Selling War The British Propaganda Campaign Against American Neutrality In World War II:

Selling War Nicholas John Cull, 1995 A study of how British propaganda helped to bring the US into WW2 Radio and the Great Debate over U.S. Involvement in World War II Mark S. Byrnes, 2022-12-13 The debate over US involvement in World War II was a turning point in the history of both US foreign policy and radio In this book the author argues that the debate's historical significance cannot be fully appreciated unless these stories are understood in relation rather than in isolation All the participants in the Great Debate took for granted the importance of radio and made it central to their efforts While they generally worked within radio's rules they also tried to work around or even break those rules setting the stage for changes that ultimately altered the way media managed American political discourse This study breaks with traditional accounts that see radio as an industry biased in favor of interventionism Rather radio fully aired the opposing positions in the debate It nonetheless failed to resolve fully their differences Despite the initial enthusiasm for radio's educational potential participants on both sides came to doubt their conviction that radio could change minds Radio increasingly became a tool to rally existing supporters more than to recruit new ones Only events ended the debate over US involvement in World War II The larger question of what role the US should play in world affairs remained The Concise Encyclopedia of Communication Wolfgang Donsbach, 2015-02-03 This concise volume presents key concepts and entries from the twelve volume ICA International Encyclopedia of Communication 2008 condensing leading scholarship into a practical and valuable single volume Based on the definitive twelve volume IEC this new concise edition presents key concepts and the most relevant headwords of communication science in an A-Z format in an up to date manner Jointly published with the International Communication Association ICA the leading academic association of the discipline in the world Represents the best and most up to date international research in this dynamic and interdisciplinary field Contributions come from hundreds of authors who represent excellence in their respective fields An affordable volume available in print or online The United States and Public Diplomacy Kenneth. A. Osgood, 2010-02-16 Public diplomacy is the art of cultivating public opinion to achieve foreign policy objectives A vital tool in contemporary statecraft public diplomacy is also one of the most poorly understood elements of a nation's soft power The United States and Public Diplomacy adds historical perspective to the ongoing global conversation about public diplomacy and its proper role in foreign affairs It highlights the fact that the United States has not only been an important sponsor of public diplomacy it also has been a frequent target of public diplomacy initiatives sponsored by others Many of the essays in this collection look beyond Washington to explore the ways in which foreign states non governmental organizations and private citizens have used public diplomacy to influence the government and people of the United States *America Between the Wars, 1919-1941* David Welky, 2012-01-17 This collection situates over seventy essential primary documents in their historical context to illustrate the American experience during the interwar era 1919-1941 Introduces a broad range of cultural and historical topics from race and the role of women to trends

in literature and the Great Depression Includes a range of photographs and illustrations End of chapter questions encourage critical thinking and analysis while a bibliography prepares students for further research

Wartime Origins and the Future United Nations Dan Plesch, Thomas G. Weiss, 2015-01-09 The creation of the UN system during World War II is a largely unknown or forgotten story among contemporary decision makers international relations specialists and policy analysts This book aims to recover the wartime history of the United Nations and explore how the forgotten past can shed light on a possible and more desirable future To achieve this each chapter takes three snapshots Then the imaginative and transnational thinking about solutions to post war problems demonstrated a realization that victory in WW II required an intergovernmental system with enough power and competence to work that is the UN was not established as a liberal plaything and public relations ploy but rather as a vital necessity for post war order and prosperity Now which often seems a pale imitation of wartime thinking that nonetheless reflects a growing and widespread recognition of the fundamental disconnect between the nature of trans boundary problems and current solutions seen as feasible by 193 UN member states Next steps or the collective wisdom about the range of new thinking and new institutions that in fact may well have antecedents in wartime thinking and experimentation and could be labelled blue prints for a third generation of intergovernmental organizations This work will be essential reading for all students and scholars of the United Nations International Organizations and Global Governance

Indomitable Will Charles Kupfer, 2012-04-05 Some of the worst military disasters in U S history occurred between Pearl Harbor on December 7 1941 and the Battle of Midway in June 1942 During this period the American people faced a barrage of bad news and accounts of defeats and retreats Yet if they were shocked and dismayed they showed little panic Indomitable Will resurrects the legacy of this first half year of American combat during WWII a legacy of pain but not of woe Historian Charles Kupfer recounts the story of the war's early defeats Bataan Corregidor Wake Island and the Java Sea Some of these battles remain evocative today others are obscure all were catastrophes for American arms Kupfer asserts however that later victories were made inevitable by the steeling effect of those initial disasters Weaving together military journalistic political and cultural histories this engaging book shows that by setting their collective will on victory Americans in and out of uniform gained strength from their setbacks Indomitable Will spells out how the nation turned early defeat into ultimate victory

World War II in Asia and the Pacific and the War's Aftermath, with General Themes Loyd Lee, 1998-10-23 A companion to World War II in Europe Africa and the Americas this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific It also covers themes pertaining to societies at war culture the arts and science and technology as well as international relations and the postwar world Included are not only grand strategy military and naval campaigns and matters of diplomacy but also resistance collaboration prisoners of war and broad topics of the home front including chapters on gender issues film literature popular culture and propaganda This volume and its companion provide the first comprehensive historiographic

reference work on the war Each chapter describes the state of knowledge on the topic relating each bibliographic reference to the chapter's themes and issues and concludes with a bibliography Recent original scholarship is included when it aids new understanding and older works of enduring value also find a place The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature

Indigenous Struggle and the Bolivian National Revolution James Kohl, 2020-11-26 Indigenous Struggle and the Bolivian National Revolution Land and Liberty reinterprets the genesis and contours of the Bolivian National Revolution from an indigenous perspective In a critical revision of conventional works the author reappraises and reconfigures the tortuous history of insurrection and revolution counterrevolution and resurrection and overthrow and aftermath in Bolivia Underlying the history of creole conflict between dictatorship and democracy lies another conflict the unrelenting 500 year struggle of the conquered indigenous peoples to reclaim usurped lands resist white supremacist dominion and seize autonomous political agency The book utilizes a wide array of sources including interviews and documents to illuminate the thoughts beliefs and objectives of an extraordinary cast of indigenous revolutionaries giving readers a firsthand look at the struggles of the subaltern majority against creole elites and Anglo American hegemony in South America's most impoverished nation This book will be of interest to students and scholars of modern Latin American history peasant movements the history of U S foreign relations revolutions counterrevolutions and revolutionary warfare

Meet Me at the Fair: A World's Fair Reader Celia Pearce, Bobby Schweizer, Laura Hollengreen, Rebecca Rouse, 2014 Together with the Olympics world's fairs are one of the few regular international events of sufficient scale to showcase a spectrum of sights wonders learning opportunities technological advances and new or renewed urban districts and to present them all to a mass audience Meet Me at the Fair A World's Fair Reader breaks new ground in scholarship on world's fairs by incorporating a number of short new texts that investigate world's fairs in their multiple aspects political urban architectural anthropological sociological technological commercial popular and representational Contributors come from eight different countries and represent affiliations in academia museums and libraries professional and architectural firms non profit organizations and government regulatory agencies In taking the measure of both the material artifacts and the larger cultural production of world's fairs the volume presents its own phantasmagoria of disciplinary perspectives historical periods geographical locales media and messages mirroring the microcosmic form of the world's fair itself

The 1940s: A Decade of Modern British Fiction Philip Tew, Glyn White, 2022-02-24 How did social cultural and political events concerning Britain during the 1940s reshape modern British fiction During the Second World War and in its aftermath British literature experienced and recorded drastic and decisive changes to old certainties Moving from potential invasion and defeat to victory the creation of the welfare state and a new Cold war threat the pace of historical change seemed too rapid and monumental for writers to match Consequently the 1940s were often sidelined in literary accounts as a dividing line

between periods and styles Drawing on more recent scholarship and research this volume surveys and analyses this period s fascinating diversity from novels of the Blitz and the Navy to the rise of important new voices with its contributors exploring the work of influential women Commonwealth exiled genre avant garde and queer writers A major critical re evaluation of the intriguing decade this book offers substantial chapters on Elizabeth Bowen Graham Greene and George Orwell as well as covering such writers as Jocelyn Brooke Monica Dickens James Hadley Chase Patrick Hamilton Gerald Kersh Daphne Du Maurier Mary Renault Denton Welch and many others The Media and International Security Stephen Badsey,2013-09-13 A collection of the papers from the 1995 Sandhurst conference presented by leading members of the armed forces the media and academia The conference marked a major advance in British thinking on this very topical and fast moving subject bringing together authorities from various fields in a multidisciplinary investigation which has been and will be of great interest to a wide variety of specialist readers The Battle of Britain James Holland,2011-03-15 First published in Great Britain by Bantam Press T p verso **The Battle for Britain** Anthony J Cumming,2015-05-15 The Battle for Britain is a provocative reinterpretation of both British air and naval power from 1909 to 1940 Anthony Cumming challenges the view that the Battle of Britain was a decisive victory won solely by the Royal Air Force through independent airpower operations By re evaluating the early stage of the Mediterranean conflict and giving special emphasis to naval battles such as Calabria and Taranto Cumming argues that the Royal Navy played an equally important role in defeating Hitler s early advances buying critical time until the Americans could make a decisive contribution His argument holds that the RAF s role as an independent arm has been exaggerated and that contemporary strategists can learn from investing too much confidence in independent airpower *The Many Not The Few* Richard North,2012-03-08 Immortalised in Churchill s often quoted assertion that never before was so much owed by so many to so few the top down narrative of the Battle of Britain has been firmly established in British legend Britain was saved from German invasion by the gallant band of Fighter Command Pilots in their Spitfires and Hurricanes and the public owed them their freedom Richard North s radical re evaluation of the Battle of Britain dismantles this mythical retelling of events Taking a wider perspective than the much discussed air war North takes a fresh look at the conflict as a whole to show that the civilian experience far from being separate and distinct was integral to the Battle This recovery of the people s stolen history demonstrates that Hitler s aim was not the military conquest of England and that his unattained target was the hearts and minds of British people Global Communications, International Affairs and the Media Since 1945 Philip Taylor,2002-11-01 In Global Communications International Affairs and the Media since 1945 Philip M Taylor traces the increased involvement of the media in issues of peace and especially war from the nineteenth century to the present day He analyzes the nature role and impact of communications within the international arena since 1945 and how communications interacts with foreign policy in practice rather than in theory Using studies which include the Gul War and Vietnam Taylor details the contemporary problems reporting while at the same time

providing a comprehensive historical context Political Hell-Raiser Marc C. Johnson,2019-03-21 Burton K Wheeler 1882 1975 may have been the most powerful politician Montana ever produced and he was one of the most influential and controversial members of the United States Senate during three of the most eventful decades in American history A New Deal Democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere Political Hell Raiser is the first book to tell the full story of Wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century America Wheeler came of political age amid antiwar and labor unrest in Butte Montana during World War I As a crusading United States attorney he battled Montana s powerful economic interests championed farmers and miners and won election to the U S Senate in 1922 There he made his name as one of the Montana scandalmongers uncovering corruption in the Harding and Coolidge administrations Drawing on extensive research and new archival sources Marc C Johnson follows Wheeler from his early backing of Franklin D Roosevelt and ardent support of the New Deal to his forceful opposition to Roosevelt s plan to expand the Supreme Court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against U S involvement in World War II right up to three days before Pearl Harbor Johnson provides the most thorough telling of Wheeler s entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured The book convincingly establishes the place and importance of this principled hell raiser in American political history *A Nation in Search of Its Nationhood* Juan Manuel Pérez,2023-11-16 When the Liberal Party reached power in Panama in 1912 it started a period that lasted until 1941 A period in which Panamanians due to the special circumstances under which the country became independent the presence of the United States and of thousands of foreign workers in its territory began to doubt and asked themselves if they were truly independent The American presence impacted politics and a sense of inferiority developed because people believed that nothing could be accomplished without the blessings of the United States In the middle of chaotic political scene and self doubt the country retreated to its Hispanic past and began an effort to Hispanize in the face of so much foreign presence and influence and tried to show the world that Panama was an independent country with history and traditions and not an appendage of the United States Belisario Porras who became president in 1912 emphasized the Hispanic past and built statues to Balboa and Cervantes Acci n Comunal founded in 1923 promoted nationalism and criticized the corrupt nature of politics It led a successful campaign against the 1926 Treaty and a coup in 1931 This new generation repudiated the generation that made the 1903 Treaty Panama for Panamanians became one of the catch phrases for the Panamanian youth of the 1920 s and 1930 s which found in the brothers Harmodio and Arnulfo Arias the leading exponents

Nation Branding in Modern History Carolin Viktorin,Jessica C. E. Gienow-Hecht,Annika Estner,Marcel K. Will,2018-08-24 A recent coinage within international relations nation branding designates the process of highlighting a

country's positive characteristics for promotional purposes using techniques similar to those employed in marketing and public relations. Nation Branding in Modern History takes an innovative approach to illuminating this contested concept drawing on fascinating case studies in the United States, China, Poland, Suriname, and many other countries from the nineteenth century to the present. It supplements these empirical contributions with a series of historiographical essays and analyses of key primary documents making for a rich and multivalent investigation into the nexus of cultural marketing, self-representation, and political power.

Global Heartland Peter Simons, 2025-03-25 Highlighting the critical role of midwestern farmers in the creation of the American Century. Though often left out of the story of the making of the American Century, the farmers of the Midwest were at its center, fueling the nation's growing power in the mid-twentieth century. In Global Heartland, Peter Simons explores how, after decades of slipping to the margins of an urbanizing economy, these farmers assumed renewed strategic and cultural importance as they produced essential sustenance for overseas troops and food rations for a domestic population. During the mid-1900s, once isolationist midwestern farmers came to see the continental interior not as an insulated space but as an environmentally rich landscape that mandated them to accept a larger stake in global affairs. Simons traces this transformation from an older agrarian internationalism rooted in religion and ties to family abroad to illuminate the increasing influence of the U.S. agricultural community during the Cold War. Examining regional political parties, Lend Lease programs, wartime mass media, and farmer-led relief programs, and interspersing this history with vignettes revisiting the Mercy Wheat campaign of 1947, the postwar International Farm Youth Exchange, and the Flying Farmers organization, Simons offers an enlightening consideration of midwestern farmers' involvement in America's international ascent. Unique in its focus on farmers and their work rather than the more common attention to food or agricultural commodities, Global Heartland complicates and expands ideas of the farm industry's role in American history.
