Self Portrait Of Hero:

Self As Super Hero Amana Harris, 2011-01-31 **Heretics and Heroes** Thomas Cahill, 2014-08-12 The New York Times bestselling author of *How the Irish Saved Civilization* reveals how the innovations of the Renaissance and the Reformation changed the Western world Cahill is our king of popular historians The Dallas Morning News This was an age in which whole continents and peoples were discovered It was an era of sublime artistic and scientific adventure but also of newly powerful princes and armies and of unprecedented courage as thousands refused to bow their heads to the religious pieties of the past In these exquisitely written and lavishly illustrated pages Cahill illuminates as no one else can the great gift givers who shaped our history those who left us a world more varied and complex more awesome and delightful more beautiful and strong than the one they had found The Hero's Mortal Walls William F. Woods, 2024-01-04 The heroes of early narrative are the faces of an older world In constant retellings their stories hold the memory like members of an extended family Gilgamesh Odysseus Beowulf Gawain Roland Yvain Genji in their colorful often exaggerated ways they show how the people of their own time and place liked to know themselves The heroes embody their identity and reflect their culture Because their world was difficult and dangerous every hero needed defensive strengths This book analyzes seven iconic heroes and compares each champion to a walled town or castle hardened against an outer threat These defenses are the mortal walls of their identity their strengths against the world as well as their dealings within it and are exemplified in their actions as warriors distinct rhetoric complex relationships with women and devotion to the divine By delving into some of early narrative's most renowned heroes the book reveals the pieces of their inner selves that even they cannot keep outside the walls but must finally accept with firm humility **Butch Heroes** Ria Brodell, 2018-12-11 Portraits and texts recover lost queer history the lives of people who didn't conform to gender norms from the fifteenth through the twentieth centuries A serious and seriously successful queer history recovery project Publishers Weekly Katherina Hetzeldorfer tried for a crime that didn't have a name same sex sexual relations and sentenced to death by drowning in 1477 Charles aka Mary Hamilton publicly whipped for impersonating a man in eighteenth century England Clara aka Big Ben over whom two jealous women fought in 1926 New York these are just three of the lives that the artist Ria Brodell has reclaimed for queer history in *Butch Heroes* Brodell offers a series of twenty eight portraits of forgotten but heroic figures each accompanied by a brief biographical note They are individuals who were assigned female at birth but whose gender presentation was more masculine than feminine who did not want to enter into heterosexual marriage and who often faced dire punishment for being themselves Brodell's detailed and witty paintings are modeled on Catholic holy cards slyly subverting a religious template The portraits and the texts offer intriguing hints of lost lives cats lounge in the background of domestic settings one of the figures is said to have been employed variously as a prophet a soldier or a textile worker another casually holds a lit cigarette Brodell did extensive research for each portrait piecing together a life from historical accounts maps journals

paintings drawings and photographs finding the heroic in the forgotten **Rhetoric, History, and Women's Oratorical Education** David Gold,Catherine L. Hobbs,2013-05-02 Historians of rhetoric have long worked to recover women s education in reading and writing but have only recently begun to explore women s speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future tracing the shifting arc of women s oratorical training as it develops from forms of eighteenth century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women s oratorical forms such as elocution and parlor rhetorics and women s responses to rhetorical constraints on their public speaking Enriching our understanding of women s oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication Being Poland Tamara Trojanowska,Joanna Nizynska,Przemyslaw Czaplinski,2018-11-05 Being Poland offers a unique analysis of the cultural developments that took place in Poland after World War One a period marked by Poland s return to independence Conceived to address the lack of critical scholarship on Poland s cultural restoration Being Poland illuminates the continuities paradoxes and contradictions of Poland s modern and contemporary cultural practices and challenges the narrative typically prescribed to Polish literature and film Reflecting the radical changes rifts and restorations that swept through Poland in this period Polish literature and film reveal a multitude of perspectives Addressing romantic perceptions of the Polish immigrant the politics of post war cinema poetry and mass media Being Poland is a comprehensive reference work written with the intention of exposing an international audience to the explosion of Polish literature and film that emerged in the twentieth century **A Different Light** Noam Zion,Barbara Spectre,2000 Pluralistic perspectives on the Festival of lights and profiles in modern Jewish courage *Studia Philosophica Wratislaviensia. English Edition, vol. III (2014)* Adam Chmielewski,Roman Konik,Damian Leszczyński,Artur Pacewicz, **Unwelcome Voices** Paul C. Jones,2005 The literature of the antebellum South has often been described in literary histories as little more than glorified propaganda for the aristocratic slave owning class While this might pertain to the region s historical romances that feature a dashing resolute hero committed to upholding the dearly held institutions of slave holding society and that relegate women and African Americans to roles as meek supporters or loyal comic sideshows this view does not describe all of the South s literature from this period In Unwelcome Voices Subversive Fiction in the Antebellum South Paul C Jones argues that there was a subversive group of voices that dared challenge cherished southern traditions and raised questions about the issues facing the South in the years leading up to the Civil War

including slavery democracy and women s rights Jones examines the work of five southern writers from that era James Heath Frederick Douglass Edgar Allan Poe John Pendleton Kennedy and E D E N Southworth Each author was subversive in different ways Heath featured a progressive hero who ignored the aristocratic assumptions of the South Douglass presented a rebellious slave hero and made the slave owning class his villains Poe used horror to highlight the South s hidden anxieties Kennedy challenged the romantic visions of the South by opposing them with realistic depictions of the region and Southworth employed abolitionist rhetoric to undermine traditionalist discourse Jones clearly shows that the fiction of these writers diverged sharply from the South s dominant literary formula *Unwelcome Voices* represents a major turning point in the study of the literature of the antebellum South It recognizes those authors who produced the counterweight to the writing meant to prop up the region s elite class and slaveholding way of life *Unwelcome Voices* will be a welcome and needed addition to the libraries of anyone interested in Southern history or the literature of the antebellum period

A *Course of Severe and Arduous Trials* Lynn Brunet,2009 The artist Francis Bacon 1909 1992 and the writer Samuel Beckett 1906 1989 both convey in their work a sense of foreboding and confinement in bleak ritualistic spaces This book identifies many similarities between the spaces and activities they evoke and the initiatory practices of fraternal orders and secret societies that were an integral part of the social landscape of the Ireland experienced by both men during childhood Many of these Irish societies modelled their ritual structures and symbolism on the Masonic Order Freemasons use the term spurious Freemasonry to designate those rituals not sanctioned by the Grand Lodge The Masonic author Albert Mackey argues that the spurious forms were those derived from the various cult practices of the classical world and describes these initiatory practices as a course of severe and arduous trials This reading of Bacon s and Beckett s work draws on theories of trauma to suggest that there may be a disturbing link between Bacon s stark imagery Beckett s obscure performances and the unofficial use of Masonic rites

The Hero's Life Choice. Studies on Heracles at the Crossroads, the Judgement of Paris, and Their Reception Malcolm Davies,2023-09-04 Two allegorical ancient Greek stories about a young hero s career defining choice are shown in this book to have later been appropriated to radically differing effects E g a male s choice between female personifications can morph into a female s choice between the same or between various male personifications Never before have so many instances of this process from art literature music even landscape gardening been culled Illustrations mainly colour many brought into this context for the first time are conveniently incorporated into the text thus mimetically mirroring a central theme of the book the process of visualising the verbal verbalising the visual

Egon Schiele, 1890-1918 Reinhard Steiner,Egon Schiele,2000 Schiele had the most long lasting influence on the Vienna art scene after the great era of Klimt came to a close After a short flirtation with the style of his mentor Klimt Schiele soon questioned the aesthetic orientation to the beautiful surface of the Viennese Art Nouveau with his rough and not easily accessible paintings

Painting the Cannon's Roar Thomas Tolley,2017-07-05 From c 1750 to c 1810 the paths of music history and the history

of painting converged with lasting consequences The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound allowing music and the visual arts to be defined more closely in relation to one another This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts an audience which potentially included all social strata The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation Nowhere is this better illustrated than in the career of Joseph Haydn Although this phenomenon defies conventional modes of study the book shows how musical pictorialism became a major creative force in popular culture Haydn the most popular living cultural personality of the period proved to be the key figure in advancing the new relationship The connections between the composer and his audiences and leading contemporary artists including Tiepolo Mengs Kauffman Goya David Messerschmidt Louthembourg Canova Copley Fuseli Reynolds Gillray and West are examined here for the first time By the early nineteenth century populism was beginning to be regarded with scepticism and disdain Mozart was the modern Raphael Beethoven the modern Michelangelo Haydn however had no clear parallel in the accepted canon of Renaissance art Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost finding future exponents in Wagner and later still in the cinematic arts

Archaeologies of Vision Gary Shapiro, 2003-04-15 While many acknowledge that Friedrich Nietzsche and Michel Foucault have redefined our notions of time and history few recognize the crucial role that the infinite relation between seeing and saying plays in their work Shapiro reveals the full extent of Nietzsche and Foucault's concern with the visual

Deadly Dialectics Roy Starrs, 1994-10-01 Although Mishima's main literary ambition was to write philosophical novels in the tradition of Goethe and Thomas Mann *Deadly Dialectics* is the first critical study to take this objective seriously it also provides the first adequate account of Mishima's intellectual background and characteristic modes of thought and it is the first book to show the intimate and integral relation between his thought and his psychology and militant politics or more specifically between his nihilism his sexuality and his propensity to violence

Dostoyevsky Ronald Hingley, 2021-06-15 This book first published in 1978 demonstrates how Dostoyevsky's novels grew directly out of the pressures of their creator's tormented experience and personality Ronald Hingley draws upon important fresh source material which includes the definitive Soviet edition of Dostoyevsky's works with drafts and variants Soviet research on the circumstances of his father's death and a newly deciphered section of the diary of his second wife Anna Hingley considers with his analysis all Dostoyevsky's works the ideas they contain their varying artistic success and their contemporary critical reception He convincingly presents Dostoyevsky's genius at its most powerful when most on the attack

Poussin's Paintings David Carrier, 1993

Italian Masculinity as Queer Melodrama John Champagne, 2015-02-18 Offering queer analyses of paintings by Caravaggio and Puccini and

films by zpetek Amelio and Grimaldi Champagne argues that Italian masculinity has often been articulated through melodrama Wide in scope and multidisciplinary in approach this much needed study shows the vital role of affect for both Italian history and masculinity studies **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism
