Selling To The Americans:

The Selling of the American Economy Micheline Maynard, 2009-10-20 Today many Americans regard globalization as a significant threat to our work force and to our very way of life As unemployment soars the American automotive and manufacturing industries crumble countless jobs continue to ship overseas and the retail sector faces the worst slump in decades cries of Buy American have grown louder and louder in our communities in the headlines and in the halls of Washington But at a time when an Italian company has bailed out one of our oldest and most iconic automakers a French German consortium is closing in on a multibillion dollar military contract to build our tanker planes and helicopters companies based everywhere from Switzerland to India to Belgium are stocking our grocery aisles and the assets of some of our most venerable financial institutions have been stripped down and bought up by banks from Hong Kong and London what does Buy American mean any more That said there is a great deal of discomfort about the influence that foreign companies are exerting on our economy Are they making us more competitive in the global marketplace or less Are they creating jobs for Americans or importing their own workforces Are they a threat to our national security or are they bringing us technology that actually makes us safer When they open plants and factories on our shores are they siphoning money from our economy or bolstering it In welcoming their investments are we as some critics contend selling our economy to the highest bidder In THE SELLING OF THE AMERICAN ECONOMY New York Times senior business correspondent Micheline Maynard argues that despite the lingering xenophobia that colors American perception of foreign owned companies foreign investments are actually an overwhelmingly positive force Not only do they create thousands of jobs and pump billions of dollars into national and local economies she says they reinvigorate and strengthen communities foster innovation and diversity in the marketplace and teach Americans new ways to live and work At a time when our most cherished home grown institutions still reeling from the financial crisis are downsizing shuttering plants and factories and filing for bankruptcy the need for foreign investment has never been greater In this compelling narrative Maynard shows that if we are in fact selling our economy to the highest bidder this may be very good news for America Through moving stories of workers whose lives have been transformed by the arrival of companies like Toyota Airbus and Tata probing interviews with a host of government officials and local leaders who have fought to lure foreign companies to their communities and states and revealing conversations with both American and foreign executives including a rare and hard won visit with Toyota s elusive young new president Maynard paints a fascinating portrait of the paradigm shift that is transforming the American economy and remaking the American dream

Selling the American Way Laura A. Belmonte, 2013-03-01 In 1955 the United States Information Agency published a lavishly illustrated booklet called My America Assembled ostensibly to document the basic elements of a free dynamic society the booklet emphasized cultural diversity political freedom and social mobility and made no mention of McCarthyism or the Cold War Though hyperbolic My America was as Laura A Belmonte shows merely one of hundreds of

pamphlets from this era written and distributed in an organized attempt to forge a collective defense of the American way of life *Selling the American Way* examines the context content and reception of U S propaganda during the early Cold War Determined to protect democratic capitalism and undercut communism U S information experts defined the national interest not only in geopolitical economic and military terms Through radio shows films and publications they also propagated a carefully constructed cultural narrative of freedom progress and abundance as a means of protecting national security Not simply a one way look at propaganda as it is produced the book is a subtle investigation of how U S propaganda was received abroad and at home and how criticism of it by Congress and successive presidential administrations contributed to its modification

Selling American Goods in British India Charles C. Batchelder,1923 *Selling War to America* Eugene Secunda,Terence P. Moran,2007-08-30 Battles are won in combat Wars are won by winning the hearts and minds of the people *Selling War to America* provides a thought provoking look at the propaganda efforts the U S government has exerted to that end It begins with an examination of the government s campaign to instigate a war with Spain and ends with a review of the methods being used to encourage support for the War Against Terrorism The book analyzes each of these wars within the context of the techniques used to generate public support also examining the results of propaganda efforts both before and after each conflict From these historical analyses noting both the blunders and the triumphs of the past century the authors offer the keys to successfully persuading the American public to support wars that must be fought Lies were told and truths withheld because government and military leaders did not trust the American people to make appropriate decisions concerning our national security The attacks of September 11 2001 on The World Trade Center Towers and the Pentagon have summoned the American people to a war on terrorism The U S government is now trying to mobilize American public opinion to support this war But this is just the most recent example of how our government has sought to enlist broad public support for the wars it has waged The job of informing and persuading America to support its war efforts has become increasingly more challenging as media technologies like instant global coverage of television news and the Internet reach into every American home

Selling America Christina A. Ziegler-McPherson,2017-02-16 An in depth look at the motivations behind immigration to America from 1607 to 1914 including what attracted people to America who was trying to attract them and why Between 1820 and 1920 more than 33 million Europeans immigrated to the United States seeking the American Dream an image of America as a land of opportunity and upward mobility sold to them by state governments railroads religious and philanthropic groups and other boosters But Christina A Ziegler McPherson shows that the desire to make and keep America a white man s country meant that only Northern Europeans would be recruited as settlers and future citizens while Africans Asians and other non whites would either be grudgingly tolerated as slaves or guest workers or be excluded entirely This book reframes immigration policy as an extension of American labor policy and connects the removal of American Indians from their lands to the settlement of European immigrants across the North American continent Ziegler

McPherson contends that western and midwestern states with large American Indian Asian or Mexican populations developed aggressive policies to promote immigration from Europe to help displace those peoples while Southern states sought to reduce their dependency upon Black labor by doing the same Chapters highlight the promotional policies and migration demographics for each region of the United States *Selling American Leather in Germany* Walter B. Hertz, 1928

Why America is Such a Hard Sell Juliana Geran Pilon, 2007 Why does America consistently receive such low ratings in opinion polls around the world The answer as Pilon explains lies not just in America's overtly forceful actions but in the construction and presentation of its self image Scholars and policymakers alike will find *Why America Is Such a Hard Sell* both a penetrating analysis of America's current efforts in public diplomacy and a prescription for delivering a more appealing self portrait to the world *Hearings* United States.
