The Moment of Self-Portraiture in German Renaissance Art Joseph Leo Koerner, 1993 So foundational is this invention to modern aesthetics Koerner argues that interpreting it takes us to the limits of traditional art historical method Self portraiture becomes legible less through a history leading up to it or through a sum of contexts that occasion it than through its historical sight line to the present After a thorough examination of Durer s startlingly new self portraits the author turns to the work of Baldung Durer s most gifted pupil and demonstrates how the apprentice willfully disfigured Durer s vision Baldung replaced the master s self portraits with some of the most obscene and bizarre pictures in the history of art In images of nude witches animated cadavers and copulating horses Baldung portrays the debased self of the viewer as the true subject of art *The Moment of Self Portraiture* thus unfolds as passages from teacher to student artist to viewer reception all within a culture that at once deified and abhorred originality

Poetics of the Literary Self-Portrait Michel Beaujour, 1992-10 Investigates the literary self portrait genre From St Augustine to Montaigne and from Nietzsche to Barthes individual self portraits are analyzed along with the cultural matrix from which self portrayal derives its non narrative structure and many of its recurrent topics

photographer Miyako Ishiuchi and new media artist George Legrady Contemporary Art and Memory will be indispensable to all those concerned with the ways in which artists represent and remember the past Self Portrait Nadine Alexandre, 2001-10-01 French painter Nadine Alexandre uses deceptively simple matter of fact language to tell her incredible life story from orphaned Holocaust survivor to successful artist She describes war torn Paris as if she were sitting at her easel painting it on a Sunday afternoon her account of the disappearances of her father mother and older brother during German raids of the Jewish ghetto are heartrendering for their coolness Through all the hopeless tragedy of genocide and war Alexandre paints a portrait of a young girl s unflagging hope and later drive and ambition a girl who manages to soak up an education and develop her talent while being ferried between homes and orphanages The adult Alexandre s life is every bit as glamorous as the child s was destitute She describes the libertine life aboard the cruise ships where she worked as art director the cities and landscapes of Asia Africa and Latin America that she painted and of course her romances and affairs with men of various nationalities Nadine Alexandre s Self Portrait illustrated with her charming sketches is by turn tragic and entertaining publisher s description *Transposed Memory: Visual Sites of National Recollection in 20th and 21st Century East Asia* , 2024-02-06 Transposed Memory explores the visual culture of national recollection in modern and contemporary East Asia by emphasizing memories that are under the continuous process of construction reinforcement alteration resistance and contestation Expanding the discussion of memory into visual culture by exploring various visual sites of recollection and the diverse ways commemoration is represented in visual cultural and material forms this book produces cross cultural and interdisciplinary conversations on memory and site by bringing together international scholars from the fields of art history history architecture and theater and dance examining intercultural relationships in East Asia through geopolitical conditions and visual culture With contributions of Rika Iezumi Hiro Ruo Jia Burglind Jungmann Hong Kal Stephen McDowall Alison J Miller Jessica Nakamura Eunyoung Park Travis Seifman and Linh D Vu Beyond Memory Diane Neumaier, 2004 Photography possesses a powerful ability to bear witness aid remembrance shape and even alter recollection In Beyond Memory Soviet Nonconformist Photography and Photo Related Works of Art the general editor Diane Neumaier and twenty three contributors offer a rigorous examination of the medium s role in late Soviet unofficial art Focusing on the period between the mid 1950s and the late 1980s they explore artists unusually inventive and resourceful uses of photography within a highly developed Soviet dissident culture During this time lack of high quality photographic materials complimented by tremendous creative impulses prompted artists to explore experimental photo processes such as camera and darkroom manipulations photomontage and hand coloring Photography also took on a provocative array of forms including photo installation artist made samizdat self published books photo realist painting and many other surprising applications of the flexible medium Beyond Memory shows how innovative conceptual moves and approaches to form and content echoes of Soviet society s coded communication and a Russian sense of absurdity were common in the Soviet cultural

underground Collectively the works in this anthology demonstrate how late Soviet artists employed irony and invention to make positive use of difficult circumstances In the process the volume illuminates the multiple characters of photography itself and highlights the leading role that the medium has come to play in the international art world today Beyond Memory stands on its own as a rigorous examination of photography's place in late Soviet unofficial art while also serving as a supplement to the traveling exhibition of the same title

Women and Portraits in Early Modern Europe Andrea Pearson, 2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women's images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book's broad contributions it dispels false assumptions about agency's possibilities and limits showing how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject

History as an Art of Memory Patrick H. Hutton, 1993 Hutton considers the ideas of philosophers poets and historians to seek out the roots of fact as mere recollection

The Memory Factory Julie M. Johnson, 2012-05-15 The Memory Factory introduces an English speaking public to the significant women artists of Vienna at the turn of the twentieth century each chosen for her aesthetic innovations and participation in public exhibitions These women played important public roles as exhibiting artists both individually and in collectives but this history has been silenced over time Their stories show that the city of Vienna was contradictory and cosmopolitan despite men only policies in its main art institutions it offered a myriad of unexpected ways for women artists to forge successful public careers Women artists came from the provinces Russia and Germany to participate in its vibrant art scene However and especially because so many of the artists were Jewish their contributions were actively obscured beginning in the late 1930s Many had to flee Austria losing their studios and lifework in the process Some were killed in concentration camps Along with the stories of individual women artists the author reconstructs the history of separate women artists associations

and their exhibitions Chapters covering the careers of Tina Blau Elena Luksch Makowsky Bronica Koller Helene Funke and Teresa Ries among others point to a more integrated and cosmopolitan art world than previously thought one where women became part of the avant garde accepted and even highlighted in major exhibitions at the Secession and with the Klimt group

Re-membering Masculinity in Early Modern Florence Allison Levy, 2017-03-02 From Pliny to Petrarch to Pope Hennessy and beyond many have understood the obvious connection between portraiture and commemorative practice This book expands and nuances our understanding of Renaissance portraiture the author shows it to be complexly generated within a discourse of male anxiety and pre mortuary mourning She argues that portraiture could defer memory loss or at the very least pictorially console the subject against his own potentially unmourned death This book recognizes a socio cultural anxiety the fear not merely of death but also of being forgotten and identifies a set of pictorial literary and theoretical strategies consequently formulated to ensure memory To explore this phenomenon this interdisciplinary but fundamentally art historical project merges early modern visual culture and critical theories of the body The author examines an extensive selection of fifteenth and sixteenth century male and female portraits primarily associated with the Medici family circle and court in and against both historical writings and contemporary discourses including literary and cultural theory psychoanalysis feminism and gender studies and critical theories of race and disability Re membering Masculinity generates new ideas about both male and female portraiture in early modern Florence raises even more questions about the experiences and representations of widowhood and mourning and re configures our understanding of masculinity from the early modern male body to Renaissance Man to postmodern manhood **Independence Hall in American Memory**

Charlene Mires, 2015-11-04 Independence Hall is a place Americans think they know well Within its walls the Continental Congress declared independence in 1776 and in 1787 the Founding Fathers drafted the U S Constitution there Painstakingly restored to evoke these momentous events the building appears to have passed through time unscathed from the heady days of the American Revolution to today But Independence Hall is more than a symbol of the young nation Beyond this according to Charlene Mires it has a long and varied history of changing uses in an urban environment almost all of which have been forgotten In Independence Hall Mires rediscovers and chronicles the lost history of Independence Hall in the process exploring the shifting perceptions of this most important building in America s popular imagination According to Mires the significance of Independence Hall cannot be fully appreciated without assessing the full range of political cultural and social history that has swirled about it for nearly three centuries During its existence it has functioned as a civic and cultural center a political arena and courtroom and a magnet for public celebrations and demonstrations Artists such as Thomas Sully frequented Independence Square when Philadelphia served as the nation s capital during the 1790s and portraitist Charles Willson Peale merged the arts sciences and public interest when he transformed a portion of the hall into a center for natural science in 1802 In the 1850s hearings for accused fugitive slaves who faced the loss of freedom were held ironically in this

famous birthplace of American independence Over the years Philadelphians have used the old state house and its public square in a multitude of ways that have transformed it into an arena of conflict labor grievances have echoed regularly in Independence Square since the 1830s while civil rights protesters exercised their right to free speech in the turbulent 1960s As much as the Founding Fathers these people and events illuminate the building s significance as a cultural symbol

Memory and Genocide Fazil Moradi,Ralph Buchenhorst,Maria Six-Hohenbalken,2017-04-07 This book focuses on the ethical aesthetic and scholarly dimensions of how genocide related works of art documentary films poetry and performance museums and monuments music dance image law memory narratives spiritual bonds and ruins are translated and take place as translations of acts of genocide It shows how genocide related modes of representation are acts of translation which displace and produce memory and acts of remembrance of genocidal violence as inheritance of the past in a future present Thus the possibility of representation is examined in light of what remains in the aftermath where the past and the future are inseparable companions and we find the idea of the untranslatability in acts of genocide By opening up both the past and lived experiences of genocidal violence as and through multiple acts of translation this volume marks a heterogeneous turn towards the future and one which will be of interest to all scholars and students of memory and genocide studies transitional justice sociology psychology and social anthropology
