Selected Works Of Juan Donoso Cortes

William Levantrosser, Rosanna Perotti

Selected Works Of Juan Donoso Cortes:

Selected Works of Juan Donoso Cortés Juan Donoso Cortes, 2000-05-30 Growing interest in the ideas of the German legal and political theorist Carl Schmitt have sparked an interest in the thinkers and ideas that influenced him Chief among those influences stands the 19th century Spanish and conservative thinker Juan Donoso Cortes 1809-1853 Donoso stands in a unique place in the ideological trajectory of conservative counter-revolutionary thought that started with the reaction of Joseph de Maistre and Louis de Bonald against the French Revolution and culminated in the rise of fascism in the early twentieth century As the philosophical successor of de Maistre Donoso kept de Maistre's ideas on authority and infallibility alive in the midst of the ideological and political controversies and the revolutionary tumult of Europe in the mid-19th century Donoso's theories on infallibility played a crucial role in the definition of papal infallibility during the First Vatican Council in 1870 His theory on dictatorship changed the focus of continental conservative thought away from emphasizing the restoration of a hierarchically ordered civilization through the restoration of the monarchical ancient regime to the establishment of order and hierarchy by any necessary and effective means This theory and his critique of parliamentarianism were especially reflected in the Franco regime in Spain and in the political and legal theories of Carl Schmitt All the speeches and writings of Cortes that influenced Schmitt are contained in this volume These major theoretical works appear in English for the first time Only the Speech on Dictatorship has appeared in English to date Johnson's Introduction provides extensive commentary on the works and theories developed in them by showing the historical and philosophical context from which they emerged and by pointing out their significance in the development of the counter-revolutionary ideological trajectory leading from de Maistre to fascism Until now Donoso has been studied by a small group of mostly conservative and Catholic scholars This translation makes his ideas more readily available for study by students and scholars of political theory

Selected Political Essays Orestes Augustus Brownson, Born in Vermont while Thomas Jefferson was president and dying in Detroit while Rutherford B. Hayes was president Orestes Brownson knew practically everybody and wrote about practically everything in the nineteenth century Called by some a Marxist before Marx he travelled from various forms of radicalism and religion to political conservatism and religious orthodoxy His socialist roots made him a formidable adversary to Marxist thought in his maturity In his first principles Brownson came to stand at the opposite pole from Ralph Waldo Emerson among his friends was John C. Calhoun He set himself against both Abraham Lincoln and Jefferson Davis arguing that authority and liberty both are necessary for a commonwealth Brownson maintained that pure democracy and social equality are death to civilization and liberty that the moral principles taught by the Church deny the rectitude of leveling egalitarianism and that those who would preserve the justice and freedom of the American Republic must resist the degradation of the democratic dogma With force and penetrating intellect Brownson reminded Americans that they must respect the wisdom of traditional values By calling for restraints on American materialism and

individualism he did not make himself popular in his time But as Russell Kirk makes clear in his new introduction Brownson's ideas have had continuing influence just as his thought has reentered American political discourse Publication of his essays as part of the Library of Conservative Thought is particularly timely

The Teachings of Modern Roman Catholicism on Law, Politics, and Human Nature John Witte (Jr.), John Witte, Frank S. Alexander, 2007 This landmark three volume series examines how modern Catholic Protestant Orthodox thinkers have responded to the most pressing political legal ethical questions of our time

The New Inquisitions Arthur Versluis, 2006-07-27 The only book of its kind The New Inquisitions is an exhilarating investigation into the intellectual origins of totalitarianism Arthur Versluis unveils the connections between heretic hunting in early and medieval Christianity and the emergence of totalitarianism in the twentieth century He shows how secular political thinkers in the nineteenth century inaugurated a tradition of defending the Inquisition and how Inquisition style heretic hunting later manifested across the spectrum of twentieth century totalitarianism An exceptionally wide ranging work The New Inquisitions begins with early Christianity and traces heretic hunting as a phenomenon through the middle ages and right into the twentieth century showing how the same inquisitional modes of thought recur both on the political Left and on the political Right

Selected Works of Miguel de Unamuno, Volume 7 Miguel de Unamuno, 2017-03-14 Unwilling to be bound by the categories of religion Unamuno rejected the laws that distinguish one literary genre from another Thus some of Unamuno's finest essays are short stories and vice versa Included in this volume are four stories Tia Tula The Novel of Don Sandalio Chess Player The Madness of Doctor Montarco Saint Manuel Bueno Martyr and the play The Other Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Selected Works of Miguel de Unamuno, Volume 1 Miguel de Unamuno, 2017-03-14 The first English translation of Unamuno's first novel published in 1897 when he was 33 Its setting is the Basque country of northern Spain during the Second Carlist War 1874-1876 a conflict he lived through as a child Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Great Christian Jurists in Spanish History Rafael Domingo, Javier Martínez-Torrón, 2018-05-10 The Great Christian Jurists series comprises a library of national volumes of detailed biographies of leading jurists judges and practitioners assessing the impact of their Christian

faith on the professional output of the individuals studied Spanish legal culture developed during the Spanish Golden Age has had a significant influence on the legal norms and institutions that emerged in Europe and in Latin America This volume examines the lives of twenty key personalities in Spanish legal history in particular how their Christian faith was a factor in molding the evolution of law Each chapter discusses a jurist within his or her intellectual and political context All chapters have been written by distinguished legal scholars from Spain and around the world This diversity of international and methodological perspectives gives the volume its unique character it will appeal to scholars lawyers and students interested in the interplay between religion and law

Marx's Temporalities Massimiliano Tomba, 2012-11-09 The book rethinks the central categories of Marx's work beyond any philosophy of history providing a critical analysis of his political and theoretical development from his early writings to the elaboration of the critique of political economy and his final anthropological studies on pre-individualistic and communist forms The study aims to integrate the paradigm of the spatialisation of time with that of the temporalisation of space showing how capital places diverse temporalities into hierarchies that incessantly produce and reproduce new forms of class struggle An adequate historiographical paradigm for globalised capitalism has to consider the plurality of temporal layers that are combined and come into conflict in the violently unifying historical dimension of modernity

The Dialectics of Democracy Dimitrios Kivotidis, 2024-03-05 This book examines how the democratic form and the struggle for democracy reflects influences and shapes the struggle for social emancipation In the context of increased exploitation rising inequality and intensified struggle for social justice in the aftermath of the economic crisis the channelling of populism through liberal democratic institutions has had contradictory effects giving rise to both Corbyn and Brexit Sanders and Trump Syriza and the Golden Dawn to name but a few How can we make sense of these developments In response this book approaches the idea of democracy from a socialist constitutionalist standpoint and explores institutional forms and principles that challenge and aim at the transformation of the extant social order This process involves the challenging of well established ideas of the liberal viewpoint as well as an unwavering focus on the issue of class rule which enables the highlighting of limitations of not only mainstream but also heterodox contemporary approaches to constitutionalism and democracy Ultimately democracy is conceived as a process of struggle for creating the conditions material as well as intellectual for its actualisation This significant work of legal and political theory will be of considerable interest to those working in these areas to make sense of contemporary developments and to further the causes of social justice and social emancipation

The Unpolitical Massimo Cacciari, 2009 Massimo Cacciari is one of the leading public intellectuals in today's Italy This collection of essays on political topics provides the best introduction in English to his thought to date This carefully curated collection includes chapters on Hofmannsthal Lukács Benjamin Nietzsche Weber Derrida Schmitt Canetti and Aeschylus Written between 1978 and 2006 these essays engagingly address the most hidden tradition in European political thought the unpolitical Far from being a refusal of politics The Unpolitical represents a

merciless critique of political reason and a way out of the now impracticable consolations of utopia and harmonious community A lucid and engaging Introduction by Alessandro Carrera sets these essays in the context of Cacciari's work generally and in the broadest context of its historical and geographical backdrop Carl Schmitt William Rasch, 2019-07-23 This important new book places Carl Schmitt's critique of liberal political theory in a broader historical context than is usually done His belief in the centrality of the European state since the seventeenth century derives from various sources including medieval Scholastic theology and nineteenth century post Hegelian social and political theory Schmitt's famed political theology aims at justifying the necessity of a strong secular state as the safeguard of a political community against the encroachment of legally protected interest groups that shield themselves behind pre political rights William Rasch neither condemns nor champions Schmitt's various attacks on liberalism but does insist that the tension between society as the realm of individual rights to pursue private pleasures and the state as the placeholder for something traditionally called the common good is a conundrum that is as important now as it was during the Weimar era in Germany Reappraisal of some of the pillars of liberal dogma are as much in order as are fears of their demise *The Complete Works of Miguel de Cervantes Saavedra: Galatea* Miguel de Cervantes Saavedra, 1903 **Beyond 'Hellenes' and 'Barbarians'** Kirill Postoutenko, 2022-10-14 Forty years ago German historian Reinhart Koselleck coined the notion of asymmetrical concepts pointing at the asymmetry between standard self ascriptions such as Hellenes or Christians and pejorative other references Barbarians or Pagans as a powerful weapon of cultural and political domination Advancing and refining Koselleck's approach *Beyond Hellenes and Barbarians* explores the use of significant conceptual asymmetries such as civilization vs barbarity liberalism vs servility order vs chaos or even masters vs slaves in political scientific and fictional discourses of Europe from the Middle Ages to the present day Using an interdisciplinary set of approaches the scholars in political history cultural sociology intellectual history and literary criticism bolster and extend our understanding of this ever growing area of conceptual history On the Dignity of Society F Russell Hittinger, 2024-05 In this collection of essays Francis Russell Hittinger shows that Catholic social teaching is not only an articulate defense of the dignity of the human person but perhaps more fundamentally an elucidation of the dignity of society Indeed Hittinger enables us to see that one cannot properly defend the dignity of the person without also showing the dignity of societies in which human persons as naturally familial political and ecclesial animals seek their own perfection in communion with others Hittinger has been a renowned scholar of Catholic social doctrine for some time now and the essays presented here are the fruit of his mature thinking on the topic over the course of many years As each chapter shows Hittinger's historically important body of work on Catholic moral and social philosophy and theology is rooted in natural law theory and Thomistic philosophy but also animated by St Augustine's thought and thus consistently sensitive to historical contexts and arenas for moral and theological disputation These magisterial essays therefore integrate historical studies of the development of Catholic social teaching with systematic

exposition of the theological coherence of that tradition while also articulating the essential role of philosophy and natural law within both. The volume is divided into three parts. The first part is comprised of six essays on Catholic social teaching; the second part is made up of six essays on natural law and its role in social doctrine; and the third part includes two essays discussing the first principles of the Church's teaching on social issues. This collection will no doubt become a standard in the field of scholarship on Catholic social teaching. *The complete works of Miguel de Cervantes Saavedra, ed. by J. Fitzmaurice-Kelly*, 1903. *The Collected Works of Eric Voegelin, Volume 29: Selected Correspondence, 1924-1949*, René Girard and *Creative Mimesis* Vern Neufeld Redekop, Thomas Ryba, 2013-11-21. For half a century René Girard's theories of mimetic desire and scapegoating have captivated the imagination of thinkers and doers in many fields as an incisive look into the human condition, particularly the roots of violence. In a 1993 interview with Rebecca Adams he highlighted the positive dimensions of mimetic phenomena without expanding on what they might be. Now two decades later this groundbreaking book systematically explores the positive side of mimetic theory in the context of the multi-faceted world of creativity. Several authors build on Adams' insight that loving mimesis can be understood as desiring the subjectivity of the other, particularly when the other may be young or wounded. With highly nuanced arguments, authors show how mimetic theory can be used to address child and adult development, including the growth of consciousness and a capacity to handle complexity. Mimetic theory is brought to bear on big questions about creativity in nature, evolutionary development, originality, and religious intrusion into politics.

A Noble Calling William Leventrosser, Rosanna Perotti, 2004-04-30. This book presents essays by cabinet members, world leaders, and scholars examining the formation of President George H. W. Bush's character and the factors that influenced his leadership as a legislator, a diplomat, and an American president. In many ways the presidency of George H. W. Bush was a transitional presidency. The end of the Cold War ushered in a new world with the United States as the dominant power. While many might credit his predecessor Ronald Reagan as the one who brought an end to the conflict with the former Soviet Union, George H. W. Bush was an associate president, serving as Vice President during Reagan's two terms. While supporting the work of the Reagan administration and therefore providing some continuity with it, President Bush had a different style of leadership and new priorities to establish. This volume of essays by cabinet members, world leaders, and scholars examines the formation of Bush's character and the factors that influenced his leadership as a legislator, a diplomat, and an American president. His family background, his military service, his life experience before going into public life, and the various positions in government service are all reviewed by friends, colleagues, and objective observers. The end result is the most detailed examination ever attempted of Bush's character and its impact on his career.

The Withholding Power Massimo Cacciari, 2018-02-22. The first English translation of his work *The Withholding Power* offers a fascinating introduction to the thought of Italian philosopher Massimo Cacciari. Cacciari is a notoriously complex thinker, but this title offers a starting point for entering into the very heart of his

thinking *The Withholding Power* provides a comprehensive and synthetic insight into his interpretation of Christian political theology and leftist Italian political theory more generally. The theme of *katechon*, originally a biblical concept which has been developed into a political concept, has been absolutely central to the work of Italian philosophers such as Agamben and Eposito for nearly twenty years. In *The Withholding Power*, Cacciari sets forth his startlingly original perspective on the influence the theological political questions have traditionally exerted upon ideas of power, sovereignty, and the relationship between political and religious authority. With an introduction by Howard Caygill contextualizing the work within the history of Italian thought, this title will offer those coming to Cacciari for the first time a searing insight into his political, theological, and philosophical milieu.

A World Not to Come Raúl Coronado, 2013-06-01 In 1808 Napoleon invaded Spain and deposed the king. Overnight, Hispanics were forced to confront modernity and look beyond monarchy and religion for new sources of authority. Coronado focuses on how Texas Mexicans used writing to remake the social fabric in the midst of war and how a Latino literary and intellectual life was born in the New World.

Selected Works Of Juan Donoso Cortes Introduction

In the digital age, access to information has become easier than ever before. The ability to download Selected Works Of Juan Donoso Cortes has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Selected Works Of Juan Donoso Cortes has opened up a world of possibilities. Downloading Selected Works Of Juan Donoso Cortes provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Selected Works Of Juan Donoso Cortes has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Selected Works Of Juan Donoso Cortes. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Selected Works Of Juan Donoso Cortes. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Selected Works Of Juan Donoso Cortes, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Selected Works Of Juan Donoso Cortes has transformed the

way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Selected Works Of Juan Donoso Cortes Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks.
