Touchstones of the Spirit Harry Oldmeadow, 2012-05-01 This book explores three themes the timeless messages of traditional Religion the modern obscuration of this perennial Wisdom and the spiritual encounter between East and West Topics include the Australian Aborigines the Bodhisattva in Buddhism and key Perennialist figures such as Frithjof Schuon Ananda Coomaraswamy and Huston Smith Characterizing modernism as a spiritual disease which is spreading like a plague across the globe Oldmeadow offers insightful criticisms of Eckhart Tolle s *The Power of Now* and what he calls the false prophets of modernity

The Higher Spiritual Path William Wilson Quinn, 2023-12-08 Predicated on the immemorial core or first principles of the universal perennial philosophy which finds expression from Lao Tzu to Ramana Maharshi in the East and from Pythagoras to Ren Gu non and Ananda K Coomaraswamy in the West *The Higher Spiritual Path* details how those on the higher spiritual path must address and master its requirements This book is as practical as it is philosophical or theosophical since it is based on the specifics of sacred science or spiritual science an inextricable component of the perennial philosophy Many of the requirements of the higher spiritual path are based on the truths of this ancient spiritual science formulated over millennia by jivanmukti or liberated beings who serve as the teachers of those currently engaged in treading this hieratic path The goals of ascending this path are the loftiest the hierarchical order of its spiritual teachers is the holiest and the totality of its evolutionary and compassionate purpose is the most sacred

On the Origin of Myths in Catastrophic Experience, vol. 1: Preliminaries Marinus Anthony van der Sluijs, 2019-01-01 Creation myths around the world reveal an intricate network of recurrent motifs Many of these are counterintuitive and not widely known describing a time when the sky was low the stars did not yet shine multiple suns appeared the moon was brighter than the sun no land existed deities and mortals maintained frequent contact a world axis in the form of a tree ladder or giant man connected the earth with the sky a devastating flood or fire ended the old order and so forth The present work in multiple volumes aims to find an origin for this cross culturally and internally consistent body of traditions in a series of extraordinary natural events relating especially to the earth s transition from the last glacial period to the Holocene This first volume sets the stage for the

interdisciplinary hypothesis Essential lines of research receive a historical introduction comparative mythology catastrophism and the study of the mythical world axis in relation to the earth's rotation Various astronomical and meteorological interpretations that are not strictly catastrophist are explored for several types of myths about the sun the moon and the world axis but leave many of the most intriguing traditions unexplained It is argued that a structural core of the worldwide mythology of creation and destruction in which the cosmic axis takes pride of place points to a specific period of dramatic natural circumstances in real prehistoric time A new synopsis is provided of this universal mythological substrate It emerges that the mythical world axis cannot have been based on a single object seen or imagined at one of the poles as has usually been supposed This surprising conclusion paves the way for the innovative geomagnetic theory proposed in volume 2

Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

The Timeless Relevance of Traditional Wisdom Ali M. Lakhani, 2010-09-16 More than ever there is an urgent need to rediscover timeless and objective principles in order to confront the issues of our times In this collection of thirty remarkable essays Lakhani summons us to rediscover the sacred worldview of Tradition governed by truth virtue and beauty as he addresses some of the most pressing issues today including fundamentalism gender and sexuality religious diversity and pluralism faith and science and the problem of evil

Letters of Frithjof Schuon: Reflections on the Perennial Philosophy Frithjof Schuon, 2022-06-01 This collection of letters by Frithjof Schuon the foremost spokesman of the perennial philosophy contains nearly 200 newly translated letters from Schuon's youth to old age as written to friends spiritual seekers scholars and others Among the letters are those that address in a simpler and more accessible manner the same metaphysical subjects that continually recur in Schuon's published works Other letters relate to the spiritual life in its simple and concrete aspects by answering such fundamental questions as Why is

there evil in the world How can I recognize if I am on a wrong path and What should I do to be saved Finally there are letters that relate to various aspects of Schuon s life most of which were written to his closest friends While not a comprehensive autobiography these letters offer an intimate view of certain key moments in his life Taken as a whole the present collection of letters offers insights into the content of Frithjof Schuon s message his exposition of the perennial philosophy as well as a glimpse into his life as messenger of that philosophy ‘Greater India’ and the Indian Expansionist Imagination, c. 1885–1965 Jolita Zabarskaitė, 2022-11-07 This book is the first systematic study of the genealogy discursive structures and political implications of the concept of Greater India implying a Hindu colonization of Southeast Asia and used by extension to argue for a past Indian greatness as a colonial power reproducible in the present and future From the 1880s to the 1960s protagonists of the Greater India theme attempted to make a case for the importance of an expansionist Indian civilisation in civilizing Southeast Asia The argument was extended to include Central Asia Africa North and South America and other regions where Indian migrants were to be found The advocates of this Indocentric and Hindu revivalist approach with Hindu and Indian often taken to be synonymous were involved in a quintessentially parochial project despite its apparently international dimensions to justify an Indian expansionist imagination that viewed India s past as a colonizer and civilizer of other lands as a model for the restoration of that past greatness in the future Zabarskaite shows that the crucial ideologues and elements used for the formation of the construct of Greater India can be traced to the svade movement of the turn of the century and that Greater India moved easily between the domains of the scholarly and the popular as it sought to establish itself as a form of nationalist self assertion
