Localizing Governance in India Bidyut Chakrabarty,2017-02-17 Participatory governance has a long history in India and this book traces historical intellectual trajectories of participatory governance and how older Western discourses have influenced Indian policymakers While colonial rulers devolved power to accommodate dissenting voices for independent India participatory governance was a design for democratizing governance in its true sense Participation also acted as a vehicle for localizing governance The author draws on both Western and non Western theoretical treatises and the book seeks to conceptualize localizing governance also as a contextual response It also makes the argument that despite being located in different socio economic and political milieu thinkers converge to appreciate localizing governance as perhaps the only reliable means to democratize governance The book aims to confirm this argument by reference to sets of evidence from the Indian experience of localizing governance By attempting a genealogy of participatory governance in the West and in India and an empirical study of participatory governance in India the book sheds light on the exchange of ideas and concepts through space and time thus adding to the growing body of literature in the social sciences on conceptual flow It will be of interest to political scientists and historians in particularly those studying South Asia

Defunct Federalisms Emilian Kavalski,Magdalena Zolkos,2016-05-13 Since the end of the Cold War the global arena has become a place for dynamic change in particular for federal political units The focus on defunct federalisms draws attention not only to the difference between state making and nation building it also points to the fact that state making does not necessarily lead to the creation of a national identity This comparative volume looks at the track record of several defunct federalisms to identify options that have been overlooked

and decisions that precipitated the collapse Bringing together insights from the study of state failure and federal collapse it examines the ways in which parallel assessment is crucial for suggesting the complex structures of identity accommodation in federal entities The volume is ideal for advanced undergraduates and graduate students as well as university lecturers and researchers working on the issues related to contemporary federalism history of federal units and the questions of national identity

Politics of the 'Other' in India and China Lion Koenig,Bidisha Chaudhuri,2016-02-22 The social sciences have been heavily influenced by modernization theory focusing on issues of economic growth political development and social change in order to develop a predictive model of linear progress for developing countries following a Western prototype Under this hegemonic paradigm of development the world tends to get divided into simplistic binary oppositions between the West and the rest us and them and self and other Proposing to shift the discussion on what constitutes the Other as opposed to the Self from philosophy and cultural studies to the social sciences this book explores how the structural asymmetries existing between Western discourses and the realities of the non Western world manifest themselves in the ideas institutions and socio political practices of India and China and in how far they shape the social scientist s understanding of their discipline in general It provides a counter narrative by revealing the relativity of geographies and by showing that the conventional presentation of core elements of the Asian socio political set up as aberrations from the Western models fails to acknowledge their inherent strategic character of adapting Western concepts to meet local requirements Drawing on multiple disciplines concepts and contexts in India and China the book makes a valuable contribution to the theory and practice of politics as well as to International and Asian Studies

The Philosophical Influences of Mao Zedong Robert Elliott Allinson,2019-09-19 This philosophical Mao is a fresh portrait of the mind of the ruler who changed the face of China in the twentieth century The book traces the influences of both traditional Chinese and traditional pre Marxist Western philosophy on the early Mao and how these influences guided the development of his thought It reveals evidence of the creative dimensions of Mao s thinking and how he wove the yin yang pattern of change depicted in the Yijing the Chinese Book of Changes into the Marxist dialectic to bring ancient Chinese philosophy to mark changes in

twentieth century thought Mao's lifetime philosophical journey includes his interpretations of and comments on both Chinese and Western philosophers. His deep metaphysical reflections, uncanny prognostications, and pensive speculations from his early pre-Marxist period to his later philosophical years prove to be as startling as they are thought-provoking. **Anxiety Aesthetics** Jennifer Dorothy Lee, 2024-02-06. *Anxiety Aesthetics* is the first book to consider a prehistory of contemporaneity in China through the emergent creative practices in the aftermath of the Mao era. Arguing that socialist residues underwrite contemporary Chinese art, complicating its theorization through Maoism, Jennifer Dorothy Lee traces a selection of historical events and controversies in late 1970s and early 1980s Beijing. Lee offers a fresh critical frame for doing symptomatic readings of protest ephemera and artistic interventions in the Beijing Spring social movement of 1978-80 while exploring the rhetoric of heated debates waged in institutional contexts prior to the 85 New Wave. Lee demonstrates how socialist aesthetic theories and structures continued to shape young artists' engagement with both space and selfhood and occupied the minds of figures looking to reform the nation. In magnifying this fleeting moment, Lee provides a new historical foundation for the unprecedented global exposure of contemporary Chinese art today. *Translations on Communist China* United States. Joint Publications Research Service, 1965. **Revolutionary Subjectivity in Post-Marxist Thought** Oliver Harrison, 2016-04-08. Since the onset of the Global Financial Crisis, the ideas of Karl Marx have once again become prominent in social and political thought. This book turns to Marx's theory of revolutionary subjectivity as a means of assessing the work of three contemporary global theorists: Ernesto Laclau, Antonio Negri, and Alain Badiou, considered here together for the first time.

Making It Count Arunabh Ghosh, 2022-01-11. Among the biggest challenges facing leaders of the newly established People's Republic of China (PRC) was how much they did not know. In 1949, at the end of a long sequence of wars, the government of one of the largest states in the world committed to fundamentally re-engineering its society and economy via socialist planning while having almost no hard, reliable statistical data about their own country. This book is a history of attempts made to resolve this crisis in counting. Drawing on a wealth of official, institutional, and private sources culled from China, India, and the United States, the author explores the choices made and the effects they engendered through a series of vivid encounters with political leaders, professional statisticians, academics, ordinary statistical workers, and even literary figures. Early reliance on Soviet-inspired methods of enumeration became increasingly untenable in China by the middle of the 1950s. A series of unprecedented and unexpected exchanges with Indian statisticians followed as the Chinese sought to learn about the then exciting new technology of random sampling. These developments were in turn overtaken by the tumult of the Great Leap Forward (1958-1961) when both probabilistic and exhaustive methods were rejected and statistics was refashioned into an essentially ethnographic enterprise. The author argues that this history, usually narrowly described as a universal if European history, cannot be understood without acknowledging Soviet and Indian influences, which not only revises existing models of Cold War science but also globalizes the wider developments in the history of statistics and data.

Moulding the Socialist Subject Xiaoning LU,2020-02-03 What role did cinema play in the Chinese Communist Party's political project of shaping ideal socialist citizens in the early People's Republic In *Moulding the Socialist Subject* Xiaoning Lu deploys case studies from popular film genres movie star culture and rural film exhibition practices to argue that Chinese cinema in 1949-1966 at once an important political instrument an enjoyable yet instructive form of entertainment and a specific manifestation of the socialist society of the spectacle was an everyday site where the moulding of the new socialist person unfolded While painting a broad picture of Chinese socialist cinema Lu credits the human agency of film professionals whose self-reflexivity and individual adaptability played an intrinsic role in the Party's political project *Curating Under Pressure* Janet Marstine,Svetlana Mintcheva,2020-07-14 *Curating Under Pressure* breaks the silence surrounding curatorial self-censorship and shows that it is both endemic to the practice and ubiquitous Contributors map the diverse forms such self-censorship takes and offer creative strategies for negotiating curatorial integrity This is the first book to look at pressures to self-censor and the curatorial responses to these pressures from a wide range of international perspectives The book offers examples of the many creative strategies that curators deploy to negotiate pressures to self-censor and gives evidence of curators' political acumen ethical sagacity and resilience over the long term It also challenges the assumption that self-censorship is something to be avoided at all costs and suggests that a decision to self-censor may sometimes be politically and ethically imperative *Curating Under Pressure* serves as a corrective to the assumption that censorship pressures render practitioners impotent It demonstrates that curatorial practice under pressure offers inspiring models of agency ingenuity and empowerment *Curating Under Pressure* is a highly original and intellectually ambitious volume and as such will be of great interest to students and academics in the areas of museum studies curatorial and gallery studies art history studio art and arts administration The book will also be an essential tool for museum practitioners **China and Cold War**

International Science Gordon Barrett,2022-08-25 The first extended study of Chinese engagement in international science during the Cold War **Endogenous Origins of Economic Reforms in India and China** Rajiv G. Maluste,2011-07 Attitudinal change in the context of economic reforms has been referred to in Rodrik and Subramanian 2005 DeLong 2003 Kohli 1989 and Panagariya 2004 2008 This dissertation provides empirical support for this literature establishing an earlier start for India's economic policy liberalisation than presented in stylized accounts It demonstrates the endogenous nature of the origins of these policy shifts Attitudinal change literature had directed attention to the need for further research into India's policy changes of the early 1980s and for studying broader comparability issues in other developing countries This research makes a contribution towards filling these gaps This dissertation shows that India started its economic liberalisation under the Indira Gandhi administration from 1980 to 1984 These findings depart from the conventional view that India's economic policy changes were initiated by the Narasimha Rao government in 1991 or by the Rajiv Gandhi administration in

the mid to late 1980s The dissertation establishes that policy shifts of the early 1980s had endogenous origins in the political leadership s attitudinal changes The Indira Gandhi administration of the early 1980s revisited the statist policies of its previous tenure from 1966 to 1977 The new approach entailed more openness towards private enterprise scaling back the role of the public sector and starting India s integration into the global economy The dissertation also discusses the comparable role of attitudinal changes at the start of China s policy liberalisation led by Deng Xiaoping from 1978 to 1982 It focuses on the significance and challenges faced by China s political leadership in bringing about societal attitudinal change The dissertation concludes by drawing comparisons between India and China developing a linkage between their endogenous attitudinal changes and economic policy liberalisation
