

Individualism is the self-affirmation of the individual self as individual self without regard to its participation in its world. As such it is the opposite of collectivism, the self affirmation of the self as part of a larger whole without regard to its character as an individual self.

Self In Its Worlds:

Mind and Its World 1 Sourcebook Dzogchen Ponlop Rinpoche, Khenpo Tsültrim Gyamtso Rinpoche, Āchārya Lama Tenpa Gyaltsen, Āchārya Sherab Gyaltsen, 2021-01-23 Mind and Its World I begins a detailed analysis of the subjective side of experience. It examines mind and how it perceives its world in valid and invalid ways based on the Classifications of Mind which provides divisions and definitions of the types of mind identified in the epistemological tradition of Dignaga and Dharmakirti. The key point is the discernment of the aspects of mind that validly perceive things the way they are which are distinguished from those aspects of mind that are mistaken and tainted by fundamental delusion and thus keep one bound in samsara. It also introduces the two Hinayana philosophical systems the Vaibhashika and Sautrantika schools covering the two truths and the process of perception. Selected readings, analytical meditations, study questions, review summaries are included in the sourcebook.

The Selfless Mind Peter Harvey, 2013-09-13 This careful analysis of early Buddhist thought opens out a perspective in which no permanent Self is accepted but a rich analysis of changing and potent mental processes is developed. It explores issues relating to the not Self, teaching self, development, moral responsibility, the between-lives period and the undetermined questions on the world, on the life principle and on the liberated one after death. It examines the person as a flowing continuity centred on consciousness or discernment, *vinnana* configured in changing minds, *sets*, *cittas*. The resting state of this is seen as brightly shining like the Buddha nature of Mahayana thought so as to represent the potential for Nirvana. Nirvana is then shown to be a state in which consciousness transcends all objects and thus participates in a timeless unconditioned realm.

New Self, New World Philip Shepherd, 2011-05-31 In the tradition of Quantum Healing and Guns, Germs and Steel, Philip Shepherd's *New Self, New World* makes an intellectual inquiry into how we might restore freedom, creativity and a sense of presence in the moment by rejecting several fundamental myths about being human. *New Self, New World* challenges the primary story of what it means to be human: the random and materialistic lifestyle that author Philip Shepherd calls our shattered reality. This reality encourages us to live in our heads, self-absorbed in our own anxieties. Drawing on diverse sources and inspiration, *New Self, New World* reveals that our state of head-consciousness falsely teaches us to see the body as something we possess and to try to take care of it without ever really learning how to inhabit it. Shepherd articulates his vision of a world in which each of us enjoys a direct, unmediated experience of being alive. He petitions against the futile pursuit of the known self and instead reveals the simple grace of just being present. In compelling prose, Shepherd asks us to surrender to the reality of what is that enables us to reunite with our own being. Each chapter is accompanied by exercises meant to bring Shepherd's vision into daily life, what the author calls a practice that facilitates the voluntary sabotage of long-standing patterns. *New Self, New World* is at once a philosophical primer, a spiritual handbook and a roaming inquiry into human history.
