**Attuned to Alien Moonlight** Dennis Haskell, 2002 Bruce Dawe is Australia's most popular and widely studied poet This first full scale critical study of his poetry to date reveals a richly complex and varied poet Dennis Haskell argues that the widespread view of Dawe as a social satirist is limiting and that Dawe is a more imaginative and lyrical poet than he has been given credit for as the title *Attuned to Alien Moonlight* indicates Dawe's apparent topicality and ease of access hides deeper more mysterious and more Romantic elements in his work Haskell analyses well known and some quite unknown poems in order to build up a picture of Dawe's poetry as a whole and his chapters approach Dawe from some surprising perspectives for example in relation to Asia and as a love poet Aimed at both students of Dawe's work and the general literary reader the book places Dawe in the context of Australian poetry and cultural values and in relation to the larger traditions of poetry in English It includes a substantial bibliography and a comprehensive chronology      *Testimony* Hans Juergensen, 1989-01-01

**The Selected Letters of George Oppen** George Oppen,1990 Objectivist poet George Oppen 1908 1984 along with his contemporaries Lorine Niedecker Charles Reznikoff and Carl Rakoski provide an important bridge between the vanguard modernist American poets and the later works of poets such as Robert Creeley In work often compounded by the populist urbanity of city lives the Objectivists explored the social statements poetry can make Because Oppen wrote only one essay and one essay review his correspondence in effect constitutes his essays Oppen is emerging as one of the major poets of the postwar era he was the recipient of an American Academy and Institute of Arts and Letters Award the PEN West Rediscovery Award and a Senior Fellowship from the National Endowment for the Arts His collection *Of Being Numerous* received the 1969 Pulitzer Prize for Poetry These working papers include a rich correspondence letters which provide access to the sustained perceptive body of critical and aesthetic thinking of Oppen's poetic career Provocative and witty comments on poetry and poetics especially interesting for the development of an Objectivist aesthetics and shrewd

deeply felt assessments about the politics of the twentieth century and its moral dilemmas are some of the issues attended to. This edition offers primary documentation about an influential poetics a little known movement and its active figures. Given the aggressive studies of the politics of canon formation the interest in describing a historical context for individual literary achievement and current debates about mainstream poetry the rethinking of the Objectivist movement and the collection of documents contributing to its poetics is an important achievement in literary scholarship.

**The Oxford English Literary History: Volume 12: The Last of England?** Randall Stevenson, 2005-11-10. English Literature in the 1960s soon threw off its post war weariness and the tepid influences of the previous decade. New voices new visions and new commitments profoundly reshaped writing during the 60s and throughout the rest of the century. Drama thrived on its rapidly rebuilt foundations. New freedoms of style and form revitalised fiction. Poetry too gradually recovered the variety and inventiveness of earlier years. As well as comprehensively charting these changes in the literary field Randall Stevenson persuasively pinpoints their origins in the historical social and intellectual pressures of the times. Literary developments are revealingly related to the wider evolution and profound changes in English experience in the late twentieth century to shadows of war and loss of empire declining influences of class shifting relations between the genders emergent minority and counter cultures and the broadening democratization of contemporary life in general. Analyses of the rise of literary theory of publishing and the book trade and of the pervasive influences of modernism and postmodernism contribute further to an impressively thorough insightful description of writing in the later twentieth century a literary period Stevenson shows to be far more imaginative and exciting than has yet been recognised. Lucid accessible and engaging this volume of the Oxford English Literary History presents a unique illumination of its age one we have lived through but are only just beginning to understand. The first full account of its period it will set the agenda for discussion of late twentieth century literature for many years to come.
