Selling the Holocaust Tim Cole, 1999 **Reporting Genocide** David Patrick, 2017-12-13 The Western world's responses to genocide have been slow unwieldy and sometimes unfit for purpose So argues David Patrick in this essential new contribution to the aid and intervention debate While the UK and US have historically been committed to the ideals of human rights freedom and equality their actual material reactions are more usually dictated by geopolitical noise pre conceived ideas of worth and the media attention spans of individual elected leaders Utilizing a wide ranging quantitative analysis of media reporting across the globe Patrick argues that an over reliance on the Holocaust as the framing device we use to try and come to terms with such horrors can lead to slow responses misinterpretation and category errors in both Rwanda and Bosnia much energy was expended trying to ascertain whether these regions qualified for genocide status The Reporting of Genocide demonstrates how such tragedies are reduced to stereotypes in the media framed in terms of innocent victims and brutal oppressors which can over simplify the situation on the ground This in turn can lead to mixed and inadequate responses from governments Reporting on Genocide also seeks to address how responses to genocides across the globe can be improved and will be essential reading for policy makers and for scholars of genocide and the media

Holocaust Deborah E. Lipstadt, 2016-07-21 Immediately after World War II there was little discussion of the Holocaust but today the word has grown into a potent political and moral symbol recognized by all In *Holocaust An American Understanding* renowned historian Deborah E Lipstadt explores this striking evolution in Holocaust consciousness revealing how a broad array of Americans from students in middle schools to presidents of the United States tried to make sense of this inexplicable disaster and how they came to use the Holocaust as a lens to interpret their own history Lipstadt weaves a powerful narrative that touches on events as varied as the civil rights movement Vietnam Stonewall and the women's movement as well as controversies over Bitburg the Rwandan genocide and the bombing of Kosovo Drawing upon extensive research on politics popular culture student protests religious debates and various strains of Zionist ideologies Lipstadt traces how the Holocaust became integral to the fabric of American life Even popular culture including such films as *Dr Strangelove* and such books as John Hershey's *The Wall* was influenced by and in turn influenced thinking about the Holocaust Equally important the book shows how Americans used the Holocaust to make sense of what was happening in the United States Many Americans saw the civil rights movement in light of Nazi oppression for example while others feared that American soldiers in Vietnam were destroying a people identified by the government as the enemy Lipstadt demonstrates that the Holocaust became not just a tragedy to be understood but also a tool for interpreting America and its place in the world Ultimately *Holocaust An American Understanding* tells us as much about America in the years since the end of World War II as it does about the Holocaust itself

The United States and the Nazi Holocaust Barry Trachtenberg, 2018-02-08 The United States and the

Nazi Holocaust is an invaluable synthesis of United States policies and attitudes towards the Nazi persecution of European Jewry from 1933 to the modern day The book weaves together a vast body of scholarship to bring students of the Holocaust a balanced overview of this complex and often controversial topic It demonstrates that the United States response to Nazism the refugee crisis it provoked the Holocaust and its aftermath were and remain to this day intricately linked to the shifting racial economic and social status of American Jewry Using a broad chronological framework Barry Trachtenberg guides us through the major themes and events of this period He discusses the complicated history of the Roosevelt administration s response to the worsening situation of European Jewry in the context of the ambiguous racial status of Jews in Depression and World War II era America He examines the post war decades in America and discusses how the Holocaust like American Jewry itself moved from the margins to the center of American awareness This book considers the reception of Holocaust survivors post war trials film memoirs memorials and the growing field of Holocaust Studies The reactions of the United States government the general public and the Jewish communities of America are all accounted for in this detailed survey

authors from across the globe *The Languages of Humor* discusses three main types of humour verbal visual and physical Despite the differences between them all have a common purpose showing us in different ways the reality that we live in and how we can reflect on that reality To this end the book shows how humor has been used to address such topics as the Holocaust and the Soviet Union and why it has been controversial in cases including Charlie Hebdo *The Languages of Humor* explores a subject that is of interest in a wide range of intellectual disciplines including sociology psychology communication philosophy history social sciences linguistics computer science literature theatre education and cultural studies This volume features contributions from world leading academics some of who have professional backgrounds in this field This unique research led book which includes over 20 illustrations offers a top down analysis of humor studies *Anne Frank's The Diary of Anne Frank* Harold Bloom,2010 Collection of critical essays about issues related to Anne Frank s diary **The Many Faces of Germany** John A. McCarthy,Walter Grünzweig,Thomas Koebner,2004-04-01 With the fall of the Berlin Wall and the shifting of American foreign policy away from old Europe long established patterns of interaction between Germany and the U S have come under review Although seemingly disconnected from the cultural and intellectual world political developments were not without their influence on the humanities and their curricula during the past century In retrospect we can speak of the many different roles Germany has played in American eyes *The Many Faces of Germany* seeks to acknowledge the importance of those incarnations for the study of German culture and history on both sides of the Atlantic One of the major questions raised by the contributors is whether the transformations in the transatlantic dynamics and in the importance of Germany for the U S have had a major influence on the study of things German in the U S internally The volume gathers together leading voices of the older and younger generations of social historians literary scholars film critics and cultural historians *Museums and Photography* Elena Stylianou,Theopisti Stylianou-Lambert,2016-12-08 *Museums and Photography* combines a strong theoretical approach with international case studies to investigate the display of death in various types of museums history anthropology art ethnographic and science museums and to understand the changing role of photography in museums Contributors explore the politics and poetics of displaying death and more specifically the role of photography in representing and interpreting this difficult topic Working with nearly 20 researchers from different cultural backgrounds and disciplines the editors critically engage the recent debate on the changing role of museums exhibition meaning making and the nature of photography They offer new ways for understanding representational practices in relation to contemporary visual culture This book will appeal to researchers and museum professionals inspiring new thinking about death and the role of photography in making sense of it **Jews, God, and Videotape** Jeffrey Shandler,2009-04 Discusses how media technology impacts the Jewish experience This title explores mid twentieth century ecumenical radio and television broadcasting video documentation of life cycle rituals and museum displays and tourist practices as means for engaging the Holocaust as a moral touchstone **War and Remembrance** Renée Dickason,Delphine Letort,Michel

Prum,Stéphanie A.H. Bélanger,2022-06-15 Memory while seemingly a thing of the past has much to reveal in the present With its focus on memory War and Remembrance provides new viewpoints in the field of war representation Bringing an interdisciplinary approach to discussions of the cultural memory of war the collection focuses on narratives either fictional or testimonial that challenge ideological discourses of war The acts of remembrance and of waging war are constantly evolving A range of case studies analyzing representations of war in art film museums and literature from Nigeria Australia Sri Lanka Canada and beyond questions our current approaches to memory studies while offering reinterpretations of established narratives Throughout a commitment to Indigenous perspectives to examining the ongoing legacy of colonialism and to a continued reckoning with the Second World War foregrounds what is often forgotten in the writing of a single official history War and Remembrance invites readers to cast a reflexive look at wars and conflicts past some of them forgotten others still vividly commemorated the better to understand the cultural political and social stake of memory as a source of conflict and exchange of resistance and opposition and of negotiation and reconciliation **Future of the Prophetic** Marc H. Ellis,2014 Argues that in the persistence of the prophetic the legacy of the ancient Jewish world spread beyond the boundaries of the Jewish community and took root throughout the world Enemies to Allies Brian C. Etheridge,2016-01-26 Addresses a compelling and fascinating feature of the Cold War Era namely the rapid reversal of America s alliance relationships after World War II Thomas A Schwartz coeditor of *The Strained Alliance* At the close of World War II the United States went from being allied with the Soviet Union against Germany to alignment with the Germans against the Soviet Union almost overnight While many Americans came to perceive the German people as democrats standing firm with their Western allies on the front lines of the Cold War others were wary of a renewed Third Reich and viewed all Germans as nascent Nazis bent on world domination These adversarial perspectives added measurably to the atmosphere of fear and distrust that defined the Cold War In *Enemies to Allies* Brian C Etheridge examines more than one hundred years of American interpretations and representations of Germany With a particular focus on the postwar period he demonstrates how a wide array of actors including special interest groups and US and West German policymakers employed powerful narratives to influence public opinion and achieve their foreign policy objectives Etheridge also analyses bestselling books popular television shows such as Hogan s Heroes and award winning movies such as *Schindler s List* to reveal how narratives about the Third Reich and Cold War Germany were manufactured contested and co opted as rival viewpoints competed for legitimacy This groundbreaking study draws from theories of public memory and public diplomacy to demonstrate how conflicting US accounts of German history serve as a window for understanding not only American identity but international relations and state power A masterful combination of diplomatic and cultural history Stewart Anderson Brigham Young University **Berlin - Washington, 1800-2000** Andreas Daum,Christof Mauch,2005-12-26 Publisher description The United States and Germany in the Era of the Cold War, 1945-1990 Detlef Junker,Philipp Gassert,Wilfried Mausbach,David B.  Simon, 2007-06-30 The tools of reason offer the best hope for the international community to confront the increasing
 incidents of hate throughout the world A historically informed normative examination of the elements of the crime of
 genocide provides an excellent case study of how the law reason's handmaiden enhances understanding and improves
 practical ways of dealing with global injustices How should we confront hate As political activists we could resort to fighting
 hate with hate As concerned citizens we could consciously ignore or actively protest hate As committed educators we could
 put the implements and survivors of hate on display As committed scholars we could resuscitate the idea of evil As
 humanitarian jurists we could put individual hate mongers on trial Part I of this book makes a case for making the maximum
 use of reason to deal with hate This means that we should actively debate those who promote hate Further as a close look at
 the history of applying law to incidents of hate and violence illustrates the courtroom proves to be an excellent place to
 demonstrate the virtues of applying the tools of reason not to global evils but to the grave injustices of the world In Part II
 Simon demonstrates the power of legal analysis in enhancing our understanding of genocide probably the worst injustice
 imaginable A close examination of each purported element of the crime of genocide redirects misguided turns taken by
 international jurists Contrary to a more realistic perspective adopted at the Nuremberg trials jurists have mistakenly
 modeled international criminal law on national criminal law which focuses on individual responsibility However the cases of
 grave injustices throughout the 20th century amply demonstrate the primary collective responsibility underlying incidences
 of genocide The failure to prosecute criminal organizations for genocide has and will continue to have disastrous results
 While the Nuremberg tribunal at least disbanded the responsible Nazi organizations current war crimes tribunals have
 allowed organizations responsible for the Rwandan genocide to continue to wreak havoc throughout Central Africa If the
 international community cannot forge a common understanding of genocide then it has little hope of establishing an
 international legal order or a global ethics **War Memories** Stéphanie A.H. Bélanger, Renée Dickason, 2017-05-31 War
 Memories explores the patchwork formed by collective memory public remembrance private recollection and the ways in
 which they form a complex composition of observations initiatives and experiences Offering an international perspective on
 war commemoration contributors consider the process of assembling historical facts and subjective experiences to show how
 these points of view diverge according to various social cultural political and historical perspectives Encompassing the
 representations of wars in the English speaking world over the last hundred years this collection presents an extensive yet
 integrated reflection on various types of commemoration and interpretations of events Essays respond to common questions

regarding war memory how and why do we remember war What does commemoration tell us about the actors in wars How does commemoration reflect contemporary society s culture of war War Memories disseminates current knowledge on the performance interpretation and rewriting of facts and events during and after wars while focusing on how patriotic fervour resistance conscientious objection injury trauma and propaganda contribute to the shaping of individual and collective memory Contributors include Joan Beaumont Australian National University Canberra Gilles Chamerois University of Brest France Subarno Chattarji University of Delhi India Nicole Cloarec Rennes 1 University France Corinne David Ives European University of Brittany Rennes 2 France Jeffrey Demsky San Bernardino Valley College California Sam Edwards Manchester Metropolitan University Georges Fournier Jean Moulin University France Annie Gagliano University of Stellenbosch South Africa David Haigron Rennes 2 University France Judith Keene University of Sydney Australia Melissa King San Bernardino Valley College California Christine Knauer Eberhard Karls University T bingen Germany Liliane Louvel University of Poitiers Michelle P Moore Canadian Army Doctrine and Training Centre Kingston Ontario John Mullen University of Rouen France Lorie Anne Duech Rainville Caen University France Elizabeth Rechniewski Australian Research Council Discovery Project Rapha l Ricaud University Paris Ouest Nanterre La D fense France Laura Robinson Royal Military College of Canada and Isabelle Roblin Universit du Littoral C te d Opale France
