## **Shamanism And The Drug Propaganda:**

**Shamanism and the Drug Propaganda** Dan Russell, 1998 Shamanism and the Drug Propaganda is a popularly written college level introduction to ancient history and the Greek classics The text is fully annotated and illuminated by 200 genuine pharmaco shamanic images from the ancient world Since it is popularly written and very heavily illustrated with the remarkable overtly pharmaco shamanic art of the ancient world it reads like a movie But a movie with profound psychological and political relevance for the contemporary world since it uses the words and pictures of our ancestors to address contemporary issues In this sense it compares to The Chalice and the Blade and Food of the Gods two recent bestsellers of similar intent As such the book is a unique tool for exciting undergraduates about the contemporary relevance of ancient history and the Greek classics This was the intent of Jane Ellen Harrison in her Prolegomena and Epilegomena to the Study of Greek Religion Harrison was the most influential classicist of the twentieth century and not coincidentally the most influential feminist historian of the century as well A major feature of Shamanism and the Drug Propaganda in 4 of its 17 chapters is its summary of Harrison's seminal thesis in her own words Harrison was concerned with the historical and psychological transition from the originary matriarchal conscious of tribal culture to the warrior oriented patriarchal consciousness of industrial culture She understood this transition to be central to the process of industrial enslavement That enslavement necessarily demonized the power rites the rites de passage as she called them of tribal cultures That is Harrison pointed to the tribal the matriarchal pre industrial roots of Classical patriarchal industrial Greek culture She was therefore concerned with originary tribal Greek sacramentalism Herbal magic real pharmaco shamanism is at the core of all matriarchal cultures The Goddess does not separate from her herbal magic from her invention of medicine The central sacrament of all Paleolithic Neolithic and Bronze Age cultures known is an inebriative herb a plant totem which became metaphoric of the communal epiphany These herbs herbal concoctions and herbal metaphors are at the heart of all mythologies They include such familiar images as the Burning Bush the Tree of Life the Cross the Golden Bough the Forbidden Fruit the Blood of Christ the Blood of Dionysos the Holy Grail or rather its contents the Chalice Kalyx flower cup the Golden Flower Chrysanthemon Ambrosia Ambrotos immortal Nectar Nektar overcomes death the Sacred Lotus the Golden Apples the Mystic Mandrake the Mystic Rose the Divine Mushroom teonanacatl the Divine Water Lily Soma Ayahuasca Vine of the Soul Kava Iboga Mama Coca and Peyote Woman They are the archetypal the emotionally the instantaneously understood symbols at the center of the drug propaganda A sexually attractive man or woman is an archetypal image the basis of most advertising A loaf of bread is an archetypal image The emotional impact of the sacramental herbal images or rather the historical confusion of their natural function is central to the successful manipulation of mass emotion and individual self image That is contemporary politics has an unconscious an evolutionary element that involves the industrial manipulation of instinct That manipulation can only be understood by contemplating

what elements of our evolutionary inheritance contemporary inquisitors want forgotten      *Shamanism and the Drug Propaganda* Dan Russell,1995-12-01      *Shamanism and the Drug Propoganda* Dan Russell,1994      **The Political**

**Economy of Narcotics** Julia Buxton,2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition      **Phenomenal World** Joan

D'Arc,2000-11 For centuries mankind has been exploring the nature of reality The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist Yet the answers to the key of reality go far beyond this mindset This book explores the clues we have about the nature of reality especially those aspects that cannot yet be proven If we can understand the most baffling aspects of reality then we will move closer toward understanding its ultimate cause and nature      [You Are STILL Being Lied To](#) Russ Kick,2009-01-01 A must have revised and expanded edition of The Disinformation Company s classic anthology *You Are STILL Being Lied To* contains more than a dozen all new essays from contributors like Norman Solomon Graham Hancock Alex Jones John Major Jenkins Robert Bauval Richard DeGrandpre Alexandra Bruce John Hogue Gregory Davis and Scott Creighton on topics ranging from the misleading marketing of antidepressants to the truth about the North American Union from media consolidation to the New Thought movement Editor Russ Kick s massive collection acts as a battering ram against the distortions myths and outright lies that have been shoved down our throats by the government the media corporations organized religion the scientific establishment and others who

want to keep the truth from us An unprecedented group of researchers including Howard Zinn Noam Chomsky Howard Bloom Sydney Schanberg Michael Parenti Riane Eisler Jim Marrs and many many others paint a picture of a world where crucial stories are ignored or actively suppressed and the official version of events has more holes in it than Swiss cheese A world where real dangers are downplayed and nonexistent dangers are trumpeted In short a world where you are being lied to

Cynthia Cotts Russ Kick Dr Stanislav Grof Daniel Pinchbeck Paul Armentano Jacob Sullum Peter Dale Scott and Robert Anton Wilson     **From the Bodies of the Gods** Earl Lee, 2012-05-16 The origins of modern religion in human sacrifice ritual cannibalism visionary intoxication and the Cult of the Dead Explores ancient practices of producing sacred hallucinogenic foods and oils from the bodies of the dead for ritual consumption and religious anointing Explains how these practices are deeply embedded in the symbolism theology and sacraments of modern religion specifically Christianity and the Eucharist Documents the rites of Cults of the Dead from the prehistoric Minoans on Crete to the ancient Egyptians Greeks and Hebrews to early and medieval Christian sects such as the Cathars Long before the beginnings of civilization humans have been sacrificed and their flesh used to produce sacred foods and oils for use in religious rites Originating with the sacred harvest of hallucinogenic mushrooms from the corpses of shamans and other holy men these acts of ritual cannibalism and visionary intoxication are part of the history of all cultures including Judeo Christian ones and provided a way to commune with the dead These practices continued openly into the Dark Ages when they were suppressed and adapted into the worship of saintly bones or continued in secret by a few heretical sects such as the Cathars and the Knights Templar While little known today these rites remain deeply embedded in the symbolism theology and sacraments of modern religion and bring a much more literal meaning to the church's Holy Communion or symbolic consumption of the body and blood of Christ Documenting the sacrificial cannibalistic and psychoactive sacramental practices associated with the Cult of the Dead from the prehistoric Minoans on Crete to the ancient Egyptians and Hebrews and onward to early and medieval Christian sects Earl Lee shows how these religious rites influenced the development of Western religion In particular he reveals how Christianity originated with Jesus's effort to restore the sacred rites of Moses including the Marzeah or Feast for the Dead Examining the connections between these rites and the mysterious funeral of Father Sauniere in Rennes le Chateau the author explains why the prehistoric Cult of the Dead has held such power over Western civilization so much so that its echoes are still heard today in our literature film and arts     **False Dawn** Lee Penn, 2004 The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today's interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI's proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans Kung and from the Dalai Lama to the leaders of government approved Protestant churches in the People's

Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org      **Journal of Cognitive Liberties** ,1999      **The Drug Users Bible [Extended Edition]** Dominic Milton Trott,2022-09-12 Note that this is the complete and final version of The Drug Users Bible People are dying because of ignorance They are dying because unremitting propaganda is denying them vital safety information They are dying because legislators and the media are censoring the science and are ruthlessly pushing an ideological agenda instead They are dying because the first casualty of war is truth and the war on drugs is no different This book makes a significant contribution in confronting this harrowing and tragic narrative Over a 12 year period the author of this book self administered over 180 psychoactive substances both chemicals and plants For each he recorded the life sensitive safety data including the anticipated onset times the common threshold doses the routes of administration and the expected duration of the experience In addition for every compound he also produced a trip report detailing the qualitative experience itself This delivered another invaluable insight enabling for example an objective assessment of the extent of any loss of judgement and self control This is a substantial body of work embracing a wealth of direct support material including addiction overdose advice relative harm tables and legal briefings Its contents also extend to cover aspects such as drug tourism psychedelic

exploration and drug related culture It is crammed with detailed reference data and even includes its own drug dictionary The Drug Users Bible is a unique and unprecedented volume of encyclopaedic research embracing the full extent of the drugscape Its objective is to provide without fear or compromise core and critical information to support the health welfare and well being of the 250 million people in the world who use drugs The book itself is lavishly illustrated with hundreds of photographs taken by the author himself THE TEN COMMANDMENTS The first section comprises a comprehensive introduction to crucial drug concepts and practices This in itself is indispensable prior reading for anyone who chooses to use a psychoactive substance It contains for example a detailed risk mitigation procedure The 10 Commandments of Safer Drug Use This presents a generic set of easily understood steps to aid personal safety inclusive of an illustrated explanation of how to identify test the substances themselves THE PSYCHOACTIVE DRUGS The full gamut of psychoactive chemicals and botanicals is meticulously covered Well known examples include heroin cannabis xanax kratom cocaine DMT methamphetamine ketamine LSD ayahuasca alcohol and MDMA Lesser known examples include 4 ho met calea ephedrine mad honey mapacho a PHP and yohimbe The scope also extends well beyond the most common categories of psychedelics stimulants depressants and dissociatives Included for example are dream herbs and nootropics The investigation of psychoactivity was unbounded and unfettered THE WORLDSCAPE Drug use does not occur in a vacuum so the final section considers the wider context with in depth examination of everything from travel to the horrors of the war on drugs Facts science and genuine statistics replace the myths fabrications and propaganda of the prevailing social order again with welfare and safety emphasized EDUCATION SAVES LIVES Education underpins harm reduction and is the primary driver throughout Indeed personal safety is the first and last message and guides the entire narrative This is a book for drug users and their families It is a book which will help to avert tragedy It is a book which will save lives **Forthcoming Books** Rose Arny,2001-08 *The Oxford Handbook of Global Drug History* Paul Gootenberg,2022 This landmark collection of essays by thirty five historians working on a global scale brings together the latest knowledge and perspectives about the long origins and transformations of today s illicit drugs such as cannabis heroin and cocaine *Shamanism and Vulnerability on the North and South American Great Plains* Kathleen Bolling Lowrey,2020-12-01 In *Shamanism and Vulnerability on the North and South American Great Plains* Kathleen Bolling Lowrey provides an innovative and expansive study of indigenous shamanism and the ways in which it has been misinterpreted and dismissed by white settlers NGO workers policymakers government administrators and historians and anthropologists Employing a wide range of theory on masculinity disability dependence domesticity and popular children s literature Lowrey examines the parallels between the cultures and societies of the South American Gran Chaco and those of the North American Great Plains and outlines the kinds of relations that invite suspicion and scrutiny in divergent contexts in the Americas power and autonomy in the case of Amerindian societies and weakness and dependence in the case of settler societies She also demonstrates that where stigmatized or repressed in

practice dependence and power manifest and intersect in unexpected ways in storytelling fantasy and myth The book reveals the various ways in which anthropologists historians folklorists and other writers have often misrepresented indigenous shamanism and revitalization movements by unconsciously projecting ideologies and assumptions derived from modern contract societies onto ethnographic and historical realities Lowrey also provides alternative ways of understanding indigenous American communities and their long histories of interethnic relations with expanding colonial and national states in the Americas A creative historical and ethnographical reevaluation of the last few decades of scholarship on shamanism disability and dependence Shamanism and Vulnerability on the North and South American Great Plains will be of interest to scholars of North and South American anthropology indigenous history American studies and feminism
