**Why Black Lives Matter** Anthony B. Bradley, 2020-10-21 Beginning with a conversation prompted by African American scholars like Dr Alvin Poussaint of Harvard Medical School in 2007 to the current Black Lives Matter movement there has been much debate about what led to the deaths of Trayvon Martin and Michael Brown among others as well as other systemic challenges that undermine black thriving Anthony Bradley has assembled a team of scholars and religious leaders to provide a distinctly Christian perspective on what is needed for black communities to thrive from within In addition to the social and structural issues that must be addressed within black communities there are opportunities for social change based on God's vision for human flourishing Covering topics like the black family hip hop mental health mentoring women masculinity and the church this book will open your eyes to fresh ways to participate in solutions that will truly set black America free Although the Black Lives Matter movement keeps the church on the margins the authors in this volume believe that enduring change cannot happen unless God speaks directly to these issues in light of the gospel This is a revised edition of an earlier book *Keeping Your Head Up* With contributions from Vincent Bacote Bruce Fields Rev Howard Brown Ralph C Watkins Rev Eric M Mason Rev Lance Lewis Rev Anthony Carter Ken Jones Natalie Haslem Rev Ken Jones Rihana Mason Yvonne RB Banks

*White People and Black Lives Matter* Johanna C. Luttrell, 2019-07-25 This book interrogates white responses to black led movements for racial justice It is a philosophical self reflection on the ways in which white reactions to Black Lives Matter stand in the way of the movement's important work It probes reactions which often prevent white people from according to black activists the full range of human emotion and expression including joy anger mourning and political action Johanna C Luttrell encourages different conceptions of empathy and impartiality specific to social movements for racial justice and addresses objections to identity politics

*The Summer of 2020* Andre E. Johnson, Amanda Nell Edgar, 2024-03-11 In the wake of George Floyd's murder in May 2020 protests broke out in Minneapolis and quickly spread across the United States National unrest led to the resurgence of the Black Lives Matter movement and added to calls for justice in other American cities including Los Angeles Atlanta Tulsa and Louisville Kentucky where only months earlier Breonna Taylor was killed by police By some estimates BLM protesters numbered between fifteen million and twenty six million in the US and abroad The Summer of 2020 George Floyd and the Resurgence of the Black Lives Matter Movement spotlights the perspectives of individual participants who contributed to the movement's revived impact and global success throughout 2020 Authors Andre E Johnson and Amanda Nell Edgar interview the movement's activists from seasoned organizers to first time protesters to discover what Black Lives Matter meant to those

who participated in one of America's largest social movements Johnson and Edgar's fieldwork reveals the complexity of taking a stand especially in the face of increasing threats from white supremacist groups continuing police aggression and a persisting global pandemic In a time with unprecedented levels of political polarization the wave of support for the Black Lives Matter movement powerfully disrupted that expectation Without a clear sense of what led to the surge in support for Black Lives Matter racial justice advocates are left ill equipped to maintain and harness the political momentum necessary to achieve lasting equity and justice In delving beyond a conventional focus on leaders and figureheads this volume bolsters social movement research by accounting for the increasing numbers of Black Lives Matter supporters and demonstrators and the lasting power of their message

**Black Lives Matter and the Image of God** Josiah U. Young III, 2023-02-15 In *Black Lives Matter and The Image of God A Theo Anthropological Study* the author argues that God mirrors humankind rather than the other way around God for him is made in the image of man Humankind is not created by God What one means by God is thus subjective and informed by one's context Consequently Black lives matter to God only if they matter to the theologian The depth of the matter depends on his or her experience Hence this book is memoiristic in discussing systematic loci like God humankind Christ and the Trinity The author concludes that God's future is inseparable from humane values that eschew white supremacy and other modes of self deification in favor of ethics that cultivate life for all human beings

**The Making of Black Lives Matter** Christopher J. Lebron,2023-05-01 A condensed and accessible intellectual history that traces the genesis of the ideas that have built into the BlackLivesMatter movement in a bid to help us make sense of the emotions demands and arguments of present day activists and public thinkers Started in the wake of George Zimmerman s 2013 acquittal in the death of Trayvon Martin the BlackLivesMatter movement has become a powerful and incendiary campaign demanding redress for the brutal and unjustified treatment of black bodies by law enforcement in the United States The movement is only a few years old but as Christopher J Lebron argues in this book the sentiment behind it is not the plea and demand that Black Lives Matter comes out of a much older and richer tradition arguing for the equal dignity and not just equal rights of black people In this updated edition The Making of Black Lives Matter presents a condensed and accessible intellectual history of the BlackLivesMatter movement and expands on the movement s relevancy This edition includes a new introduction that explores how the movement s core ideas have been challenged re affirmed and re imagined during the white nationalism of the Trump years as well as a new chapter that examines the ideas and importance of Angela Davis and Amiri Baraka as significant participants in the Black Power Movement and Black Arts Movement respectively Drawing on the work of these revolutionary black public intellectuals as well as Frederick Douglass Ida B Wells Langston Hughes Zora Neal Hurston Anna Julia Cooper Audre Lorde James Baldwin and Martin Luther King Jr Lebron clarifies what it means to assert that Black Lives Matter when faced with contemporary instances of anti black law enforcement He also illuminates the crucial difference between the problem signaled by the social media hashtag and how we think that we ought to address the problem As Lebron states police body cameras or even the exhortation for civil rights mean nothing in the absence of equality and dignity To upset dominant practices of abuse oppression and disregard we must reach instead for radical sensibility Radical sensibility requires that we become cognizant of the history of black thought and activism in order to make sense of the emotions demands and argument of present day activists and public thinkers Only in this way can we truly embrace and pursue the idea of racial progress in America

Dismantling Racism, One Relationship at a Time Tina M. Harris, 2023-10-10

Dismantling Racism One Relationship at a Time inspires and challenges readers to think critically about racism and its impact on themselves and others in complex and nuanced ways With a commitment to an inverted approach to racism Tina M Harris trickle down theory illustrates the interconnection between racist ideologies and interracial relationships The example of interracial romantic relationships as an illustration of how societal attitudes dictate interracial relationships shows how trickle down theory brings to the surface a person s and society s true attitudes about race The theory further demonstrates how all of our interpersonal connections are a testament of racial socialization processes and how we manage our interracial interactions and relationships Celebrating the power of interracial communication to dismantle forms of systemic oppression the book provides essential vocabulary for both societal misconceptions and transformative practices of interpersonal conversation The book culminates in the racial intentionality roadmap RaIR a self reflexive guide to immediately and repeatedly identifying ways to help eradicate racism in all the spaces we occupy Ultimately Dismantling Racism challenges readers to develop authentic organic interracial relationships that translate into changes in systems that perpetuate racial division

Self-Esteem, Altruism, and Power in Multipolarity Hanna Samir Kassab, 2025-03-28 This book asserts that state identities drive state motivations shaping state behavior It describes several state motivations connected to self esteem and identity economic wealth identity dominance through altruism and controlling political outcomes for other states otherwise understood as decisionism Part of this process is getting other states to acknowledge and recognize this self image As a result self esteem is at the core of state motivations and seeks to connect the ideational with material reality For instance status quo powers for instance the United States will maintain their system because it is their system On the other hand revisionist powers like China and Russia will be motivated to amend or even overturn the system given their own understandings of self and self esteem Revisionist states may feel oppressed by an unfair or unjust international system having exceptionalist identities of their own long supplanted by the United States Feelings of humiliation define self esteem and the need to overturn the system may be defined by these negative experiences This book then adopts a constructivist framework of analysis and argues that narratives identities and whole realities are created through a cogent process of mutual constitution
