Freudians and Schadenfreudians Jeffrey Berman,2024-08-22 Sigmund Freud can be a polarizing figure beloved by many and despised by some Focusing on eight key writers and scholars who either passionately loved or gleefully loathed Freud this book represents Freud's wide legacy the reach of his ideas their controversies and their ability still to provoke inspire confound outrage and compel The book begins by focusing on four highly prolific authors whose admiration for Freud is boundless Lionel Trilling Harold Bloom Kurt R Eissler and Peter Gay Berman then explores four more writers whose aim was not simply to debunk Freud and destroy his monstrous creation but to cast both into hell D H Lawrence Vladimir Nabokov Thomas Szasz and Frederick Crews Each chapter discusses the author's involvement with Freud

exploring the continuities and discontinuities of his or her writings as well as offering snapshots of the writers suggesting how their personal and professional lives were inextricably related Berman draws out some surprising commonalities between the Freudolaters and Schadenfreudians going on to discuss the current state of psychoanalysis and the psychoanalytic credos by which contemporary analysts live *Narrative, Space and Gender in Russian Fiction: 1846-1903* Joe Andrew,2007-01-01 The present volume has as its primary aim readings from a feminist perspective of a number of works from Russian literature published over the period in which the woman question rose to the fore and reached its peak All the works considered here were produced in or hark back to a fairly narrowly defined period of not quite 20 years 1846 1864 in which issues of gender of male and female roles were discussed much more keenly than in perhaps any other period in Russian literature The overall project is summed up by the three key words of this book s title narrative space and gender and especially the interconnections between them That is what do the way these stories were told tell us about gender identities in mid nineteenth century Russia Which spaces were central to these fictional worlds Which spaces suggested which gender identities The discussions therefore focus on issues of narrative and space and how they acted as technologies of gender This volume will be of interest to all interested in nineteenth century Russian literature as well as students of gender and of the semiotics of narrative space *Making Sense Of: Dying and Death* ,2004-01-01 This book aims to extend upon the growing body of literature concerned with dying and death The book analyses various experiences and representations of dying and death from the perspective of academic disciplines as diverse as theology philosophy sociology anthropology and literature The rationale for this is simple As objects of study dying and death cannot be usefully reduced to a single academic perspective One cannot hope to gain a deep and comprehensive understanding of dying and death by gazing at them through a single lens Bringing various perspectives in a single volume aims to both accurately record those enduring properties of the phenomena such as mourning and fear whilst simultaneously analysing the diversity and heterogeneity of human beings attempts to come to terms with this most forbidding of existential horizons *The Mind According to Shakespeare* Marvin Bennet Krims,2006-09-30 Dr Krims a psychoanalyst for more than three decades takes readers into the sonnets and characters of Shakespeare and unveils the Bard s talent for illustrating psychoanalytical issues These hidden aspects of the characters are one reason they feel real and thus have such a powerful effect explains Krims In exploring Shakespeare s characters readers may also learn much about their own inner selves In fact Krims explains in one chapter how reading Shakespeare and other works helped him resolve his own inner conflicts Topics of focus include Prince Hal s aggression Hotspur s fear of femininity Hamlet s frailty Romeo s childhood trauma and King Lear s inability to grieve In one essay Krims offers a mock psychoanalysis of Beatrice from *Much Ado about Nothing* All of the essays look at the unconscious motivations of Shakespeare s characters and in doing so both challenge and extend common understandings of his texts **Dostoevsky** George Santayana,Louis Breger,2017-07-05 Andre Gide once said that Feodor Dostoevsky lost

himself in the characters of his books and for this reason it is in them that he can be found again In Dostoevsky The Author as Psychoanalyst Louis Breger approaches Dostoevsky psychoanalytically not as a patient to be analyzed but as a fellow psychoanalyst someone whose life and fiction are intertwined in the process of literary self exploration Raskolnikov s dream of the suffering horse in Crime and Punishment has become one of the best known in all literature its rich imagery expressing meaning on many levels Using this as a starting point Breger goes on to offer a detailed analysis of the novel situating it at the pivotal point in Dostoevsky s life between the death of his first wife and his second marriage Using insights from his psychological training Breger also explores other works by Dostoevsky among them his early novel The Double which Breger relates to the nervous breakdown that Dostoevsky suffered in his twenties as well as Notes from Underground The Possessed The Idiot The Brothers Karamazov and so forth Additionally details from Dostoevsky s own life his compulsive gambling his epilepsy his philosophical political religious and mystical beliefs and the interpretations of them found in existing biographies are analyzed in detail

Sex in Public Eric Naiman,2019-01-15 *Sex in Public* examines the ideological poetics and the rhetoric of power in the Soviet Union during the 1920s a period of anxiety over the historical legitimacy of Soviet ideology and Bolshevik power Drawing on a wide range of sources Party Congress transcripts the classics of early Soviet literature sex education pamphlets the cinema crime reports and early Soviet ventures into popular science the author seeks to explain the period s preoccupation with crime disease and especially sex Using strategies of reading developed by literary scholars he devotes special care to exploring the role of narrative in authoritative political texts The book breaks new ground in its attention to the ideological importance of the female body during this important formative stage of Bolshevik rule *Sex in Public* provides a fundamentally new history of the New Economic Policy and offers important revisionist readings of many of the fundamental cultural products of the early Soviet period Perhaps

most important it serves as a model for the sort of interdisciplinary work that is possible when historians take literary and ideology theory seriously and when ideology theorists seek to conform to the standards of documentary rigor traditionally demanded by historians It thus becomes a study that can be read as both positivistic and postmodern Eric Naiman is Associate Professor of Russian and Comparative Literature at the University of California Berkeley Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Holland Jeffrey Berman, 2021-03-11 Norman Holland was unquestionably the leading 20th century American psychoanalytic literary critic Long known as the Dean of American psychoanalytic literary critics Holland produced an enormous body of scholarship that appeals to both neophytes in the field and advanced researchers many of whom have been influenced by his writings Holland was one of the first proponents of reader response criticism the theorist of readers identity themes and the author of fifteen books that have become classics in the field Jeffrey Berman analyzes all of Holland's books and many of his 250 scholarly articles highlighting continuities and discontinuities in the critic's thinking over time A controversial if not polarizing figure Holland is discussed in relation to his closest colleagues including Murray Schwartz Bernard Paris and Leslie Fiedler as well as his fiercest critics among them Frederick Crews David Bleich and Jonathan Culler creating a dynamic and personal portrait Insofar as this text illuminates the evolving mind of a premier literary critic it produces a parallel profile of the American reader the primary object of Holland's extensive work

The Victorian Diary Anne-Marie Millim, 2016-02-17 In her examination of neglected diaristic texts Anne Marie Millim expands the field of Victorian diary criticism by complicating the conventional notion of diaries as mainly private sources of biographical information She argues that for Elizabeth Rigby Eastlake Henry Crabb Robinson George Eliot George Gissing John Ruskin Edith Simcox and Gerard Manley Hopkins the exposure or publication of their diaries was a real possibility that they either coveted or feared Millim locates the diary at the intersection of the public and private spheres to show that well known writers and public figures of both sexes exploited the diary's self reflexive diurnal structure in order to enhance their creativity and establish themselves as authors Their object was to manage rather than to indulge or repress their emotions for the purposes of perfecting their observational and critical skills Reading these diaries as literary works in their own right Millim analyses their crucial role in the construction of authorship By relating these Victorian writers diaries to their publications and to contemporary works of cultural criticism Millim shows the multifarious ways in which diaristic practices emotional management and professional output corresponded to experiences of the literary marketplace and to nineteenth century codes of propriety
