Children, Consumerism, and the Common Good Mary M. Doyle Roche,2009-09-17 *Children Consumerism and the Common Good* explores the impact of consumer culture on the lives of children in the United States and globally focusing on two phenomena advertising to children and child labor Christian communities have a critical role to play in securing the well being of children and challenging the cultural trends that undermine that well being Themes in the tradition of Catholic social teaching can move us beyond the tensions between children's rights activists and those who propose a return to family values and can inform practices of resistance participation and transformation Roche argues that children are full interdependent members of the communities of which they are a part They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability The principle of the common good forms the benchmark for analyzing children's participation in the market and the ways in which market logic shapes other institutions of civil society particularly educational institutions The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children's participation in education and the economic life of their families and communities in a spirit of solidarity

Love to Hate Jody Roy,2002-08-27 Why is the simple impulsive question we ask when confronted by horrible acts of hatred and violence Why do students shoot fellow students or employees their coworkers Why do mothers drown their children or husbands stalk and kill their wives Love to Hate challenges us to turn this question upon ourselves at a deeper level Why as a culture are we so fascinated by these acts Why do we bestow celebrity on the perpetrators while allowing the victims to fade into a second death of obscurity Are we as Pope John Paul II famously accused a culture of death And if so how can we break free of this unacknowledged aspect of the cycle of violence Unlike those who point solely to media imagery splintered families or lax gun control laws in search of the roots of America's endemic violence Jody M Roy suggests that we all must be held responsible She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture The very words we use function as building blocks of callousness and contempt betraying our immersion in subtexts of violence and hatred These subtexts are further revealed in our complex attitudes toward street gangs school shooters serial killers and hate groups and

the paroxysms of violence they unleash As spectators driven by our impulse to watch we become an integral part of the equation of violence In the book s final section Freeing Ourselves of Our Obsession with Hatred and Violence Roy offers practical steps we can take as parents consumers and voters to free ourselves from linguistic and cultural complicity and to help create in America a culture of life

In the End the Beginning Juergen Moltmann, 2013-01-26 In my end is my beginning wrote T S Eliot at the close of his poem East Coker and that line gave me the title for this book With it I should like to express the power of the Christian hope for Christian hope is the power of resurrection from life s failures and defeats It is the power of the rebirth of life out of the shadows of death It is the power for the new beginning at the place where guilt has made life impossible From the Introduction by Jurgen Moltmann In this short doctrine of hope Jurgen Moltmann examines the personal experiences in life in which the future is awaited times when we search for new beginnings and find them In three parts that correspond to the three beginnings in life birth rebirth and resurrection Moltmann extols the true value of Christian hope that powers new beginnings Jurgen Moltmann is Emeritus Professor of Systematic Theology at the University of Tübingen Germany He is the author of a number of books published by SCM Press including Theology of Hope The Crucified God and The Church in the Power of the Spirit

Generation Digital Kathryn C. Montgomery,2009-02-13 The role that children and youth play in the emerging digital media culture as consumers targeted by marketing campaigns as creators of their own digital culture and as political participants Children and teens today have integrated digital culture seamlessly into their lives For most using the Internet playing videogames downloading music onto an iPod or multitasking with a cell phone is no more complicated than setting the toaster oven to bake or turning on the TV In Generation Digital media expert and activist Kathryn C Montgomery examines the ways in which the new media landscape is changing the nature of childhood and adolescence and analyzes recent political debates that have shaped both policy and practice in digital culture The media has pictured the so called digital generation in contradictory ways as bold trailblazers and innocent victims as active creators of digital culture and passive targets of digital marketing This says Montgomery reflects our ambivalent attitude toward both youth and technology She charts a confluence of historical trends that made children and teens a particularly valuable target market during the early commercialization of the Internet and describes the consumer group advocacy campaign that led to a law to protect children s privacy on the Internet Montgomery recounts as a participant and as a media scholar the highly publicized battles over indecency and pornography on the Internet She shows how digital marketing taps into teenagers developmental needs and how three public service campaigns about sexuality smoking and political involvement borrowed their techniques from commercial digital marketers Not all of today s techno savvy youth are politically disaffected Generation Digital chronicles the ways that many have used the Internet as a political tool mobilizing young voters in 2004 and waging battles with the music and media industries over control of cultural expression online Montgomery s unique perspective as both advocate and analyst will help parents politicians and corporations take the necessary steps to create an open diverse equitable and safe digital media culture for young people
