## **Self Defense And Battered Women Who Kill A New Framework:**

Self-Defense and Battered Women Who Kill Robbin S. Ogle, Susan Jacobs, 2002-08-30 Battering relationships often escalate to a point where the battered woman commits homicide When such homicides occur attention is usually focused on the final violent encounter however Ogle and Jacobs argue while that act is the last homicidal encounter it is not the only one This important study argues that the battering relationship is properly understood as a long term homicidal process that if played out to the point that contrition dissipates is very likely to result in the death of one of the parties In that context Ogle and Jacobs posit a social interaction perspective for understanding the situational cultural social and structural forces that work toward maintaining the battering relationship and escalating it to a homicidal end This book details this theory and explains how to apply it in a trial setting Elements of self defense law are problematic for battered women who kill their abusers These include imminence reasonableness of the victim s perception of danger and reasonableness of the victim s choice of lethal violence and their proportionality Social interaction theory argues that once contrition dissipates imminence is constant The victim functions in an unending state of extreme tension and fear This allows us to understand the victim s view of the violence as escalating beyond control thereby increasing her reasonable perception of danger and lethality After social resources for whatever reason fail to end the violence it is then reasonable for the victim to conclude that she will have to act in her own defense in order to survive

**Defending Battered Women on Trial** Elizabeth A. Sheehy, 2013-12-15 In the landmark Lavallee decision of 1990 the Supreme Court of Canada ruled that evidence of battered woman syndrome was admissible in establishing self defence for women accused of killing their abusive partners This book looks at the legal response to battered women who killed their partners in the fifteen years since Lavallee Elizabeth Sheehy uses trial transcripts and a case study approach to tell the stories of eleven women ten of whom killed their partners She looks at the barriers women face to just leaving the various ways in which self defence was argued in these cases and which form of expert testimony was used to frame women s experience of battering Drawing upon a rich expanse of research from many disciplines she highlights the limitations of the law of self defence and the costs to women undergoing a murder trial In a final chapter she proposes numerous reforms In Canada a woman is killed every six days by her male partner and about twelve women per year kill their male partners By illuminating the cases of eleven women this book highlights the barriers to leaving violent men and the practical and legal dilemmas that face battered women on trial for murder

**Battered Women and Feminist Lawmaking** Elizabeth M. Schneider,2008-10-01 Women s rights advocates in the United States have long argued that violence against women denies women equality and citizenship but it took a movement of feminist activists and lawyers beginning in the late 1960s to set about realizing this vision and transforming domestic violence from a private problem into a public harm This important book examines the pathbreaking legal process that has brought the pervasiveness and severity of domestic violence to public attention and has led the United States Congress the Supreme Court and the United Nations to address the problem Elizabeth Schneider has played a pioneering role in this process From an insider s perspective she explores how claims of rights for battered women have emerged from feminist activism and she assesses the possibilities and limitations of feminist legal advocacy to improve battered women s lives and transform law and culture The book chronicles the struggle to incorporate feminist arguments into law particularly in cases of battered women who kill their assailants and battered women who are mothers With a broad perspective on feminist lawmaking as a vehicle of social change Schneider examines subjects as wide ranging as criminal prosecution of batterers the civil rights remedy of the

Violence Against Women Act of 1994 the O J Simpson trials and a class on battered women and the law that she taught at Harvard Law School Feminist lawmaking on woman abuse Schneider argues should reaffirm the historic vision of violence and gender equality that originally animated activist and legal work      *Encyclopedia of Domestic Violence* Nicky Ali Jackson,2007-12-11 The Encyclopedia of Domestic Violence is a modern reference from the leading international scholars in domestic violence research The first ever publication of an encyclopedia of domestic violence the principal aim of this title is to provide information on a variety of traditional and breakthrough issues in this complex phenomenon      *Murder* Shani D'Cruze,Sandra Walklate,Samantha Pegg,2013-06-17 This book uses detailed case studies as a way of exemplifying and exploring more general questions of socio cultural responses to murder and their explanation and also incorporates a valuable historical perspective to this issue It is a seeks accessible account of the subject for people coming to it for the first time      **The Law on the Use of Force** Gina Heathcote,2013-03-01 The book presents the international laws on the use of force whilst demonstrating the unique insight a feminist analysis offers this central area of international law The book highlights key conceptual barriers to the enhanced application of the law of the use of force and develops international feminist method through rigorous engagement with the key writers in the field The book looks at the key aspects of the UN Charter relevant to the use of force Article 2 4 Article 51 and Chapter VII powers as well as engaging with contemporary debates on the possibility of justified force to meet self determination or humanitarian goals The text also discusses the arguments in favour of the use of pre emptive force and reflects on the role feminist legal theories can play in exposing the inconsistencies of contemporary arguments for justified force under the banner of the war on terror Throughout the text state practice and institutional documentation are analysed alongside key instances of the use of force The book makes a genuine urgently needed contribution to a central area of international law demonstrating the capacity of feminist legal theories to enlarge our understanding of key international legal dilemmas      Domestic Homicide Marieke Liem,Frans Koenraadt,2018-03-19 The literature on domestic violence will often treat homicide as its most extreme outcome The reality is more nuanced with many domestic homicides occurring within a history of abusive behaviour This book offers a much needed synthesis of the literature on domestic homicide covering its history the theories supporting it its various forms such as filicide intimate partner homicide parricide siblicide and familicide and its prevention The authors explore the predominant theories that have been used to explain domestic homicides in general as well as specific subtypes of domestic homicide Each chapter then takes a chronological approach in examining relationships between victim and perpetrator in the most prominent types of domestic homicide Drawing on the empirical evidence it offers a unique insight into the dynamics of domestic homicides and debunks some of the common stereotypes surrounding it The book concludes with an overview of the main areas of prevention of domestic homicide and offers recommendations for professionals working in domestic violence services medical practitioners and mental health services This book will be of interest to criminologists psychiatrists

**Legítima defensa en situaciones sin confrontación** María Camila Correa Flórez, 2024-02-01 Aquel que mata a otro para defenderse a si mismo o a un tercero actúa de manera no contraria a derecho si la agresión de la que es víctima es actual y su reacción defensiva es racionalmente necesaria no ha provocado el ataque en su contra y lo mueve un ánimo defensivo Esta afirmación es el contenido de la legítima defensa A simple vista parece sencillo evaluar cuando esta figura cubre la conducta de una persona y cuando no lo hace pero como en todo hay situaciones grises difusas hay casos en los que la configuración de la legítima defensa no se establece en el primer nivel de análisis sino después de un examen profundo de las circunstancias concretas en las que tienen lugar los hechos Este es el caso de las mujeres tiranizadas que matan a sus parejas agresoras en situaciones donde no hay confrontación por un lado ellas cometen un acto típico de matar que dependiendo de las diferentes regulaciones penales de los países va a encajar dentro del tipo penal de homicidio agravado asesinato parricidio etc Además de lo anterior por la situación en la que se encuentra el agresor en el momento de su muerte dormido borracho desprevenido se dice que concurre la alevosía lo que va a influir en la calificación de la conducta punible de la mujer y como es evidente en la pena que se le va a imponer pero por el otro lado la actuación de estas mujeres se enmarca en un contexto de violencia reiterada en su contra y esta dirigida a defenderse a si mismas Y en este punto hilamos con el problema objeto del presente trabajo por más que la acción de la mujer es un acto claro de defensa el supuesto de hecho parece difícil de encajar dentro de la eximente de responsabilidad penal que precisamente permite matar a otro para defenderse la legítima defensa La finalidad principal de este trabajo es poner de manifiesto como haciendo una correcta interpretación de los requisitos de configuración de la legítima defensa es posible aplicarla a algunos casos de mujeres maltratadas que en el marco de una situación personal devastadora matan a sus agresores en momentos donde no hay confrontación La presente investigación busca ser una llamada o mejor un grito de auxilio que haga visible la situación de desesperación y desprotección en la que se hallan las mujeres maltratadas que es el resultado de una desigualdad estructural en la que históricamente se encuentran las mujeres con respecto a los hombres

Women's Rights in the USA Dorothy E. McBride, Janine A. Parry, 2014-06-11 In Women's Rights in the USA Fourth Edition Dorothy E McBride again examines the policy debates critical to women in politics Tracing the development of these debates over time in order to illustrate their historical context

McBride shows how these issues have evolved and how they have led to the policies and laws of today. She also examines the evolving attitudes of the feminists and advocacy groups behind these debates as they grapple with the tensions between the themes of equality and sex difference as they relate to women's rights. The book also looks at women's place in shaping the policies, statutes, and laws from liberal activists to policy insiders and how those roles shape the debates and issues that move forward today. In a broader context, by following these debates as they move through government institutions to become policies and laws, this book shows students the law-making process through issues that directly affect their lives. Of crucial significance is the acknowledgement that these debates do not end when court decisions, policies, and laws are made but continue on to foster further movements, viewpoints, and political change. This fourth edition features updates on the most vital issues concerning women's rights today: constitutional equality, reproduction, education, family work, work-family regulation, and intimidation of sexuality and economic status.

Handbook of Domestic Violence Intervention Strategies  
Albert R. Roberts, 2002. Public awareness regarding the life-threatening nature and intense traumatic impact of domestic violence has substantially increased in the past decade. At the same time, dramatic changes have taken place regarding criminal justice and social work policies and practices applied to domestic violence intervention. And while the prevalence of domestic violence has declined slightly, national estimates still indicate that every year approximately eight million women are abused, battered, stalked, or killed by their husbands, boyfriends, and other intimate partners. Featuring cutting-edge research and expert intervention strategies, the *Handbook of Domestic Violence Intervention Strategies: Policies, Programs, and Legal Remedies* is designed to prepare professionals to swiftly and compassionately meet the multiple needs of women and children who have suffered from domestic violence. This original and indispensable volume focuses on the numerous advances in legal remedies, program developments, treatment protocols, and multidisciplinary perspectives. It is a comprehensive guide to the latest research, public policies, and legal and criminal justice responses covering federal and state legislation as well as trends in police and court responses to domestic violence. This is the first book to include court-based technology developments and new research related to the duration and intensity of woman battering. Highlighting actual cases and promising programs, the handbook also addresses important social work issues, including risk assessment protocols, a new five-level continuum of woman battering intervention methods and treatment models. The book also examines the myriad legal issues and health problems facing the most neglected and vulnerable battered women. Written by expert practitioners and leading scholars in the field, the book's 23 chapters provide rich insights into the complexities and challenges of addressing domestic violence. This timely and definitive handbook is recommended for students, clinicians, policy makers, and researchers in the fields of social work, victim services, criminal justice, hospital administration, mental health, counseling, public health, pastoral counseling, law enforcement. In fact, this volume is a critical resource for all helping professionals who are assisting abused women in escaping and remaining free from violent relationships. *Feminist*

*Technical Communication* Erin Clark, 2024-01-15 Feminist Technical Communication introduces readers to technical communication methodology demonstrating how rhetorical feminist approaches are vital to the future of technical communication Using an intersectional and transcultural approach Erin Clark fuses the well documented surge of work in feminist technical communication throughout the 1990s with the larger social justice turn in the discipline The first book to situate feminisms and technical communication in relationship as the focal point Feminist Technical Communication traces the thread of feminisms through technical communication s connection to social justice studies Clark theorizes slow crisis a concept made readable to technical communicators by apparent feminisms that can help technical communicators readily recognize and address social justice problems Clark then applies this framework to the Deepwater Horizon Disaster an extended crisis that has been publicly framed by a traditional view of efficiency that privileges economic impact Through rich description of apparent feminist information gathering techniques and a layered analysis this study offers application far beyond this single disaster making available new crisis response possibilities that consider the economy without eliding ecological and human health concerns Feminist Technical Communication offers a methodological approach to the systematic interrogation of power structures that operate on hidden misogynies This book is useful to technical communicators scholars of technical communication and rhetoric and readers interested in gender studies and public health and is an ideal text for graduate level seminars focused on feminisms social justice and cultural studies *More Than Victims* Donald Alexander Downs, 1998-10 Donald Downs offers an analysis of the injustices behind the logic of battered woman syndrome concluding that this very logic harms those it is trying to protect This work seeks to rethink the criminal justice system Human Rights and Personal Self-Defense in International Law Jan Arno Hessbruegge, 2016-12-13 While an abundance of literature covers the right of states to defend themselves against external aggression this is the first book dedicated to the right to personal self defense in international law Drawing on his extensive experience as a human rights practitioner and scholar Dr Hessbruegge sets out in careful detail the strict requirements that human rights impose on defensive force by law enforcement authorities especially police killings in self defense The book also discusses the exceptional application of the right to personal self defense in military led operations notably to contain violent civilians who do not directly participate in hostilities Human rights also establish parameters on how broad or narrow the laws can be drawn on self defense between private persons Setting out the prevailing international standards the book critically examines the ongoing trend to excessively broaden self defense laws It also refutes the claim that there is a human right to possess firearms for self defense purposes In extraordinary circumstances the right to personal self defence sharpens human rights and allows people to defend themselves against the state Here the author establishes that international law gives individuals the right to forcibly resist human rights violations that pose a serious risk of significant and irreparable harm At the same time he calls into question prevailing state practice which fails to recognize any collective right to organized armed
