Self-governing Socialism Branko Horvat, Mihailo Marković, Rudi Supek, 1975 First published in 1975 VOLUME ONE covers Historical Development Social and Political Philosophy No study or collection of material approaching self government as a worldwide phenomenon and dealing with all The purpose of the present Reader is to fill this gap This Reader traces the development self government as a worldwide phenomenon and dealing with all This Reader traces the development of self government from its beginnings as an apparently utopian idea of a handful of visionaries a century and a half ago to its implementation on a national scale in the contemporary world All fundamental aspects of this development are dealt with historical philosophical sociological political and economic Contributions from some twenty countries are included Several synthetic papers have been written

especially for this book because of their inclusion as well as the comprehensiveness of the book's coverage this work transcends the usual confines of a reader The editors goal was to assemble all important contributions of historical and theoretical value in one book **Self-Governing Socialism** Branko Horvat,1975 **On Market Socialism** Bruno Jossa,2023-01-20 Bruno Jossa expertly illustrates that the creation of a system of cooperative firms is tantamount to a revolution giving rise to a new production mode capable of reversing the existing relationship between capital and labour The book also demonstrates a revolution enacted by peaceful and democratic means in order for worker managed organisations to outnumber capitalistic ones **Self-governing socialism : a reader. Vol. 1. Historical development. Social and political philosophy** Branko Horvat,1975 **Socialist Dilemmas** Henryk Flakierski,Thomas T. Sekine,2019-07-26 This book consisting of eight related articles deals with several dimensions of socialism in the 1980s just before the beginning of the great changes which took place in Eastern Europe Profound changes in the political economy of the world in the 1970s led to a decline of over confidence and over optimism characteristic of the earlier times both in the West and in the East The painful experience of stagnation ended the grand Keynesian dream and led to the return of neo conservatism in the West The disappointing pace of industrial and technological progress during the Brezhnev era and increasing shortages of productivity of communism in the East With both sides in the grip of political and economic uncertainties the ideological confrontation seemed to have lost much of its sharp edge No longer did the accepted dogmas and ideologies of the past appear either valid or convincing The presupposition of the debate on comparative economic systems were in need of fundamental revisions It was in this perspective that the Political Economy Workshop at York University undertook to feature a series of lectures on socialism in its 1988 sessions Of about a dozen presentations by York University scholars and invited speakers eight were subsequently made available in the form of articles and are published in this volume These articles cover a wide range of issues both theoretical and practical and from both the Western and the Eastern perspective It is recognized by all authors that neither the East European experiments in communism nor the Western process into social democracy have been a great success The clue to what might lie beyond the socialist dilemmas in the age of perestroika will be found only by going through once again to the circumstances which led to the failure of socialism thus far *Self-governing Socialism* Branko Horvat,Mihailo Markovi,Rudi Supek,1975 **The Economics of Feasible Socialism** Alec Nove,2013-11-05 The first part of *The Economics of Feasible Socialism* demonstrates why Marx's theories provide no guide to the issues that must face economists under any realistically conceivable Socialism The experience of communist ruled countries especially the former Soviet Union is often negative economic inefficiency bureaucracy despotism The causes of these defects and possible remedies and reforms are discussed The problems of transition in the context of Western industrialized countries and of developing countries is also examined with particular attention centred on the errors of economic policy in Chile and China amongst other countries *Self-Management in*

Yugoslavia and the Developing World Ukandi G Damachi, Hans D Seibel, 1982-07-29 **Mondragon** Henk Thomas, Chris Logan, 2017-09-22 This book first published in 1982 summarises the history and organisation of the group of co operatives centred in Mondragon The study makes an in depth analysis of its economic aspects including employment creation and manpower planning the raising of financial resources and planning of investments problems of earnings differentials and the incentives that can be derived from worker ownership In particular the authors examine the operation of the self management system and Mondragon s production efficiently **The Preston Model and Community Wealth Building** Julian Manley, Philip B. Whyman, 2021-07-05 Through a deep examination of what has become known as the Preston Model this book explores an innovative approach to local economic development that utilises economic democratisation to realise both social and economic objectives The first part of the book examines the main strands of the Preston Model framework and what makes it different to other urban regeneration schemes the combination of local anchor institution procurement to generate and retain local wealth and the development of cooperatives to fill gaps in local supply chains The chapters in this section consider the Preston Model as viewed through different lenses politics and society community economics democracy trade unionism language and communication education and transferability The second part explores the influences and applications of the Preston Model in theory and practice in selected locations and various circumstances worldwide This includes discussion of key ideas such as economic democracy social enterprise and the creation of capacity for cooperative self government alongside essays on prominent international examples of similar approaches which can inform and in turn be informed by the Preston Model This book is essential reading for those interested in regional and national policy economic democracy and alternative economic and political ideas *Reader's Guide to the Social Sciences* Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense *Alienation Effects* Branislav Jakovljevic, 2016-06-13 Examines the interplay of artistic political and economic performance in the former Yugoslavia and reveals their inseparability *New Narratives of Russian and East European Art* Galina Mardilovich, Maria Taroutina, 2019-12-20 This book brings together thirteen scholars to introduce the newest and most cutting edge research in the field of Russian and East European art history Reconsidering canonical figures re examining prevalent debates and revisiting aesthetic developments the book challenges accepted histories and entrenched dichotomies in art and architecture from the nineteenth century to the present In doing so it resituates the artistic production of this region within broader socio cultural currents and analyzes its interconnections with international discourse competing political and aesthetic ideologies and continuous discussions over identity Crisis and Reform in Eastern Europe Ferenc Feher, 2020-02-13 Communism in

Eastern Europe is in crisis Its dimensions are social and economic its manifestation is political This volume a collection of essays by leading authorities describes the symptoms of the crisis diagnoses the causes of the malady and offers alternative scenarios for therapy A unique dimension of this collection is its avoidance of one dimensional explanations The contributors approach the subject from very different angles and start from very distinct sociopolitical premises The volume includes original accounts of unexplored aspects of East European communism as well as classic interpretations of the economic crisis and social stagnation that characterize the area Contributions not only examine the sociopolitical behavior of the ruling apparatus but also analyze its strategies political culture and the opposition Both the professional and the general reader seeking more information about Eastern Europe will find this volume an extensive in depth portrait of the current situation in what many observers predict may develop into the major area of tension in post World War II Europe

Blue-Collar Workers in Eastern Europe Jan F Triska, Charles Gati, 2025-03-03 First published in 1981 Blue Collar Workers in Eastern Europe deals with the attitudes and political disposition of the East European working class In particular it provides the first analysis of the growing assertiveness of the industrial proletariat from which East European governments claim to derive their legitimacy and on whose behalf they profess to rule These governments are increasingly hesitant in the use of force yet they lack the economic means of meeting their workers demands The chapters that make up the book fall into three main categories About one third are issue oriented and analytical dealing with the role economic condition attitudes social and demographic characteristics and political involvement of the workers These are followed by case studies of workers in several countries Finally two chapters explore the policy implications of the workers new found assertiveness and assess the international policy options and dilemmas of both the Soviet Union and the West This book covers all the major issues which brought about the widely publicised workers rebellion in Poland in the summer of 1980 and includes an assessment of that crisis and its sequels It will attract a wide readership among students of the history and politics of Eastern Europe especially those interested in labour unions socialist management and comparative communism

Peter von Oertzen 1924-2008 Philipp Kufferath, 2025-09-18 This exhaustive study traces Peter von Oertzen s transformation from a Berlin upbringing marked by Prussian traditions conservative revolution and National Socialism to his role as a Marxist and left wing Social Democrat It explores his dual impact as a political scientist and activist detailing his influence in informal networks journal projects and trade union education initiatives Navigating the SPD s delicate internal dynamics Oertzen faced governmental responsibilities and conservative opposition while engaging in dialogue with various Marxist council socialist and alternative left currents Awarded the Niedersachsen State History Prize in 2018 this work offers unique insights into twentieth century left Social Democracy

The Economic System and Income Distribution in Yugoslavia Henryk Flakierski, 2016-07-22 This is the second volume in the author s ongoing inquiry into the extent of income inequality in the East European socialist countries and the effect of market oriented reforms on patterns of income distribution Although there has been remarkably

little empirical research on this question in part because of the problem of obtaining reliable data both proponents and opponents of reforms voice strong views on this subject with both sides however tending to grant the assumption that decentralization and the increased use of market mechanisms will increase inequality In this study as in the preceding volume *Economic Reform and Income Distribution A Case Study of Hungary and Poland* Henryk Flakierski undertakes a study of the data in order to shed light on this question this time with reference to the most decentralized of the East European economies and the one in which marketization of the economy has been most advanced
