Selective Survey Of Literature On Mongol:

The Making of Manhood Among Swedish Missionaries in China and Mongolia, C. 1890-c. 1914 Erik Sidenvall, 2009 Over the last thirty years issues of gender have been creatively explored within the field of mission studies Whereas the life and work of female missionaries have been fruitfully reflected upon male gender identity has often been understood as an unchanging category This book offers a pioneering account of the relationship between missionary work and masculinity By examining four individual men this study explores how self making occurred within foreign missions but also how conceptions of male gender informed missionary work Changes that occurred in the lives of these men are placed within the broader context of how issues of gender were renegotiated within the contemporary missionary movement Modern Mongolia Morris Rossabi, 2005-04-25 Land locked between its giant neighbors Russia and China Mongolia was the first Asian country to adopt communism and the first to abandon it When the Soviet Union collapsed in the early 1990s Mongolia turned to international financial agencies including the International Monetary Fund the World Bank and the Asian Development Bank for help in compensating for the economic changes caused by disruptions in the communist world Modern Mongolia is the best informed and most thorough account to date of the political economy of Mongolia during the past decade In it Morris Rossabi explores the effects of the withdrawal of Soviet assistance the role of international financial agencies in supporting a pure market economy and the ways that new policies have led to greater political freedom but also to unemployment poverty increasingly inequitable distribution of income and deterioration in the education health and well being of Mongolian society Rossabi demonstrates that the agencies providing grants and loans insisted on Mongolia s adherence to a set of policies that did not generally take into account the country s unique heritage and society Though the sale of state assets minimalist government liberalization of trade and prices a balanced budget and austerity were supposed to yield marked economic growth Mongolia the world s fifth largest per capita recipient of foreign aid did not recover as expected As he details this painful transition from a collective to a capitalist economy Rossabi also analyzes the cultural effects of the sudden opening of Mongolia to democracy He looks at the broader implications of Mongolia s international situation and considers its future particularly in relation to China The Oral Epic of Siberia and Central Asia G.
