Bennett, 2024-05-29 The Routledge Companion to Absurdist Literature is the first authoritative and definitive edited collection on absurdist literature As a field defining volume the editor and the contributors are world leaders in this ever exciting genre that includes some of the most important and influential writers of the twentieth century including Samuel Beckett Harold Pinter Edward Albee Eugene Ionesco Jean Genet and Albert Camus Ever puzzling and always refusing to be pinned down this book does not attempt to define absurdist literature but attempts to examine its major and minor players As such the field is indirectly defined by examining its constituent writers Not only investigating the so called Theatre of the Absurd this volume wades deeply into absurdist fiction and absurdist poetry expanding much of our previous sense of what constitutes absurdist literature Furthermore long overdue approximately one third of the book is devoted to marginalized writers black Latin x female LGBTQ and non Western voices The Oxford Anthology of African-American **Poetry** Arnold Rampersad, Hilary Herbold, 2006 Presents a comprehensive anthology of African American poetry covering over two centuries and includes selections by Langston Hughes Gwendolyn Brooks W E B Du Bois and many more Poetics of Emergence Benjamin Lee, 2020-07-15 Experimental poetry responded to historical change in the decades after World War II with an attitude of such casual and reckless originality that its insights have often been overlooked However as Benjamin Lee argues to ignore the scenes of self and the historical occasions captured by experimental poets during the 1950s and 1960s is to overlook a rich and instructive resource for our own complicated transition into the twenty first century Frank O Hara and fellow experimental poets like Amiri Baraka Diane di Prima and Allen Ginsberg offer us a set of perceptive responses to Cold War culture lyric meditations on consequential changes in U S social life and politics including the decline of the Old Left the rise of white collar workers and the emergence of vernacular practices like hipsterism and camp At the same time they offer us opportunities to anatomize our own desire for historical significance and belonging a desire we may well see reflected and reconfigured in the work of these poets The Routledge Introduction to African American **Literature** D. Quentin Miller, 2016-02-12 The Routledge Introduction to African American Literature considers the key

Turner, 2014-08-01 The year of 1980 marked a pivotal turning point in the American political landscape the electoral victory of presidential candidate Ronald Reagan the beginnings of the public hysteria and eventual legislative dismantling of affirmative action and other civil rights initiatives the dawn of the ruthless reign of neo conservatism and in some ways serving as the glue the ascent of neo liberalism as the prevailing ideology and standard logic of viewing and ordering the world Some thirty five years later it is almost difficult to remember a world and more precisely a moment in United States history when these things were not so dominant When thinking about the lasting impact of that moment David Harvey writes Future historians may well look upon the years 1978 1980 as a revolutionary turning point in the world's social and economic history revolutionary impulses seemingly spread and reverberated to remake the world around us in a totally different image In short this was an instance of profound transformation it was the dawn of the counterrevolution By no means immune to the changes in the larger political landscape Black activists and intellectuals also felt the ground moving beneath their feet in 1980 as many would gradually shift from an all out advance towards liberation to a posture concerned with what James Turner described as the preservation of the modest gains made by African Americans over the last decade The previous decade witnessed an obvious waning in the Black liberation movement a slew of high profile manhunts arrests court cases and outright criminalizing of radical activists the unearthing of Cointelpro the blooming of the liberation movement in Southern Africa a taxing debate around various articulations of Marxism and Black nationalism the full swing of feminism and a full decade of Africana Studies which also meant institutionalized space to foster such discussions It was these changing times that provided the context for the important
