From the rock cut steps leading down to the entrance passage to the opening of the sealed chambers inside to the first view of the contents of the tomb and the removal of the objects, Burton's beautiful black and white photographs show thousands of the richly made and decorated objects found in the tomb. Carefully reproduced from Burton's original prints, the photographs are accompanied by new descriptive text written by two prominent Egyptologists with extensive knowledge of the history of Tutankhamun and the contents of his tomb. **Historical**

Dictionary of Ancient Egypt Morris L. Bierbrier, 2022-11-30. *Historical Dictionary of Ancient Egypt* Third Edition covers the whole range of the history of ancient Egypt from the Prehistoric Period until the end of Roman rule in Egypt based on the latest information provided by academic scholars and archaeologists. This is done through a revised introduction on the history of ancient Egypt; the dictionary section has over 1 000 dictionary entries on historical figures, geographical locations, important institutions and other facets of ancient Egyptian civilization. This is followed by two appendices, one of which is a chronological table of Egyptian rulers and governors and the other a list of all known museums which contain ancient Egyptian objects. The volume ends with a detailed bibliography of Egyptian historical periods, archaeological sites, general topics such as pyramids, languages and arts and crafts, and the publications of Egyptian material in museums throughout the world. *The Iconography of Humiliation in New Kingdom Egypt* Mark D. Janzen, 2024-11-26. This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war. Depictions of foreign captives in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies. Egyptologists have scrutinized these scenes for details regarding various military matters, but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings. Janzen examines the bound foreigner motif in New Kingdom sources, demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion. Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually, ritualizing their defeat and punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments. The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt. The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context. The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history, particularly that of New Kingdom Egypt as well as those working on power, warfare and violence in the ancient world more broadly.
