Grand Designs and Visions of Unity Jeffrey Glen Giauque, 2002 In the late 1950s against the unfolding backdrop of the Cold War American and European leaders began working to reshape Western Europe Focusing on the four largest Atlantic powers Britain France Germany and the United States Giauque explores these early stages of European integration *The Almost Impossible Ally* Peter Mangold, 2006-02-02 On 14 January 1963 General de Gaulle described by the Foreign Office as an almost impossible ally brutally vetoed Britain's first bid to join the Common Market It was a blow that delayed Britain's entry for a decade and hastened the end of Harold Macmillan's political career Peter Mangold writes in arresting detail about the fascinating personal duel that shaped high politics and Anglo French diplomacy He portrays two of the most complex and skilful leaders of the post war era old friends from their association in Algiers during World War II de Gaulle the dour lofty moralist obsessed with high notions of France and Macmillan the canny ambitious fixer always the pragmatist seeking to get things done As Resident Minister Allied Forces Headquarters in Algiers in 1943 Macmillan had done much to help de Gaulle and protect him from Churchill's and Roosevelt's hostility They next met in 1958 as leaders of their two countries when Britain and France faced many similar problems ranging from decolonization and their determination to retain national Great Power status to relations with the impetuous Soviet leader Nikita Khrushchev But while both seemed anxious to retain their old wartime connection they were now rivals with very different views of the world Divided by the Atlantic as much as the Channel the two leaders disagreed fundamentally over America De Gaulle sought the leadership of a Europe independent of the United States the pro American Macmillan talked of Britain as a bridge between the two sides of the Atlantic When Macmillan finally sought EEC membership de Gaulle played on the old alliance to keep the British Prime Minister off guard Ultimately Macmillan was outwitted out manoeuvred and even perhaps outclassed by the General *The Almost Impossible Ally* is a fascinating story of a friendship turned sour and of a compelling new episode in the turbulent relations between Britain and France

Onslow, 1997-03-17 This book examines Conservative backbench debate on European integration and British relations in the Middle East between 1948 and 1957 In seeking to compare the impact of a loose affiliation of Conservative MPs an organized faction of longstanding and an ad hoc pressure group the text concentrates upon the Europeanists the Suez Group and the Anti Suez Group and considers their attempts to influence British foreign policy using interviews with former parliamentarians and contemporary sources published and unpublished

British Foreign Policy Towards Turkey, 1959-1965 Cihat Goktepe, 2013-07-23 This volume examines how Conservative and Labour governments in the UK related diplomatically to a plurality of Turkish governments between 1959 and 1965 With research based on newly available Public Records Office archives the author provides insight on British reactions to political events in Turkey and shows that in relation to the partition of Cyprus the crucial changes started as early as 1963 with Britain's indirect support

My Struggle for Peace, Volume 3 (1956) Moshe Sharett, 2019-03-19 The third volume of the former Israeli prime minister's journals from the nation's early years My Struggle for Peace is a remarkable political document offering insights into the complex workings of the young Israeli political system set against the backdrop of the disintegration of the country's fragile armistice with the Arab states Replete with Moshe Sharett's candid comments on Israel's first generation leaders and world statesmen of the day the diary also tells the dramatic human story of a political career cut short the

removal of an unusually sensitive dedicated and talented public servant My Struggle for Peace is above all an intimate record of the decline of Sharett's moderate approach and the rise of more activist militant trends in Israeli society culminating in the Suez Sinai war of 1956 The diary challenges the popular narrative that Israel's confrontation with its neighbors was unavoidable by offering daily evidence of Sharett's statesmanship moderation diplomacy and concern for Israel's place in international affairs This is the third volume in the 3 volume English abridgement of Sharett's Yoman Ishi Personal diary Ma'ariv 1978 maintains the integrity flavor and impact of the 8 volume Hebrew original and includes additional documentary material that was not accessible at the time The volumes are also available to purchase as a set or individually The editors vastly improved on the Hebrew version by adding Sharett's speeches reports cabinet minutes and other sources to the text These additions make this work so important and welcome by all who aspire to understand the foreign and defense policies of Israel in its first decade Israel Studies Review

Rolling the Iron Dice Scot Macdonald, 2000-07-30 Does history provide lessons for foreign policy makers today Macdonald combines cognitive psychology theories about analogical reasoning international relations theories about military intervention and original archival research to analyze the role of historical information in foreign policy decision making He looks at the role of historical analogies in Anglo American decision making during foreign policy crises involving the possible use of force in regional contingencies during a crucial period in the 1950s when the West faced an emerging Soviet threat This study analyzes the influence of situational and individual variables in a comparison of more than ten leaders from two nations facing four different crises Rolling the Iron Dice describes the often significant effect of historical analogies on perceptions of the adversary and of allies time constraints policy options and risks as well as the justification of policy in four crises the 1950 Korean invasion the 1951-53 Iranian oil nationalization incident the 1956 Suez crisis and the 1958 crisis in Lebanon and Jordan Contrary to both the slippery slope and the escalation models of military intervention Macdonald argues that leaders decide extremely early in a crisis often on the basis of an historical analogy but also based on perceptions of the rationality of an adversary whether to use military force Their decision does not change unless the adversary capitulates to every demand Six Moments of Crisis Gill

overburdened government Security in the Gulf Ash Rossiter, 2020-06-04 The British Empire employed a diverse range of strategies to establish and then maintain control over its overseas territories in the Middle East This new interpretation of how Britain maintained order protected its interests and carried out its defence obligations in the Gulf in the decades before its withdrawal from the region in 1971 looks at how the British government increasingly sought to achieve security with

great economy of force by building up local militaries instead of deploying costly military forces from the home country Benefitting from the extensive use of recently declassified British Government archival documents and India Office records this highly original narrative weighs the successes and failures of Britain's use of indirect rule among the small states of Eastern Arabia including Kuwait Bahrain Qatar the seven Trucial States and Oman Drawing important lessons for scholars and policymakers about the limitations of trying to outsource security to local partners Security in the Gulf is a remarkable study of the deployment of British colonial policy in the Middle East before 1971 *The EOKA Cause* Andrew R.
