lifelong commitment to representing everyday black culture from the bottom up Migrating to New York he reinvigorated the English sonnet and helped spark the Harlem Renaissance with poems such as If We Must Die After coming under scrutiny for his communism he traveled throughout Europe and North Africa for twelve years and returned to Harlem in 1934 having denounced Stalin s Soviet Union By then McKay s pristine violent sonnets were giving way to confessional lyrics informed by his newfound Catholicism McKay s verse eludes easy definition yet this complete anthology vividly introduced and carefully annotated by William J Maxwell acquaints readers with the full transnational evolution of a major voice in twentieth century poetry      The Passion of Claude McKay Claude McKay,1973      **The Collected Works of John Dewey, Index** Jo Ann Boydston,1991-11-26 This cumulative index to the thirty seven volumes of The Collected Works of John Dewey 1882 1953 is an invaluable guide to The Collected Works The Collected Works Contents incorporates all the tables of contents of Dewey s individual volumes providing a chronological volume by volume overview of every item in The Early Works The Middle Works and The Later Works The Title Index lists alphabetically by shortened titles and by key words all items in The Collected Works Articles republished in the collections listed above are also grouped under the titles of those books The Subject Index which includes all information in the original volume indexes expands that information by adding the authors of introductions to each volume authors and titles of books Dewey reviewed or introduced authors of appendix items and relevant details from the source notes      **The Later Works of John Dewey, Volume 17, 1925 - 1953** John Dewey,2008 This is the final textual volume in The Collected Works of John Dewey 1882 1953 published in 3 series comprising 37 volumes The Early Works 1882 1898 5 vols The Middle Works 1899 1924 15 vols The Later Works 1925 1953 17 vols Volume 17 contains Dewey s writings discovered after publication of the appropriate volume of The Collected Works and spans most of Dewey s publishing life There are 83 items in this volume 24 of which have not been previously published Among works highlighted in this volume are 10 Educational Lectures before Brigham Young Academy early essays War s Social Results and The Problem of Secondary Education after the War and the previously unpublished The Russian School System      The Columbia Granger's Index to African-American Poetry Nicholas Frankovich,David Larzelere,1999 Responding to the enormous interest in African American literature Columbia University Press is publishing a Granger s R index devoted exclusively to poetry by African Americans To compile the Index to African American Poetry a team of consultants indentified the best most widely available

Florian Gargaillo,2023-05-10 In Echo and Critique Florian Gargaillo skillfully charts the ways that poets have responded to the clichés of public speech from the start of the Second World War to the present Beginning around 1939 many public intellectuals on both sides of the Atlantic lamented that the political lexicon had become saturated with bureaucratic stock phrases such as the fight for freedom revenue enhancement and service the target designed for the mass media and used to euphemize obfuscate and evade Instead of ridding their writing of such language many poets parroted these tropes as a means of exploring the implications of such expressions weighing their effects and identifying the realities they distort and suppress With its attentiveness to linguistic particulars poetry proved especially well suited to this innovative mode of close listening and intertextual commentary At the same time postwar poets recognized their own susceptibility to dead language so that co-opting political clichés obliged them to scrutinize their writing and accept the inevitability of cant while simultaneously pushing against it This innovative study blends close readings with historical context as it traces the development of echo and critique in the work of seven poets who expertly deployed the method throughout their careers W H Auden Randall Jarrell Langston Hughes Claude McKay Robert Lowell Josephine Miles and Seamus Heaney Gargaillo's analysis reveals that poetry can encourage us to listen diligently and critically to the insincerity ubiquitous in public discourse
