Self Directedness Causes And Effects Throughout The Life Course:

Self-directedness Judith Rodin, Klaus Warner Schaie, Carmi Schooler, 1990 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company Metacognitive Translator Training Paulina Pietrzak, 2022-03-11 This book explores new developments and objectives in translator education with a focus on metacognitive aspects of both translating and learning to become a translator The author reports on an exploratory study on translation graduates with particular attention to the effects of metacognitive awareness on their professional development The data collected show that despite the growing demand on translation services and advancement of translation technology there are still a great number of translation graduates who decide not to become professional translators The findings show a number of reasons why they choose different career paths and discuss the correlations between their self concept and their professional development as reflected in their academic performance career choice career paths job satisfaction and perceived success The book will appeal to teachers trainers and academics in the field of translation studies and more specifically translation as a profession and translator competence **Control Motivation and Social Cognition** Gifford Weary, Faith Gleicher, Kerry L.

Marsh, 2012-12-06 Over the past two decades theorists and researchers have given increasing attention to the effects both beneficial and harmful of various control related motivations and beliefs People's notions of how much personal control they have or desire to have over important events in their lives have been used to explain a host of performance and adaptational outcomes including motivational and performance deficits associated with learned helplessness Abramson Seligman Rodin 1986 cardiovascular disease Matthews 1982 cancer Sklar Ryckman 1979 and post abortion adjustment Mueller Jones Kelley 1967 for example have suggested that causal inferences arise from a desire to render the social world predictable and controllable Similarly control has been implicated as an important mediator of cognitive dissonance Wicklund Kiesler Collins Miller 1969 Despite the apparent centrality of control motivation to a variety of social psychological phenomena until recently there has been relatively little research explicitly concerned with the effects of control motivation on the cognitive processes underlying such phenomena cf Handbook of Personality Psychology Robert Hogan, John Johnson, Stephen Briggs, 1997-06-12 The most comprehensive single volume ever published on the subject the Handbook of Personality Psychology is the end all must have reference work for personality psychologists This handbook discusses the development and measurement of personality as well as biological and social determinants dynamic personality processes the personality's relation to the self and personality in relation to applied psychology Authored by the field's most respected researchers each chapter provides a concise summary of the subject to date Topics include such areas as individual differences stability of personality evolutionary foundations of personality cross cultural perspectives emotion psychological defenses and the connection between personality and health Intended for an advanced audience the Handbook of Personality Psychology will be your foremost resource in this diverse field Chapter topics include Nature of personality psychology Conceptual and

measurement issues in personality Developmental issues Biological determinants of personality Social determinants of personality Dynamic personality processes Personality and the self The Five Factor Model Applied psychology **Published Scientific Papers of the National Institutes of Health** National Institutes of Health (U.S.),1990 Presents the broad outline of NIH organizational structure the professional staff and their scientific and technical publications covering work done at NIH Social Cognition and Aging Thomas M. Hess,Fredda Blanchard-Fields,1999-06-18 Most of the research done in social cognition has been conducted with younger adults and may not be applicable to a much older population Social Cognition and Aging provides a snapshot view of research that has been done with older adults or is directly applicable to this population Focusing on issues of self identity social interactions and social perceptions this book provides a broad overview of how aging affects one's own perceptions and actions as well as how others perceive and interact with the aged Coverage includes such topics as self control memory resilience age stereotypes moral development and the art of living With contributions from top researchers in both gerontology and psychology this book is an important reference for academics and professionals alike in personality cognition social psychology adult development sociology and gerontology Using Computers in Qualitative Research Nigel G. Fielding Raymond M. Lee,1991-04-30 This is a comprehensive assessment of recent developments in the use of computers in qualitative research an increasingly important and rapidly growing area of interest among social scientists and graduate students Using Computers in Qualitative Research profiles and compares the principal programs available identifying their particular strengths and limitations It outlines the sorts of research problems that existing and forthcoming software can and cannot handle The contributors also draw on their experiences of teaching computer based techniques to suggest ways in which these could be incorporated into research methods training Reprinted with updated information on computer resources 1992 Return Migration Decisions Ruth Achenbach,2016-10-21 Ruth Achenbach develops a model of individual return migration decision making which examines both the process and the decisive factors in return migration decision making of Chinese highly skilled workers and students in Japan She proposes to answer a question yet insufficiently explained by migration research why do migrants deviate from their migration intentions and return sooner or later than planned or not at all Her study integrates factors from the spheres of career family and lifestyle and redefines stages in long term decision making processes thereby contributing to decision and migration theory She analyzes migrants shifting priorities over the course of migration including a perspective on life course and on the impact of the triple catastrophe of March 11 2011 *The Baby Boomers Grow Up* Susan Krauss Whitbourne,Sherry L. Willis,2014-06-03 The goal of this volume is to examine development in middle age from the perspective of baby boomers a unique cohort in the United States defined as those individuals born from 1946 to 1962 This is the largest cohort ever to enter middle age in Western society and they currently represent approximately one third of the total U S population The Baby Boomers Grow Up provides contemporary and comprehensive perspectives of development of the baby boomer cohort

as they proceed through midlife Baby boomers continue to exert a powerful impact on the media fiction movies and even popular music just as they were an imposing force in society from the time of their entry into youth As these individuals enter the years normally considered to represent midlife they are redefining how we as a society regard adults in their middle and later years This volume features several unique aspects First the literature reviewed focuses specifically on research relevant to baby boomers and their development as adults rather than a global perspective on middle age Second the volume takes into account the diversity within the boomer cohort such as social class race and education In addition quantitative and qualitative developmental changes occurring from the forties to the fifties and the sixties are considered Differences in leading and trailing edge boomers are likewise addressed Ideal for researchers in adult development and graduate seminars on adult development The Baby Boomers Grow Up will also appeal to adult educators human resource personnel health professionals and service providers and clinical psychologists and counselors
