## Self Portrait With Woman:

Mirror Mirror Liz Rideal, Whitney Chadwick, Frances Borzello, National Portrait Gallery (Great Britain), 2001 This book serves as an introduction to the history of the self portrait in the work of 40 women artists from the mid 17th century to the present It covers portraits in all media from oil painting to photography from drawings to sculpture *Self-portraits by Women Painters* Liana Cheney, Alicia Craig Faxon, Kathleen Lucey Russo, 2000 The first survey of women's self portraiture to be focused exclusively on painting this book opens with an original attempt to reconstruct from contemporary accounts the work of artists of antiquity such as Marcia Timarete and Eirene The authors then select self portraits by a range of European and American painters up to the present day to narrate the stylistic development of women's self representation in those parts of the world The story of the self portrait offers fascinating insights which deepen our understanding of these artists working lives priorities and preoccupations With its chronological sweep its lavish illustrations including many works which have not been reproduced in print before and its extensive bibliography this book is an indispensable guide to a fascinating subject **In/sights** Joyce Tenneson Cohen, 1978 A collection of photographs of self portraits by women some of which strongly suggest a lesbian theme **Self-Portraits by Women Painters** Kathleen Russo, 2017-12-15 This title was first published in 2000 In this volume the authors trace the development of women's representation of themselves as artists from antiquity to the present day Identity and beauty are two of the most difficult and unstable concepts in art history and this account articulates many of the issues related to the portrayal of women's bodies Arranged chronologically by chapter each period is described by a specialist author Beginning with recorded accounts of the work of artists such as Marcia Timarete and Eirene the authors take their examination through to the present day and the work of Louise Bourgeois Howardena Pindell and Paula Rego Self portraits can disclose fascinating details about the painter's lives their studios their education their ability to travel and their relationship to past artistic accomplishments The setting the posture the activity of the sitter can all express confidence or the lack of it in the artist's own professional status They are also interventions in contemporary debate on the representation of women and notions of beauty In the 20th century in particular the self portrait becomes a strategic site in which women artists challenge notions of womanhood and beauty Self-portrait with Woman Andrzej Szczypiorski, 1995 Kamil a Warsaw sociologist is summoned to Geneva to participate in an oral history project about the collapse of Eastern European communism and resolves to tell his own story through a gallery of portraits of the many women he has loved These reminiscences emerge against the broader canvas of circumstances and events that have shaped the past sixty years of Poland's turbulent tragic history Soon he finds himself inexorably drawn to his interrogator from the free world the chronicler of his life the keeper of his secrets and his heart's last hope for redemptive love Self Portrait with Woman is at once a haunting and lyrical portrait of a man of a country and of the twilight years of an era Seeing Ourselves Frances Borzello, 1998 For centuries the art world was a male preserve Exceptionally talented and ambitious women became

successful artists only to be written out of the history of Western art But how have women really seen themselves What can self portraits tell us about the way women have lived and worked This book examines the subject revealing a vibrant colourful but largely overlooked genre *Anne Collier: Women with Cameras (Self Portrait)*, 2018-08-28 This book collects images that New York based artist Anne Collier born 1970 originally presented as a slideshow of 80 35mm slides depicting found images of female subjects in the act of taking self portraits Dating from the 1970s to the early 2000s these relics of the pre digital age were collected by Collier each image discarded by its original owner but finding its way back to relevance in Collier s work The slideshow consists of amateur snapshots of women photographing themselves with film cameras prior to the advent of the digital selfie Instead of circulating on social media these abandoned images once existed for a private audience The resulting work is steeped in a deep sense of loneliness illustrating photography s contentious relationship to memory loss and self representation The book represents a kind of sequel to Collier s 2017 book *Women with Cameras*

### **Musical Voices of Early Modern Women**

Thomasin LaMay, 2017-05-15 Recent scholarship has offered a veritable landslide of studies about early modern women illuminating them as writers thinkers midwives mothers in convents at home and as rulers Musical Voices of Early Modern Women adds to the mix of early modern studies a volume that correlates women s musical endeavors to their lives addressing early modern women s musical activities across a broad spectrum of cultural events and settings The volume takes as its premise the notion that while women may have been squeezed to participate in music through narrower doors than their male peers they nevertheless did so with enthusiasm diligence and success They were there in many ways but as women s lives were fundamentally different and more private than men s were their strategies tools and appearances were sometimes also different and thus often unstudied in an historical discipline that primarily evaluated men s productivity Given that many of these stories will not necessarily embrace a standard musical repertoire even as they seek to expand canonical borders The contributors to this collection explore the possibility of a larger musical culture which included women as well as men by examining early modern women in many headed ways through the lens of musical production They look at how women composed assuming that compositional gender strategies may have been used differently when applied through her vision how women were composed or represented and interpreted through music in a larger cultural context and how her presence in that dialog situated her in social space Contributors also trace how women found music as a means for communicating for establishing intellectual power for generating musical tastes and for enhancing the quality of their lives Some women performed publicly and thus some articles examine how this impacted on their lives and families Other contributors inquire about the economics of music and women and how in different situations some women may have been financially empowered or even in control of their own money making This collection offers a glimpse at women from home stage work and convent from many classes and from culturally diverse countries including France Spain Italy England Austria Russia and Mexico and imagines a musical history centered in the realities of those lives
